前 言

2007 年是中国农业科学院农业信息研究所建所 50 周年的重要年份，也是研究所各项事业快速发展的关键一年。这一年中信息所隆重举行了建所 50 周年庆祝活动，召开了全国农业信息学科发展与创新大会，国家农业图书馆改扩建工程项目也得到国家发改委的正式批准。与此同时，研究所继续以全面提高研究所的科技创新能力和公益服务能力为中心，以增强研究所的整体实力为目标，大力加强学科建设，积极争取国家科研项目，加强人才队伍建设与管理机制创新。在农业信息技术、农业信息管理、农业信息分析等学科领域取得了重要科研进展，并在农业信息资源建设、文献信息公益服务、农业科技期刊编辑等方面取得了显著成绩。

《农业信息技术与信息管理》从 2002 年起每年公开出版一册。主要是将我所科技人员当年发表的学术论文和撰写的科技报告选编成册，以充分检阅和展示这些成绩，尊重和激励全所科技人员的创造性劳动，更广泛地宣传和应用好这些研究成果。

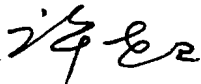

《农业信息技术与信息管理（2007 年）》集中反映了 2007 年我所在农业信息技术、农业信息管理、农业分析等学科领域的科研进展，收集了科技人员在农业信息系统管理、农业多媒体技术、农业信息网络技术、农业生产与管理信息技术、农业数据库建设、农业信息资源管理、农业信息化、农业信息分析与预警、农产品供求分析、期刊编辑等方面的研究论文与探讨类文章。

《农业信息技术与信息管理（2007 年）》，共选编了我所研究人员 2007 年度的论文与科技报告 51 篇，分农业信息化战略、农业信息技

术、农业信息资源管理、农业科技期刊、农业信息分析与宏观农业 5 个部分。

本书附录中收录了中国农业科学院农业信息研究所组织机构和各部门负责人的名单，以及 2007 年部分在研课题、出版著作、获奖成果、登记的计算机软件等情况。2007 年还选编了我所大事记，以进一步增强本书的纪实性。

为方便交流，收录的学术论文题目和作者采用了中英文两种文字。文中学术观点和其它文责由作者本人负责。我们希望，通过本书的出版，进一步得到社会各界对我们工作的关心与支持，不断提高我所的科技创新能力、公益服务能力和产业发展能力，也力图通过这种形式加强与科技同行的学术交流，共同为我国农业信息科技事业发展做出新的贡献。

Foreword

2007 is an important year when the Agricultural Information Institute, Chinese Academy of Agricultural Sciences (AII-CAAS) celebrated its 50th anniversary of the founding of the AII-CAAS, and also a key year when various undertakings of AII-CAAS gained a rapid development. In 2007, the AII-CAAS held a grand celebration of its 50th anniversary, convened the National Conference of Agricultural Information Science Development and Innovation”; and the “Remold and Expansion Engineering Project of the National Agricultural Library” had been formally approved by the State Development and Reform Commission. Meanwhile, the AII-CAAS had continued its efforts to strengthened discipline construction in a big way, actively strived to win over national project of scientific research and strengthened talent team construction and management mechanism innovation with improving the science and technology innovation capacity and public welfare service capability as its center and strengthening the overall strength of the AII-CAAS as its objective. The AII-CAAS has gained important scientific research progress in agricultural information technology, agricultural information management, agricultural information analysis, and other scientific domains and achieved significant achievements in the aspects of agricultural information resource construction, bibliographic information public welfare service, agricultural science and technology periodical editing, etc.

Since 2002, the monograph entitled “Agricultural Information Technology and Information Management” has been published each year. It mainly collects academic papers and science and technology reports written by the research staff of the AII-CAAS, so as to review and demonstrate these achievements, show respect for and encourage the creative labor of all the staff, and propaganda and better apply these research achievements even more extensively.

The monograph entitled “Agricultural Information Technology and Information Management (2007)” has centrally reflected the research progress of the AII-CAAS in agricultural information technology, agricultural information management, agricultural information analysis and other disciplines, and collected research papers and discussion articles written by the research staff in the aspects of agricultural information system management, agricultural multi-media technology, agricultural

information network technology, agricultural production and management information technology, agricultural database construction, agricultural information resource management, IT application in agriculture, agricultural information analysis and early warning, farm produce supply and demand analysis, agricultural periodical editing, etc.

The monograph entitled “Agricultural Information Technology and Information Management (2007)” has selected 51 papers and science and technology reports written by the research staff of the AII-CAAS in 2007. It is broken down into 5 parts: strategy for IT application in agriculture, agricultural information technology, agricultural information resource management, agricultural science and technology periodicals, and agricultural information analysis and macro agriculture.

The appendixes of this monograph have collected a list of the institutional organization of the AII-CAAS and division heads, as well as partial on-going research projects, published monographs, prized research achievement, registered computer software packages, etc. The monograph entitled “Agricultural Information Technology and Information Management (2007)” has also compiled the chronicle of events of the AII-CAAS so as to further strengthen the records of actual events of this monograph.

For the convenience of communication, the academic papers in this monograph have both Chinese and English title and authors. The academic viewpoints and other responsibility in the paper will be taken care of by the authors. We hope that through the publication of this monograph, we can further get the concern and support of our work by all walks of life in the society, continue to improve our science and technology innovation capacity, public welfare service capacity and industrial development capacity. In addition, we also hope to strengthen academic exchange with our science and technology colleagues through this form and jointly make new contributions to the development of agricultural information science and technology cause in China.
