Gome Construction Faith Garden Square

- 地点 | 台北
- 面积 | 400平方米
- 设计师 | 杜康生
- 设计单位 | 奥迪国际室内设计
- 主要材料 | 安丽格木皮、黄金米黄大理石、黄水晶大理石、凡尔赛米黄大理石、珍珠母贝透光板、珍珠扇贝饰板、紫檀实木地板

The entrance is built in the style of round arc with double-in form, and the design of pilaster-style arc and the arrangement through and-essperfectly showout the aesthetic performance of equal proportion and balanced construction. The patterns of round marble material on the floor echo with the round design of the ceiling, and the special texture of the pearl and scallopon the main wall uncloses the generous and honorable expression of the space. The main

Wall in the living room is integrated with the entrance, and the rare and valuable citrine marvel is chosen as the main body collocating with an imported Baker scene cabinet. The sitting room highlights a comfortable and elegant leisure words, and rosewood floor is designed as the interpretation of the ground. The space of the master bedroom follows the classical aestheticism of the public space, the rosewood floor is paved to show a simple

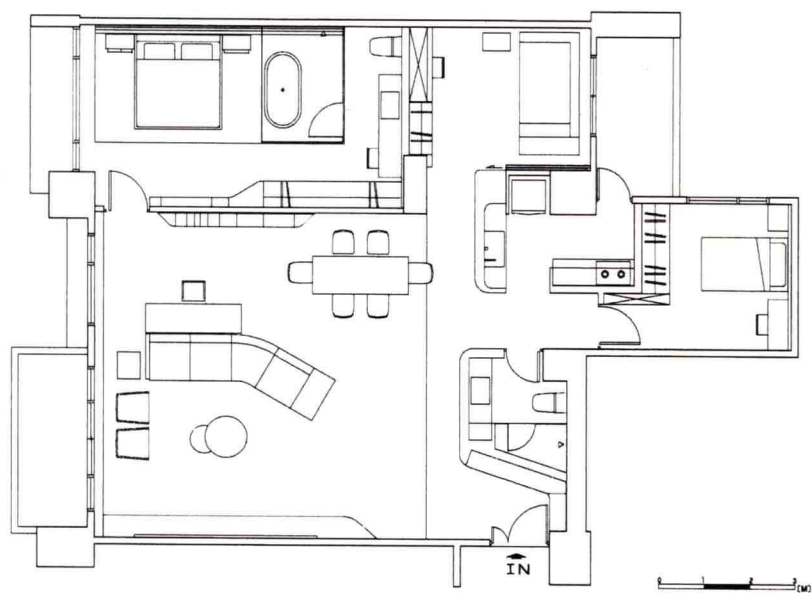

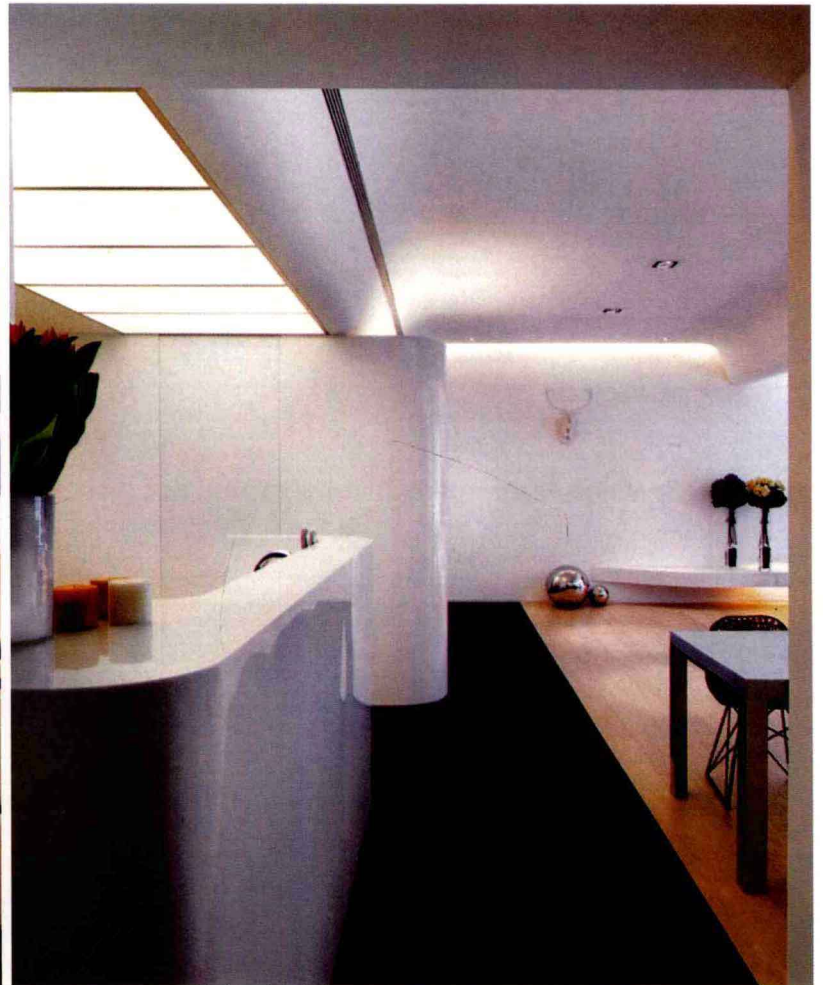

一进门，直接看过去就是餐桌，镂空的黑色蕾丝，原来椅子也可以这么性感。旁边的桌架上有各种艺术摆设，沙发是长排黑色的，有商业空间的味道。沙发旁的地毯依然透露性感的味道，配合沙发上的皮革，将客厅的性感发挥得淋漓尽致。客厅的另一头则是休闲空间。客厅，是一个party的最好选择地。主人一定是年轻而又时尚的高端人士。卧室和卫生间连在一起，用透明的玻璃隔开，里面一览无余。床边的小小地毯和客厅一样，光脚踩在上面是视觉和触觉的共同享受。

Space Winding

- 地点 | 上海
- 面积 | 180平方米
- 设计师 | 赵牧桓
- 参与设计 | 赵路、罗玉龙、Gaelle Sezec
- 设计单位 | 牧桓建筑+灯光设计
- 主要材料 | 大理石、铸铁、实木雕刻、玻璃、珍珠板、椰壳板、氧化镁板
- 摄影师 | 莫尚勤

Depending on the integrated and winding corridor, the plane links every individual compartment, entrance, secondary bedroom, master bedroom, dining room, study room and living room. From the beginning of the entrance door, the designer intentionally heighten the net depth of the space, both horizontally and vertically, to form a visually high and deep entrance, to show out the window rhythm of the original construction, and to produce the linking relationship with the main axis in the kitchen and dining room on contraposition. On the end of the scene,

the solid wood carved wash basin is designed as the focus and the end of the space. The living room, balcony and study room are connected with each other. The public winding corridor leads to the master bedroom, and vine branches are used as the axle tree and hinge of the master room, children room and public space. The designer feel that the space is more "breathing" for the existence of the corridor which links the logical construction of the whole space. The design is relatively rational and purposeful.

Hiding Rich Show Flat

- 地点 | 台北
- 面积 | 165平方米
- 设计师 | 陆希杰
- 参与设计 | 曹车政、刘致佑
- 设计单位 | CJ STUDIO
- 主要材料 | 印度黑花岗石、大理石马赛克、盘多魔、栓木地板、橡木染黑、非洲铁木、清玻璃、亮面烤漆、阳光卷帘、铁板烤漆

At the entrance, you will see the dining table directly, and the chairs are decorated with hollow-out black lace, so that the chairs turn out to be so sexy. There are a variety of art decorations on shelves next to the table, and the sofa is black in a long row with the flavor of commercial space. The carpet next to the sofa still reveals sexy flavor, matching with the leather on the sofa to put the sex appeal of the hall into full play. The other end of the living room is a leisure space. The living room

is the best choice for a party, and the master must be a young and fashionable high-grade personage. The bedroom and bathroom are linked together with a separation of transparent glass, so you can have a commanding view of the inside. The small carpet next to the bed is the same as the one in the living room, and it is commonly visual and tactile enjoyment if you step on it with bare feet.

平面靠着完整流通的回廊过道串起了各个空间——玄关、次卧、主卧、餐厅、书房、客厅。从入口大门开始，设计师刻意地将空间横向和纵向的净深拉高，形成了一个视觉上很深、很高的玄关，让原本建筑上窗户的节奏裸露出来，并和厨房、餐厅的主轴线产生对位上的链接关系，端景则是以实木雕刻的洗手台作为空间的焦点和收尾。客厅、阳台、书房相互连接。公共回廊通往主卧，则是以藤蔓、枯枝作为主卧、儿卧和公共空间的轴承枢纽。设计师觉得空间是比较能够“呼吸”的，因为回廊的存在，串起了整体空间的逻辑架构。设计是比较理性，也是比较有目的性的。
