Preface

Ever since the founding of the People's Republic of China, the work on cultural relics has received much attention of the Party and the Government. especially of the late Premier Zhou Enlai. From the 50's to early 60's, much efforts were made by the governmental organizations in purchasing cultural relics and in formulating regulations to stop all loopholes of export. out of patriotism, many private collectors contuibuted their art treasures to the State. As a result, the works of painting and calligraphy in the collections of many museums increased greatly in number. Groups for authentication were formed in various localities to meet the requirements. However, with the decade of turbulence and the passing of Premier Zhou, work on authentication was suspended. After the political change of historic importance in 1979, rectification has been carried out in cultural relics. The compilation of the "Catalogue of Chinese Ancient Rare Books", a behest of Premier Zhou, has reached its final stage, Recently, the task of authentication of ancient of Chinese painting and calligraphy has won deep concern of Gu Mu and Deng Liqun, the leaders of the Party and Government. It was approved by the Propaganda Department of the Central Committee of CPC in June, 1983 to organize the Group for the Authentication of Ancient Works of Chinese Painting and Calligraphy under the Administrative Bureau of Museums and Archeological Data, Ministry of Culture. The task of the Group is to carry out comprehensive, systemtic investigation and authentication in the country, as well as the compilation of catalogues, illustrated catalogues and special books.

The functions of the Group include the following four points; (1) to investigate the conditions of relevant collections in museums and cultural organizations throughout the country; (2) to assist various organizations in classification of collections according to quality and authentication as to genuineness; (3) to authenticate also private collections; and (4) to contribute to relic preservation, to raise the scientific level of research on art history by supplying abundant materials, and to train and build up a contingent of middle-aged and young connoisseurs of painting and calligraphy.

The results of authentication will be published in three sets, each in a number of volumes: (1) "Catalogue of Ancient Works of Chinese Painting and Calligraphy", which includes most items of all the works authenticated as genuine; (2) "Illustrated Catalogue of Ancient Works of Chinese Painting and Calligraphy", Which includes fine works with black- and-white illustration; and (3) special books, shwoing the best and most important works.

The first and second sets will be published side by side with authentication. In these books, intem are arranged according to the chronology of dynasties, and according to the lifetimes of the artists in each dynasty. A comprehensive index will be published as the last volume of each set.

Apart from the collections preserved by various organizations, works in private collections confiscated during the decade of turbulence have also been authenticated. These works will be returned to the respective owners in accordance with the policy of the party and the Government. Therefore, the authentication work began with these works, and afterwards with the regular collections of museums.

The authentication work will be completed as expected under the concern and support of the leaders and staffs of relevant organizations, to whom we are gratefully indebted to.
