鄞州位于浙江东部、上海经济区南翼。公元前222年秦政权在此建县，公元2002年2月撤鄞县设宁波市鄞州区，辖4个街道，18个镇（乡），74万人口。

鄞州滨海翼山，山明水秀，物华天宝，经贸发达。改革开放以来经济持续高速发展，社会经济综合发展水平名列全国各县（市）第十一位。

鄞州人文彬盛，贤哲辈出，夙称“诗书之乡，文教之邦”。唐设州学，宋王安石创县学，历代有书院、学塾百余所，田家有子皆习书。曾出状元6名，进士1047名，院士24名。

让我们走进鄞州教育。

Foreword >>

YinZhou, located in the south of Shanghai Economic Zone, is in the east of Zhejiang Province. As early as in AD222 (Qin Dynasty), YinZhou was established as a county named Yinxian. In Feb. 2002, the name "Yinxian" (Yin County) was replaced by Ningbo Yinzhou and it has become a district of Ningbo City with a population of 740,000, covering 4 streets and 18 towns.

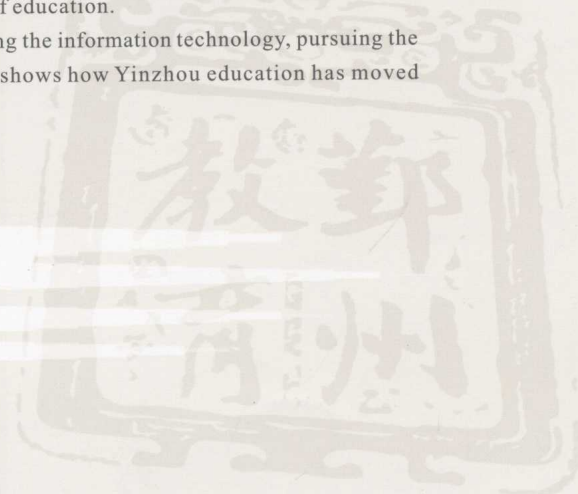

Situated in the coastal region, Yin zhou has a picturesque scenery with green mountains and clean rivers. Besides that, it is also rich in natural resources. Owing to the opening-up of China, the economy developed steadily in a high speed. With its overall strengths in many fidas, Yinzhou occupies the 11th place among the 100 most prosperous counties(cities).

Having a flourishing culture and education, Yin zhou produced many eminent figures during its long history. It is generally well-known as a scholarly place as well as a state of culture and education. It was early in the Tang dynasty that the state began to set up a network of schools known as "zhouxue" in the county. In the Song dynasty Wang AnShi (county magistrate) developed more schools to serve the local areas. Gradually, during successive dynasties over one hundred private academies of classical learning came into existence. It has produced six Number One Scholars and 1047 successful candidates in the highest imperial examinations of the successive dynasties. And now there are 24 academicians of CAS .

Today, supported by the highly developed economy, carrying on the cultural tradition and guided by the advanced educational idea, Yin zhou has established a strong elementary education system complete with the latest equipment, a vigorous vocational education system with vivid characteristics, and a life-long education system open to all. It is leading Zhejiang province, even the country, in the field of education.

We have made vital efforts in extending the balanced development of elementary education, popularizing the information technology, pursuing the excellence, and encouraging the lifelong education nation-wide in the past five years. This album vividly shows how Yinzhou education has moved towards the modernization.

Let's take a look at Yinzhou education.
