序:浓墨重彩绘铜都

铜陵市人民政府市长　李　明

铜陵风光秀美,历史上就是著名的吴头楚尾礼仪之邦,江南形胜之地,依山傍水,襟江带湖,独特的自然景观和人文景观荟萃一地,引得历史名士纷至沓来。从唐代大诗人李白到宋代大诗人苏轼、王安石、杨万里,从明代戏剧家汤显祖,再到清代"桐城派"的刘大魁等纷纷慕名前来探幽访胜,触景生情,落笔成章,留下许多千古传诵的诗文。

铜陵历史悠久,经专家对金牛洞古采矿遗址的发掘及对铜陵出土的青铜器鉴定,早在3000多年前,铜陵就因产铜而成为著名的"中国古铜都",其采冶铜历史始于商周,盛于汉唐,延绵至今,是中国青铜文化的发源地之一。

铜陵物产丰富,已探明的地下矿产资源达数十种之多,除铜以外,还有金、银、铁、煤、石灰和多种稀有金属。土特产铜陵生姜、铜陵凤丹名冠华夏,"野雀舌"茶叶为江南名茶之佳品。

铜陵地域文化特色鲜明,大通鹊江龙舟赛、顺安三月三庙会,已列入全省非物质文化遗产名录的《铜陵牛歌》、钟明竹马灯等,构成了铜陵独特的风俗民情画卷。

铜陵自古人杰地灵,俊才辈出……

1949年,千年古铜矿重获新生,"创业"成为矿山的主旋律。新中

国第一代铜矿工人从这里诞生，新中国第一炉铜水从这里炼成。昔日古铜都已建设成为新中国的现代化铜基地。

特别是近年来，铜陵市委、市政府按照科学发展观的要求，努力实现人与自然的高度和谐，实现物质、精神、生态三大文明的高度统一，实现经济、社会、环境三大效益的相互协调，使3000年青铜文明、铜都山水特色与现代城市建设交相辉映，形成一个融生态、山水、文化为一体，由微观逐步向宏观推进的城市发展蓝图。

在市委、市政府的坚强领导下，经过全市人民的艰苦努力，近年来铜陵经济、政治、文化和社会民生建设等各个领域全面进步，一些经验和成果不仅在全省领先，而且在全国也具有典型示范意义。经济又好又快发展，进入了安徽奋力崛起第一方阵。社会事业蓬勃发展，民生工程实现了多个率先。文化成果丰硕，新时期铜都精神得到了弘扬。争先创优的氛围浓郁，不少领域荣获了多项国家级荣誉：先后荣获了全国文明城市创建工作先进市、全国科技进步先进市、全国质量兴市先进市、全国双拥模范城、全国优秀城市和全国社会治安综合治理优秀城市等称号，并入选中国魅力城市提名城市。

青山添锦绣，碧水映蓝天，山水铜都正尽情展示她美丽的容颜。

A Portrait of the Bronze Capital

Li Ming

Mayor of Tongling Municipal People's Government

By Yangtse River, with Tianjing Lake in its boundary, Tongling, a city located in southern China surrounded by mountains and waters, is endowed with enchanting landscape. It has also been a land of courtesy since the ancient time, with its location just at the connection of two ancient kingdoms Wu and Chu. Its unique culture and beautiful landscape have brought the footsteps of many famous figures here. From Li Bai, a great poet of Tang Dynasty (618–907), to Su Shi, Wang Anshi and Yang Wanli, great poets of Song Dynasty (960–1279), to Tang Xianzu, a famous playwright of Ming Dynasty (1368–1644), to Liu Dakui, a "Tongcheng school poet" of Qing Dynasty (1644–1911), they were all attracted by the fame of ancient Tongling and came here for an aesthetic journey. They were touched and inspired by its beauty and left their descendants many excellent poems and verses.

Jinniu Ancient Mining Relic Site was discovered in Tongling and the unearthed bronze castings demonstrate that Tongling has a long and profound history. The experts' appraisal of those wares show that even more than 3,000 years ago Tongling was renowned as "China's Ancient Bronze Capital" and the history of its copper mine, smelting and casting started in Shang and Zhou Dynasties (BC 16C–BC 256), prospered in Han and Tang Dynasties (BC 206 – AD 220, 618–907, respectively) and continues to develop into the modern time. Tongling is one of the cradles for China's bronze culture.

Tongling is also endowed with abundant natural resources and products. Dozens of minerals apart from copper have been proved, such as gold, silver, iron, coal, limestone and other rare metals. Other local specialties include the renowned Chinese ginger,Fengdan Peony, and the famous South China tea, "Wild Sparrow Tongue-tip" (named after its shape).

Tongling is soaked in a unique regional culture. The dragon boat race on Que River in Datong County, the March 3rd temple fair in Shun'an County and, the Tongling cowherds' song and the Zhu Ma Deng performance (literally "bamboo horse lantern") of Zhongming County already ranked in the list of Anhui Provincial Spiritual Cultural Heritage, demonstrate a distinct portrait of Tongling local life and traditions.

Tongling, a beautiful place, has fostered generations of gifted people…

In 1949, the ancient copper mine industry recaptured a new life and "starting an undertaking" became the main theme of time. The

first generation of copper miners was born and the first batch of melted copper of new China was produced here. The ancient bronze capital has developed into a modern copper production base of China.

Especially in recent years, Tongling Municipal Committee of CPC and Tongling Municipal Government have followed the principle of scientific development, made great efforts to achieve the harmony between human and nature, between the development of material, spiritual and ecological civilizations and between economic prosperity, social advancement and environmental protection, promoted the integration of the 3000 years' bronze culture, Tongling's distinct landscape and its modern construction, and thus have formed an urban development plan about combining ecology, landscape and culture, and advancing from micro level to macro level.

With the firm guidance of the Municipal Committee of CPC and the Municipal Government and through the arduous efforts of its people, Tongling has made a comprehensive progress in economy, politics, culture, society and people's life. Some of its experience and achievements is leading not only in Anhui province but also in the whole China. With a rapidly and soundly developing economy, Tongling becomes one of the vanguard cities in the development of Anhui province. It has also made great progress in its social cause and sets examples for others in improving its people's life. Nor is it left behind in cultural construction: the spirit of bronze capital has been promoted and enhanced. With such a positive and vibrant environment, Tongling won various national tittes of honour: National

Advanced City in Urban Civilization, National Advanced City in Technological Development, National Advanced City in Development on Quality, National Double Support Model City, National Excellent City, and National Model City for Comprehensive Administration of Public Security, etc. Besides, it was also nominated for National Charm City.

Dotted by green mountains and azure waters, the bronze capital extends its territory under the blue sky displaying an enchanting radiance.
