## 前 言

随着社会的发展、科技的进步及国力的增强,我国的教育制度、教育理念和方式都有了很大的改变,我国中小学教科书也从一纲一本的单一模式演变为一纲多本的多元模式,呈现出一种百花齐放的欣欣向荣景象。同时学科奥林匹克类图书也一枝独秀,长久而不衰地伴随着教科书的变化、发展,不断地散发出自己独特的魅力,21世纪的到来,又诞生了新课标及新课标体制下的新教材。

新课标、老教材与学科奥林匹克竞赛三者不是孤立的,三者是有机的统一体,相辅相成,你中有我,我中有你,三者缺一不可。基于以上的认识,结合多年的教学实践和探索,我们注重了对学生基础知识点、综合素质和能力的测试,同时又兼顾了有特殊才能的学生的需要,把最基础的知识点和技巧性、趣味性强的学科奥林匹克竞赛题融为一体,我们将三者中最新、最精髓、最本质的练习题按学科知识点分单元设置编纂出版了这套超级测试卷系列丛书,供使用不同版本教科书、不同地区的学生作单元或每周测试使用。

本系列丛书是我社系列奥林匹克竞赛图书中的又一力作,是我们京华出版社的精华之作。全书共44册,其中小学12册,初中15册,高中17册。

本系列丛书虽然从策划、编写,再到出版、设计,可谓尽心尽力,但疏漏之处在所难免。如果您有什么意见和建议,欢迎并感谢赐教,让我们共同努力,以使本系列丛书更好地服务于广大的中小学师生。

A

In 1901, H.G. Wells, an English writer, wrote a book describing a trip to the moon. When the explorers(探险者) landed on the moon, they discovered that the moon was full of underground cities. They expressed their surprise to the "moon people" they met. In turn, the "moon people" expressed their surprise. "Why," they asked, "are you traveling to outer space when you don't even use your inner space?"

H.G. Wells could only imagine travel to the moon. In 1969, human beings really did land on the moon. People today know that there are no underground cities on the moon. However, the question that the "moon people" asked is still an interesting one. A growing number of scientists are seriously thinking about it.

Underground systems are already in place. Many cities have underground car parks. In some cities, such as Tokyo, Seoul and Montreal, there are large underground shopping areas. The "Chunnel", a tunnel(隧道) connecting England and France, is now complete.

But what about underground cities? Japan's Taisei Corporation is designing a network of underground systems, called "Alice Cities." The designers imagine using surface space for public parks and using underground space for flats, offices, shopping, and so on. A solar dome(太阳能穹顶) would cover the whole city.

Supporters of underground development say that building down rather than building up is a good way to use the earth's space. The surface, they say, can be used for farms, parks, gardens, and wilderness. H.G. Wells' "moon people" would agree. Would you?

D. Traveling to outer space.
3. What sort of underground systems are already here with us?  
A. Offices, shopping areas, power stations.  
B. Tunnels, car parks, shopping areas.  
C. Gardens, car parks, power stations.  
D. Tunnels, gardens, offices.
4. What would be the best title for the text?  
A. Alice Cities - cities of the future  
B. Space travel with H.G. Wells  
C. Enjoy living underground  
D. Building down, not up

LONDON(Reuters) - Organic fruit, delivered right to the doorstep. That is what Gabriel Gold prefers, and he is willing to pay for it. If this is not possible, the 26-year-old computer technician will spend the extra money at the supermarket to buy organic food.

"Organic produce is always better," Gold said. "The food is free of pesticides(农药), and you are generally supporting family farms instead of large farms. And more often than not it is locally (本地) grown and seasonal, so it is more tasty." Gold is one of a growing number of shoppers buying into the organic trend, and supermarkets across Britain are counting on more like him as they grow their organic food business. But how many shoppers really know what they are getting, and why are they willing to pay a higher price for organic produce? Market research shows that Gold and others who buy organic food can generally give clear reasons for their preferences - but their knowledge of organic food is far from complete. For example, small amounts of pesticides can be used on organic products. And about three quarters of organic food in Britain is not local but imported (进口) to meet growing demand. "The demand for organic food is increasing by about one third every year, so it is a very fast - growing market," said Sue Flock, a specialist in this line of business.

5. More and more people in Britain are buying organic food because \_\_\_\_\_.  
A. they are getting richer

D. It is produced on large farms.
7. What is the meaning of "the organic trend" as the words are used in the text?
- A. growing interest in organic food  
B. better quality of organic food  
C. rising market for organic food  
D. higher prices of organic food

Treasure hunts (寻宝) have excited people's imagination for hundreds of years both in real life and in books such as Robert Louis Stevenson's *Treasure Island*. Kit Williams, a modern writer, had the idea of combining the real excitement of a treasure hunt with clues (线索) found in a book when he wrote a children's story, *Masquerade*, in 1979. The book was about a hare, and a month before it came out Williams buried a gold hare in a park in Bedfordshire. The book contained a large number of clues to help readers find the hare, but Williams put in a lot of "red herrings", or false clues, to mislead them.

Ken Roberts, the man who found the hare, had been looking for it for nearly two years. Although he had been searching in the wrong area most of the time, he found it by logic (逻辑), not by luck. His success came from the fact that he had gained an important clue at the start. He had realized that the words: "One of Six to Eight" under the first picture in the book connected the hare in some way to Katherine of Aragon, the first of Henry VIII's six wives. Even here, however, Williams had succeeded in misleading him. Ken knew that Katherine of Aragon had died at Kimbolton in Cambridgeshire in 1536 and thought that Williams had buried the hare there. He had been digging there for over a year before a new idea occurred to him. He found out that Kit Williams had spent his childhood near Ampthill, in Bedfordshire, and thought that he must have buried the hare in a place he knew well, but he still could not see the connection with Katherine of Aragon, until one day he came across two stone crosses in Ampthill Park and learnt that they had been built in her honor in 1773.

Even then his search had not come to an end. It was only after he had spent several nights digging around the cross that he decided to write to Kit Williams to find out if he was wasting his time there. Williams encouraged him to continue, and on February 24th 1982, he found the treasure. It was worth £ 3000 in the beginning, but the excitement it had caused since its burial made it much more valuable.

A child’s birthday party doesn’t have to be a hassle; it can be a basket of fun, according to Beth Anaclerio, an Evaston mother of two, ages 4 and 18 months.

“Having a party at home usually requires a lot of running around on the part of the parents, and often the birthday boy or girl gets lost in wild excitement. But it really doesn’t have to be that way,” said Anaclerio. Last summer, Anaclerio and her friend Jill Carlisle, a Northbrook mother of a 2-year-old, founded a home party-planning business called “A Party in a Basket.” Their goal is to help parents and children share in the fun part of party planning, like choosing the subject or making a cake, while they take care of everything.

Drawing on their experiences as mothers, they have created (制作) 10 ready-to-use, home party packages. Everything a family needs to plan a party, except the cake and ice cream, is delivered to the home in a large basket.

“Our parties are aimed for children 2 to 10,” Anaclerio said, “and they’re very interactive (互动) and creative in that they build a sense of drama based on a subject. For example, at the Soda Shoppe party the guests become waiters and waitresses and build wonderful ice cream creations.”

The standard \$ 200 package for eight children includes a basket filled with invitations, gifts, games and prizes, paper goods, a party planner and the like. For more information, call Anaclerio at 708 - 864 - 6584 or Carlisle at 708 - 205 - 9141.

17. The main purpose of writing this text is \_\_\_\_\_.
- A. to share information about party planning  
 B. to introduce the joys of a birthday party  
 C. to announce a business plan  
 D. to sell a service
18. The most important idea behind the kind of party planning described here is that \_\_\_\_\_.
- A. it brings parents and children closer together  
 B. guests play a part in the preparation of a party  
 C. parents are spared the trouble of sending invitations  
 D. it provides a subject of conversation
19. What does the underlined word “hassle”(paragraph 1) probably mean?
- A. a party designed by specialists  
 B. a plan requiring careful thought  
 C. a situation causing difficulty or trouble  
 D. a demand made by guests
20. Which of the following is most likely to be a party planner?

### 四、短文改错:

Last week my parents and I took a two-day trip to Emei Mountain in Sichan. As everyone knows, it's famous mountain with all kinds of plants and animals. The weather was fine. It was about noon we arrived at the foot of the mountain. The three of them were very excited. As we climbed the mountain, we fed monkeys, visiting temples and told stories. On the way up I was busy taking picture since the scenery was so beautiful. The time passes quickly. Evening came down. We spent the night in a hotel at the top of the mountain. The food was expensive and the service was good. I was so tired that I fell asleep at the moment my head touched the pillow.

Perhaps we should have kept our mouths shut?
