Words from the Publisher

Music composition is the premier source of the music art and the primary start of all music activities. The publication of original works of various categories occupies the leading position throughout the world history of music publishing for hundreds of years. Ever since its foundation in 1954, People's Music Publishing House has published a considerable amount of music works, including abundant works from Chinese composers, which embody its sense of mission to develop the national culture and its efforts to promote music creation.

Since 1980s, the composition in China has witnessed a rapid progress. Groups of accomplished composers and their colorful works sprang up to retain a profound and far-reaching influence upon the development of Chinese music. For the purpose of reflecting such developments and achievements, People's Music Publishing House edits and publishes the continuous series of *The Repertory of Chinese Contemporary Composers*, which covers outstanding professional works of instrumental and vocal music.

Among the symphonic and orchestral (including Chinese traditional orchestral) works composed since 1920s, a wealth of works has gradually been accumulated which possess the manner of China and the spirit of the time, and gain a foothold for Chinese music on the world symphonic stage. The symphonic volumes of *The Repertory* try to reveal the most representative works and successful explorations among the grand music compositions. We sincerely hope that for this project of national culture, professional musicians and our society will, as always, provide precious supports which we all deeply appreciate.
