献给中国红十字会百年华诞

红十字颂

—— 崔以泰

爱心绘十字，殷红寓深情，

奉献无私念，伟业方寸中。

中国红十字，百年五丰功，

历尽沧桑变，迎来旭日红。

Painted with love is the Red Cross

Where embedded is deep affection;

On just this mini-piece of a stamp

Its selfless devotion makes the reflection.

Hail to Red Cross Society of China!

In celebrating her centenary that's passed

It's welcoming the sunrise in the East,

Yet with memory of her great eventful past.

The book on Red Cross in philately of Prof Tsuei is very well known by Romanian philatelists. It has obtained a very important distinction 2 years ago at FILTEM, the Romanian exhibition of topical philately with international participation. It has been displayed in a central position, at FILTEM, in the window with philatelic journals and books and I remember it was the most impressive exhibit. The jury members were very pleased to see the high quality of the content and the wonderful publishing conditions. It was a real typical product: the main features were: solid appearance and clever writing. In a country where people have a great sympathy for China and Chinese people, we, the philatelists were proud to display such a wonderful volume!

Now I am sure the new work of Professor Tsuei will represent a progress. We appreciate the contribution of Prof. Yang Gwangwu in the dissemination of this book. We consider that this work of excellent quality is an important ambassador of Chinese philately in Europe. The authors and publishers have to be proud!

崔以泰教授的医学集邮著作对罗马尼亚的集邮者们是很熟悉的。两年前，在由国际集邮界参加的罗马尼亚专题集邮展览上该书获得不凡的成绩。在FILTEM邮展上该书摆放在中心位置，在其他集邮杂志和书籍中，我记得那是给人印象最深的展品。评审员们非常高兴看到这样高质量内容和这样精美的印刷的集邮书籍。该书的确是一部有代表性的作品：具有外观上乘，文字清晰的特点。在一个对于中国和中国人民怀有美好感情的国家里，我们，罗马尼亚的集邮者们，为能够展出这样优秀的图书感到骄傲！我相信崔教授的新作会更上一层楼。我们非常感谢杨光午教授将此书推荐给我们。我们认为这部优秀的新作是中国集邮界在欧洲的一位重要的使者。该书的作者和出版社也将以此书为荣！

SHAN Yuanzhu Professor of pathophysiology and instructor of masters students, graduated from Tianjin Medical University in 1959 and then was assigned to teach at the university. In 1959, she went to China Medical University, Changchun, for further study of pathophysiology and research methods. From 1983 to 1985, she studied at West Ontario University and Cleveland Clinical ICU as a visiting scholar.

In the 1960s, she put forward that the trace elements of Calcium, Zinc, Tin, Magnesium and Germanium are essential and vital to health and are significant in the prevention of diseases. Her researches also include the relationship between CAMP and diseases. Early in the 1960s, she established a clinical pathophysiological lab, and developed 11 lab tests including blood gas analysis, hemodialysis, microcirculation assessment, and in the 1980s developed the process of blood viscosimetry. The first ICU in China was established by Prof. Shan. She summed up her experience in teaching and research and included her achievements into teaching materials. She published three monographs and has published over 50 research papers. For her contributions, she garnered more than 10 prizes from the State Educational Committee, the municipal authorities and the local relevant bureaus. She is an enthusiastic stamp collector. She dedicated great efforts to help compile *GRAND VIEW OF WORLD MEDICAL STAMPS* edited by Prof. Cui and helped organize the exhibit entitled *THE LIGHT OF THE RED CROSS SHINES OVER THE WORLD*.

序

我读过崔以泰教授主编的《世界医学邮票大观》一书。它用5600多枚邮票等邮品写出了一部医学史，是一部人类和疾病作斗争并战胜疾病的可歌可泣的真实写照。此书在1999年北京国际邮展荣获文献类镀金奖，并在2001年罗马尼亚举办的国际集邮展览中荣获文献类的最高奖—金奖。红十字邮票占该书的重要位置，数量为各章之最。

自1840年黑便士邮票问世以来，邮票和与邮政相关的集邮品浩如烟海，难以计数。医学题材的邮票是最大的专题之一，而红十字邮票又在其中占据首位。今年适逢我国红十字会成立一百周年，为纪念这一盛事，崔以泰教授在《世界医学邮票大观》一书中红十字137页的基础上，充实了大量珍贵的红十字邮票及相关邮品，扩充到400页，以《世界红十字邮票博览》的书名问世。这不但是红十字集邮的硕果，也是庆祝我国红十字会百年华诞的一份献礼。借此机会，我也对我国红十字会表示衷心地、热烈地祝贺，也希望由亨利·杜南创立的，孙中山先生曾为之题写“博爱”的红十字精神，也就是“人道、博爱、奉献”的精神，进一步发扬光大。希望本书的出版能得到红十字工作者、医务界、教育界、科学界、和集邮界朋友们及广大读者的喜爱和欢迎。

Preface

I have a copy of GRAND VIEW OF WORLD MEDICAL STAMPS compiled by Prof. Tsuei Yitai. I enjoyed reading it and deem it is a great book of medical history told by more than 5000 stamps and other philatelic items and is authentically portrayed as man's struggle to conquer the diseases. The book garnered a vermeil medal at the Beijing International Stamp Exposition 1999. Later it won a gold medal at the International Stamp Show in Romania. I noticed that the chapter on the Red Cross movement forms a great part of the book.

Thousands upon thousands of stamps have been issued ever since the penny black appeared in 1840 and more new issues come out with each passing day. Among them, medical stamps constitute an outstanding theme in which Red Cross stamps form the major part as a single topic. As the Red Cross Society of China happens to celebrate its centenary in 2004 and to mark this great event, Prof. Tsuei re-edited the chapter on Red Cross of his former book and very much expanded the thematic collection with many new and interesting additions, expanding a 137-page chapter into a 400-page new book under the title of PANORAMA OF WORLD RED CROSS STAMPS.

Not only is this an achievement of his hobby but also a tribute to the centenary of the RCSC. I'd like to express my personal tribute to RCSC. Meanwhile I hope the great spirit of fraternity and humanitarianism advocated by Henry Dunant and approved by Dr. Sun Yet-sen, the Chinese great revolutionary, with the inscription of BO AI which means "fraternity" will be carried forward from generation to generation.

We hope this new book will become popular with Red Cross workers, medical workers, educational workers, scientists and researchers, in the philatelic circle as well as for the reading public.

前言

今年3月10日是中国红十字会成立100周年纪念日。一个世纪的风风雨雨，一个世纪的惊世骇俗，一个世纪的辉煌历程，一个世纪的卓越贡献，怎不该用如椽之笔，挥毫于蓝天呢？怎不该隆重庆贺一番呢？我们该如何缅怀这段历史，它的创始人让-亨利-杜南和有关的风云人物，以及他们的丰功伟绩，特别是红十字精神呢？

我从学生时代开始已经从事集邮活动50个年头了，也就是说已经有半个世纪了。也可以说我也是从对邮票感兴趣，喜欢它的精美画面开始，从一张张邮票的搜集积累，到整理分类，从泛泛收藏到专题收藏，从一般专题到结合自己专业的医学专题，特别是集中于对“红十字专题”的收藏，从收藏国内的邮票到全世界范围的收藏，从业余爱好到把它当作宏伟的“事业”，从集邮票到知识的积累，到研究，到著书，到教育自己，再教育别人，到认识的提高，到促进世界观、人生观、价值观的改变。

我从有关红十字邮票的千百枚邮品中，看到了红十字会的历史，红十字的精神，掬取了无穷的力量。国际红十字会的创始人让-亨利-杜南，在索费林诺战场上看到交战国双方的伤病员处于水深火热，伤痛与血泪交织而且无助的惨景中，迸发出“四海之内皆兄弟”的救死扶伤精神，“人道、博爱、奉献”的精神。进而发展成“救援工程”、“生命工程”、“爱心工程”。从战地救护延展到抗震救灾、抗洪救灾，到编织红十字救护网，情系生命之河，到爱心挽“夕阳”，情暖孤儿心，助残济困，情满人间，发扬了国际人道主义精神，无私奉献精神。这种精神与“只有解放全人类，才能最后解放自己”，“先天下之忧而忧，后天下之乐而乐”，“勿以善小而不为，勿以恶小而为之”与“天下为公，世界大同”，与“和平、友善”，与“仁者爱人”何其相近，何其相似，何其相通啊！而与发动侵略战争的战争贩子，与单边利己，损人利己，损公肥私，贪污腐败，道德沦丧与强权政治，弱肉强食的森林哲学，形成多么鲜明的对比啊！

我从红十字邮票的收藏过程中，从集邮到集知识，到集思想，到集情，到集爱。借庆祝我国红十字会成立百年的机遇，再把我要受到的启迪、教育，转献给喜爱并能阅读本书的邮友、志同道合者，这就是我编写本书的初衷。这本书共400页，2900余枚邮票、邮品，论述了红十字会的创始人杜南、红十字精神、世界红十字会发展的历史、中国红十字会，并按洲划分论述了世界各国的红十字会。不妥当处，恳请不吝赐教。

Foreword

Red Cross Society of China will celebrate its centenary on March 10th this year. Its great contributions over the past century are worth remembering. The International Red Cross movement and all the outstanding figures who devoted themselves to this noble cause and their spirit are history making. Its excellent achievements, and its outstanding contributions, over the past century are really worth volumes.

I have been collecting stamps for over 50 years ever since I was a student. At first I took interest in their attractive designs. When my collection grew to some size, I began to sort them into thematic albums. Later I further focused on the collecting of items of medical interest as my career specialty is medicine, especially Red Cross stamps from around the world. With the growing of the collection, I began to see the collecting of Red Cross stamps as a great “cause”, to study them ardently and then began to publish books on the theme so as others could share my interest, as well as its educational facet while I learn a lot myself — its world view, philosophy and value of life.

From the thousands of Red Cross stamps (including Red Crescent stamps etc), I learned its history and humanitarian spirit, which gave me strength. Henry Dunant, the founder of the International Red Cross Society, was shocked by the miserable sights on the battle field at Solferino, Italy, and he called out “All men are brothers in this world”. He developed his ideas into the spirit of humanitarianism, fraternity and devotion. Later projects such as “Project of Rescue”, “Project of Life” and “Project of Love” were organized. Red Cross emblem comes to help wherever people are in need, in floods, earthquakes etc. A net of Red Cross service is formed and its selfless help reaches all the people in the world. As a Chinese saying goes: Always do good things no matter how small it is but never do a harmful thing even if it is a trifle.” The Red Cross spirit also conforms to the concept that “To emancipate the world, We should first emancipate ourselves.” All these ideas are very much alike. In today’s world, warmongers are practicing unilateral strategies to seek their own interest and hegemony, corruption is widespread everywhere which is encroaching the body of governments. What a strong contrast between the Red Cross spirit and their jungle philosophy!

As I collected stamps I learned more, and the more stamps I collected, the better I understood the Red Cross ideology, its concern and love towards the world. On the occasion of the centenary of the Red Cross Society of China, I’d like to present this book of PANORAMA OF WORLD RED CROSS STAMPS to all collector friends and everyone who shares the hobby and the Red Cross spirit. This is why I compiled this book.

The whole book has 400 pages with more than 2900 stamps and relevant philatelic items.

The chapters include biography of Henry Dunant, Red Cross spirit, history of the International Red Cross Society, and the Red Cross Society of China. These are followed by an introduction to the worldwide Red Cross stamps categorized according to the continents.
