Directions for Use

These titles are arranged in classes according to the Dewey Decimal Classification, the system used in the majority of public libraries for which the Catalog is planned. A few exceptions to this rule have been made such as Biography and Fiction.

All collective biography is put in class 920 and arranged under one alphabet. All individual biography, except lives of Jesus Christ (232), is classed in "B", where the arrangement is by the subject of the biography.

Fiction is classed in "F", and the arrangement of the novels under the name of the author is usually in alphabetical order.

An outline of the classification will be found on the following pages. This outline will serve as a table of contents.
