PREFACE

My mother tongue is Chinese, during six years of high school I learned Russian, and I became familiar with English letters since I taught chemistry. Facing with the computer keyboard, I'm obsessed with English letters and wonder what the relationship is between fingers and English letters. I figured with both hands, played with a variety of shapes, tried to show the expression of 26 English letters with my fingers. Yes, I did it. It is named "Guess of the Origin of English Letters". Experts will certainly laugh at it. Never mind, it may be an international joke I played, but interestingly it will benefit all the world if a letter sign language appears.

26 letters form millions of English words (Chinese characters just have 10,000). What kind of language system it is stimulates people's curiosity. I have had a desire to make a deep exploration into it. But I had no time, no right way at work and made few achievements. I listened to radio, watched television, and until I had network, I happened to retire, so I had plenty of time and tools—computer and Internet, so I can achieve my English-Chinese bilingual dream.

From Internet you can download a "Power-Word" software which can teach you to learn the pronunciation of English words. You have no doubt whether the pronunciation is right or not, for it is the original. You can also download a "Sentence Cool" software. With the input of the English words or Chinese characters, each word is accompanied by thousands of example sentences, some of which are what you want.

It is said that if what you want can not be found through JUKUU, you can download an "Online Translation" or "Google" translation. Input what you want to say and click translation and you will get it. There are people who will say they do not know whether they are right or conform to English grammar, but it is important to speak English. A lot of example accumulation and language sense will help improve the accuracy.

Of course, Google will translate "Chinese Learning for Substance" into "the School, the Body". Facing with such a situation, you can directly input the Chinese idiom "Sentence Cool"; if not so, you can translate the Chinese words into English words which then are translated back. And some say that it makes trouble. Chinese people learn English consciously, because this is the trend. But without proper methods, to put it bluntly, we are wasting. Even doctors are still ashamed to speak English, but I dare to do.

In learning English, you have tasted the sweetness? I am unable to change the world, I just want to live to understand. That learning English makes me know where to come from and how to

leave. Really, when you spend later years of life on English learning, you will live a very relaxed and comfortable life. Although I do not believe in Christ, but the idea of God surely maintains the faith. The saying “People do, God looks” means that a person should be constrained, not unbridled.

To learn English, I admire the way of thinking. Besides what is prohibited by laws in Western culture, there is limitation of thinking. Questioning is the starting point of thinking, so it appears technological achievements, benefiting mankind. I do not know if this language makes Western eloquence, or the speculation itself makes the language advantageous. Chinese is limited in the idiom framework, it will not be English “opponent”. No argument is weaking Chinese from another angle. “I think therefore I am” can also be understood as the significance of the thinking for human beings.

Although I am retired, still a teacher inadvertently, I volunteer in a QQ group as a teacher to give more than a dozen English sentence examples every day. There are probably dozens of friends, including school principals, English teachers, civil servants, enterprisers, together learning to speak English. This book is my lectures issued on QQ. It is divided into three parts: speak English at home, speak English in school, and use English for learning. My purpose is to advocate for the Chinese people to truly learn English, speak English. Bilingual people, bilingual schools, bilingual authorities and bilingual communities, I made a large bilingual dream of an ordinary Chinese person’s cultural consciousness, for the aim of English and Chinese interoperability and universal brotherhood.

Quite a lot of English and Chinese sentences come from JUKUU (www.jukuu.com), many of which have been changed and polished. Many thanks to their hard work and support.

序 言

我的母语是汉语,中学六年学的是俄语,教了化学才真正熟悉英文字母。面对电脑键盘,我痴迷于英文字母,人的手指与 A、B、C 之间是什么关系?我琢磨着用双手摆弄各种造型,试图用手指表达大小写的 26 个英文字母,成功了。我把它定名为“字母起源的猜想”。肯定会有专家见笑,那就当成一个普通中国人开的一个大的国际玩笑,但很有意思,如果真正发展成字母手语,必将惠及世人。

26 个字母组成上百万个英语单词(要知道汉字不过万个),这是一个什么样的语言体系,这本身就是一个能激发人好奇心的谜,我一直有深入其中探个究竟的欲念。苦于没时间,也不得法,一直在英语的外围小打小敲。听过广播,看过电视,直到有了网络,而我又恰好退休,我有的是时间,有的是工具,我可以实现我的英汉双语梦想。

从网络上下载一个“词霸”软件,它可以教会你要学的所有英语单词的读音,你不要怀疑它读得准不准,它是原声。下载一个“句酷”软件,用英文单词输入或用汉字输入都可以,每个单词都附有成百上千个例句,总有你正中下怀的句子。把那些句子尽量用到你的生活中去,这样你就开始“双语”生活了。

有人说,有时“句酷”上并不能查到我想说的话,那你再下载一个“在线翻译”或“谷歌”翻译软件,把你要说的话输进去,点击翻译,就出来了。还有人会说我不知道对不对,符不符合语法,也许没有人在说话的时候考虑这符不符合语法,重要的是说起来,把意思表达出去。大量的例句积累和语感体验会使你的准确率不断提升。

当然,“谷歌”也会把“中学为体”翻译成 the school, the body。遇到这种情况,你可以把中文成语直接输入“句酷”;再不行的话,你可以把“谷歌”译成英文再输入到“在线翻译”中让它回翻。有人说,这不是瞎折腾吗?中国人在学英语这点上绝对是自觉的,因为这是大势所趋。但方法不尽得当,说得不客气一点是学了不用(仅为考试),劳民伤财。英语读到了博士后照样是羞于开口,而我这个曾是英语文盲的人有时还敢秀上几句。

在英语学习中你尝到了什么甜头?我无力改变这个世界,我只想活得明白一点,学英语让我活得明白。我知道我是怎么来的,又将怎样离去。真的,当你把晚年的生活交给英语学习,你就会活得很轻松,活得很自在。虽然我并不信仰基督,但上帝的理念确有维系信仰的

作用,所谓“人在做,天在看”,就是指人要有约束,不能肆无忌惮。

学习英语,我佩服一种思维方式,西方文化中除了真正属于大众亲手制定的法律明文禁止的之外,几乎没有思想禁区,质疑是思考的起点,所以才有那样卓越的科技成就,造福于人类。我不知道是这种语言成就了西方人的雄辩,还是探索思辨的本身使这种语言变得强势。如果我们的汉语一直生活在成语框架中,我们的语言将不是英语的“对手”。“不争论”从另一个角度来说会弱化我们的语言。“我思故我在”,也可以把它理解为思维对于人类的意义。

我虽然退休了,无意之中还在做教师,我义务地在一个 QQ 群中担任老师,每天给出十几个例句,大概有几十个好友,有校长、公务员和企业家,我们在一起学说英语。这本书是我在 QQ 上的讲学稿,全篇分成三个部分:在家说英语、在学校说英语、用英语学习。目的是倡导中国人真正把英语学起来,真正把英语说起来,双语人,双语学校,双语机关,双语社区……我做了一个好大的双语之梦,一个普通中国人的一点文化自觉,目的是英汉互通,世界大同。

此书大量例句来自句酷网(www.jukuu.com),其中许多例句做了修改和润色。对他们的辛勤劳动和支持表示由衷的感谢。
