This project is a single-floor residential space with a construction area of about three hundred square meters. The space is rather wide and the natural lighting condition is very good. For this reason, centering on its own advantages of this architecture, the designer develops a fashionable picture which takes the new oriental minimalism as the theme. In the process of his design, the designer has taken into full consideration of the balance relationship between the usage functions and visual effects, and manages to make the past serve the present. In addition to that,

he combines the quintessence of the Chinese-style, traditionally classical architectural elements with the fashionable feeling of modern life into one. Apart from these, the designer also organizes the proportions, dimensions and material textures of the spatial configuration with the arrangement of colors in a harmonious way, so that it strives to achieve the reasonable innovation in the whole design, and also expects to represent the fashionable standards of the spirit of the time as well as the humanistic quality.

本案为建筑面积约300平方米的单层住宅空间，空间较宽且采光条件良好，因此设计师围绕这一建筑自身的优势展开以新东方简约主义为主题的时尚画面，在设计过程中充分分析使用功能与视觉效果之间的平衡关系，并努力做到古为今用，将中式传统古典建筑元素的精华所在与现代生活的时尚气息融合在一起，并将空间造型的比例、尺度、材料质感与色彩搭配和谐地组织在一起，力求能在整个设计中达到合理创新，并能体现时代精神与人文品质的时尚标准。

Fu Tong Tian Yi Bay Show Flat, Dongguan — Modern Chinese Style

东莞富通天邑湾样板房 —— 现代中式

Entering the door, your eyes will be caught by the tea pots of various forms that are placed on the wood grid partition. The Chinese-style furniture, the porcelain that can be seen everywhere, and the flowers that blossom on the screen ... the Chinese style atmosphere is embracing the whole space in a soft way. This project takes deep solid wood color and white color as the principal colors, and complements them with off-white color partially. Together with all types of Chinese style furnishings and ornaments, the designer creates a dignified, grand and smart space. There is no partition between the living room and the

dining room, which chooses only wood flooring with varied colors as to divide the space, so that the visual space is thus expanded. The flowers that are placed on the dining table serve as an embellishment to the residential space, and the guqin placed on the balcony of the tea room brings a feeling of scholarliness to the space too. The walls of the master bedroom choose blossoming plum blossoms as the decoration, which just satisfies the psychological requirements of the occupant. While the bathroom employs marble and mirrors as the key decoration which brings a somewhat different feeling to the whole space.
