跟我，听全文

Big Cats

In Africa there are **wild** places where the **big cats** live.

Africa's **big cats** are lions, cheetahs and **leopards** – and all three are very different.

Their babies are different, too.

Lions

Lions live in a group called a pride.
Their babies are called **cubs**.

A **female** lion is called a lioness.
She keeps her **cubs** hidden until they can walk.

Lion **cubs** like to play, just like kittens.

The lioness takes her **cubs** to meet the rest of the pride.

Cubs learn to live with the pride.

此为试读,需要完整PDF请访问: www.ertongbook.com

Everyone helps to bring up the **cubs**.

Leopards

Leopards live on their own.

They often live in woods where they can hide.

They like to go out at night, just like your cat.

The mother **leopard** brings home food for her **cubs**.

She teaches them to hunt.

Leopard cubs
learn fast.
