前 言

我们在长期高校英语教学中,曾修改过不同层次学生的英语作文,发现过各种各样的问题,有用词上的,有语法上的,有惯用法上的,还有篇章结构上的,等等。这些,我们都作了认真的分析和归纳,列出了我国大专院校学生英语作文中具有典型性的问题,找出了带有普遍性的语言错误,经过多年的研究与探讨,写成了本书。

全书以切实解决问题为准则,针对我国大专院校学生英语作文中的薄弱环节和重难点,进行详细例示和阐发。全书覆盖了大学英语作文中的常见话题,并提供了丰富的相关词汇和表达句式,以拓宽学生的知识面,提高语言表达水平。书中还提供了70篇范例文章,这些文章论题广泛,用词贴切,描写精彩,论证透辟,可供读者反复玩味,进行模仿练习。范文点评旨在画龙点睛,以使读者举一反三,事半功倍。测试练习可以帮助读者检查并发现自己英语作文中的缺陷,以便及时补救。

限于水平,疏误在所难免,恳请赐教。

目 录

第一章 大学英语作文要求及标准(Requirements and Standards)	(1)
1—1 大学英语四、六级作文	(1)
1) 简介	(1)
2) 评分标准	(1)
3) 评分标准样卷	(2)
1—2 研究生入学英语作文	(6)
1) 简介	(6)
2) 评分标准	(6)
3) 评分标准样卷	(6)
第二章 大学英语作文备选词句及命题范围(Words, Sentences and Subjects)	(10)
2—1 颜色色彩	(10)
2—2 天象气候	(16)
2—3 日月风云	(18)
2—4 雨雾霜雪	(25)
2—5 花树鸣啼	(32)
2—6 山水烟火	(37)
√2—7 自然胜迹	(44)
√2—8 方位方向	(46)
√2—9 时间岁月	(49)
2—10 喜怒哀乐	(52)
2—11 笑声哭声	(60)
√2—12 爱好习惯	(62)
2—13 青春爱情	(64)

2—14	批评责备·····	(67)
2—15	观看倾听·····	(70)
2—16	说话行动·····	(73)
2—17	教育教学·····	(77)
2—18	交通旅游·····	(80)
2—19	穿戴睡眠·····	(83)
2—20	知识能力·····	(85)
2—21	疾病健康·····	(87)
2—22	品行个性·····	(89)

第一章 大学英语作文要求及标准

(Requirements and Standards)

1—1 大学英语四、六级作文

1) 简介

根据国家教委所颁布的《大学英语教学大纲》的规定,修完四、六级大学英语的学生要参加国家统一组织的英语考试。短文写作是大学英语统考试卷中的一个必不可少的部分。它旨在考核学生实际运用英语的能力,特别是书面表达能力,最能体现考生的实际水平。因此这一题型将长期保留。

大学英语四、六级考试中的作文时间均为 30 分钟。四级作文要求写出 100—120 词的短文,六级作文要求写出不少于 120 词的短文。大学英语四、六级作文考试的题型有:命题作文,提纲作文,情景作文,段首句续写作文,图画或图表作文,关键词作文,写文章摘要或大意,写书信等。其中以命题作文为主。一般给出一个题目,可以是一个句子,一个短语,或是一句成语、谚语,接下来便是提纲要求(一般为中文)。

大学英语四、六级作文考试采用总体评分方法,即从内容和语言两个方面对作文综合评判,就作文总的印象给分,而不是按语言的错误数扣分。

2) 评分标准

评分标准分 14 分、11 分、8 分、5 分及 2 分,共 5 等。对于稍优或稍劣于其中某一等的作文,可以加或减 1 分。字数不足的作文在其所属等级评分上再酌情扣分。除开考题给出的段首句、主题句或关键词,累计字数在 81—89 之间,扣 1 分;累计字数在 71—80 之间,扣 2 分;累计字数在 61—70 之间,扣 3 分;累计字数在 50 以下,最多给 5

分。对于段首句续写作文只写 1 段的作文最高得分是 4 分；只写 2 段的作文，得分不超过 9 分。计分标准如下表：

14 分：切题，表达清楚，文字通顺，连贯性较好，基本上无语言错误。

11 分：切题，表达清楚，文字连贯，但有少量语言错误。

8 分：基本切题，表达比较清楚，文字尚连贯。但语言错误较多，有少量严重错误。

5 分：基本切题，但表达不够清楚，连贯性差，有较多的严重语言错误。

2 分：条理不清，思路混乱，语言支离破碎或大部分句子均有错误，且多数为严重错误。

3) 评分标准样卷

作文题(Essay Question)

Title: Man to Survive

Outline: 1. Problems faced by man (energy crisis, diseases, pollution, population expansion, etc.)

2. Pessimistic views

3. Wisdom of man and ways out

14 分样卷：

Man is faced with more and more problems which threaten man's existence on Earth. The resources will soon be exhausted. Many diseases can't be cured. And the problems of pollution and population are also getting worse according to some studies.

Therefore, some people wonder whether man can survive in the future. We are running out of resources. We are suffering from those incurable diseases. Due to the pollution, we will haven't pure water, fresh air which are necessary to our lives. The population is a big problem, too. The globe is getting over crowded. The worst production of some people is that man will die out in the future.

They are exagerating of course. But the situation is grave. We

must do our best to make the world better for us to survive. We can find new things, such as solar energy to replace the traditional resources. With the help of science, we can also find new methods to protect people's health. And new ways can be carried out to prevent the pollution and control the population. In a word, we must not be afraid of the problems and be anxious all the time. It's our turn to act actively to make the situation better to survive.

【评语】内容切题,包括提纲全部要点;表述清楚,文章通顺,语言流畅,句式富有变化;长度符合要求;有些词语和句型用得相当得体,但有个别小错误和笔误。(下面加横线表示有错误或不妥,下同)

11 分样卷:

Man has lived in this world for thousands of years. They fight against the nature from time to time and they survive. Today, they face up many problems such as diseases, pollution and the rapidly increasing population etc. They also find that the energy is in short-age because the people in the world use it wastefully.

As we know, people can't live without water, air and the sun. But now the large amount of water and the air has been polluted, which brings about various questions troubling man's life.

Some people consider that we can't survive on the earth. They think that if we don't stop polluting our air and water, we can hardly live.

Those people are too sad. Man is wisdom. Because they realize that the diseases, the lack of energy and the pollution are resulted from their own doing, however, if they immediately bring about effective solutions to prevent those problems, they can come out of the crisis. In the end, they are to survive.

【评语】内容切题,表达思想清楚;文字连贯,句式有一定变化;句子基本通顺,但有少量语言错误。

· 9 分样卷:

Although the human beings make great progress to change their conditions, they have to conduct with many problems. With the development of industry, the environment is going from bad to worse today. Air and water are polluted, such as the crowded housing in the big city, the lack of energy, the disease and so on.

People are concerning about the future of man. Some of them draw a conclusion that man will not survive on the earth because of such bad conditions.

In some constent, I would agree with them. If we don't fight against the bad environment and act at once, we are doomed to ruin some day. But in other hand, I would say no. Because we have already done a lot of things to change the conditions. Man have the right and hope to survive.

【评语】内容切题,包括提纲要点;表达尚清楚,有层次;长度符合要求;语句基本连贯,但有较多语言错误,其中有少量严重语言错误。

8 分样卷:

Nowdays people are facing some serious problems in the world, such as materials-short, fatal diseases, pollution and over-larged population. Some of these problems are contribute to people's own faults, others are the results of industrial development which leads to a better life of persons.

Conflited with more and more of these problems and their dizarsts, some people are so worried that they think of a tragic end of the world. They consider that man can't survive on the earth after some eras. For there will be so many difficulties that people find no practical ways to tackle with. At last man will kill himself instead of grasping more survial skills.

Is it the sole answer people get? Of course not. Man is of the
