## About the Author

Prof. Dr. Dogan Ibrahim has a B.Sc. degree in electronic engineering, an M.Sc. degree in automatic control engineering, and a Ph.D in digital signal processing. Dogan has worked in many industrial organizations before he returned to academic life. He was the head of computer engineering department and the biomedical engineering department at the Near East University in Cyprus. Dogan is the author of over 50 technical books on microcontrollers, microprocessors and related fields. He is a Chartered electrical engineer and a Fellow of the Institution of Engineering Technology.
