序 Preface

住宅是一个几十年甚至上百年的工程，不但要讲求质量，更要注入文化，这样才有永恒的生命力。有文化的建筑才有灵魂，才能为历史、为大众所接受，才能作为文化精品流传后世。如今，人们对住房品位的要求越来越高，位置、户型等因素已经不能完全左右消费者的判断，景观自然而然地成为了人们购房时的决定性参考因素之一。

景观住宅设计涉及环境、科学、艺术、社会、人文及经济等诸多方面，它们之间密不可分，相辅相成。功能合理，能够最大程度满足不同人群需求的作品，才是高效的，也才符合生态原则。而真正意义上的景观住宅，应该有优越的自然环境，能够融合自身产品，使居住者便捷地享受自然美景，感受社区创造的舒适生活。随着物质和生活水平的提高，人们对居住环境越来越看重，人心向绿已经是不可逆转的发展趋势。居住区整个房前屋后的环境，首先应该给人提供绿色的环境，而不应该是一个大面积的铺装广场，人民希望居住在绿地中生长出来的住所感觉。

《住宅造景图谱》精选了奥雅、澳斯派克、安道国际、UA 国际、JWDA 骏地设计、山水比德、水石国际等全球一流设计公司的近 100 个最优秀的景观住宅图解案例，从典雅世家、水岸芳园、生态馨城 3 个类别展现了人们品味住居的生活态度、滨水宁静的惬意心境、花红草绿的温馨乐城。书中雕琢了如“青岛海信·温泉王朝”尊贵典雅的联排精品豪墅；刻画了如“泰禾·江阴院子”满园春色的古韵山水庭院；铸就了如“广州力迅·时光里”简约现代的静好苏园馨居。

图书荟萃了健康、绿色、生态的景观住宅，成为引领市场潮流的典型佳苑。全书住宅与各种自然景观的完美结合，使得景观住宅日渐成为名副其实的“地产风景线”。

House is a few decades or even centuries of engineering, and it not only emphasizes the quality, but also injects culture, so that house will be eternal vitality. The buildings with culture will have souls, and will be accepted by the history and the public and spread to posterity as a cultural boutique. Nowadays, people have become increasingly demand for housing quality, and some factors like location and house type have not been the reasons to fully impact consumers' judgments, so the landscape has naturally become one of the decisive factors for people to decide which house they should buy.

The landscape residence design involves many aspects such as environment, science, art, society, humanity and economy which are inseparable and supplied each other among them. The rational function, which to the greatest extent meets the work needs of different groups, is efficient and consistent with ecological principles. However, the landscape residences with real sense should be a superior natural environment and can integrate their own products so that the habitants easily enjoy the natural beauty and feel a comfortable community life. With the improvement of the material and living standards, people's living environment has become increasingly valued. The heart of the people to green has been irreversible development trend. The residential environment throughout their whole houses should first provide a green environment rather than be a large area of pavement square. People hope that they would own a home feeling born and grow from green space.

Residence Landscaping Atlas has carefully selected nearly 100 best graphic landscape residence cases from the world-class international design companies such as L&A Design Group, A&L, ABJ, UA, JWDA, Sun & Partners, W&R Group and others, so the book shows the people to taste the life attitude of residence, quiet and pleasant mood for the riverside as well as warmth Music City with red flowers and green grasses from Elegant Family, Waterfront House and Ecological Residence three categories. For instance, the book polishes noble and elegant townhouse boutique villas like "Qingdao Hisense • Spa Dynasty"; portrays beauties of springtime landscape of ancient courtyards like "Taihe • Cathay Courtyard"; also casts simple and modern houses like "Guangzhou Lasony Time Lane".

The book blends healthy, green, ecological landscape residences which have become typical and popular places to lead the market trend. The residences are perfectly combined with various natural landscapes in this book so that the landscape residences can gradually become a veritable "real estate landscape".
