内 容 提 要

本书包括针灸适应证、问诊对话、常见针灸问题的解答三个模块的内容，采取英汉对照的写作方式，是作者通过长期的针灸临床及对于针灸双语教学的研究和实践总结出来的。适合广大中医针灸教师、医师、学生及中医针灸爱好者阅读使用。

Preface

As Traditional Chinese Medicine, acupuncture and moxibustion are making their way into the world, bilingual teaching becomes a common way in TCM education. It is more crucial than ever to cultivate bilingual TCM professionals, especially those who not only have solid and profound knowledge of TCM, but also can spread them worldwide. For this reason, it is necessary that TCM colleges introduce bilingual education to TCM education. This book is based on that purpose. The author summarized the method of “Three Steps of Bilingual Teaching” in traditional TCM education, through a long-term research and practice on clinical and bilingual teaching for acupuncture and moxibustion.

Learning Name and Description of Diseases

Firstly, the English names of the disease that acupuncture and moxibustion have a marked curative effect on are given to students. Students need to learn them before classes. The names can be learned systematically according to the specific field. And the students have to consolidate what has been learned by reading specific medical cases written in English.

Practice of Dialogue in Receiving Patients

In dialogue practice, the speaking and listening materials are mostly based on the Doctor English books. Condition permitted, overseas students will be invited to participate in the discussion and situational dialogues, where doctors and patients are played.

Common Q&A for Acupuncture Treatment

With the development of TCM, people are becoming more and more interested, while some will ask many questions, such as “What’s the meaning of meridians and collaterals?”, “Which diseases can be treated by acupuncture therapy?” and “What do I need to do for an acupuncture treatment?” so on. So in the process of reception students need to explain these questions clearly and concisely. This would require students to study in daily exercises and summaries in the practice, in order to be used in clinic.

This book includes three parts “Indications for acupuncture”, “inquiry”, and “Common Q&A for Acupuncture Treatment”, aimed at providing some references for the TCM teachers,

clinician, students and TCM fans. Thanks for teacher *Fang Zeng* from Chengdu university of TCM, teacher *Yingxia Sun* from Shandong university of TCM, teacher *Feng Shen* from Hubei university of TCM, and teacher *Xinrong Guo* from Shanxi university of TCM to participate in this teaching reform item. And special thanks for the professor *Baixiao Zhao* from Beijing university of TCM to give the guidances.

Due to the rush of time and lack of experience, whereas the content is rich and broad-covered, there are unavoidably partial opinions and careless omissions. We sincerely hope to receive valuable criticism and guidance from readers and colleagues.

Author
2015 - 1

随着针灸走向世界，针灸乃至中医双语教学成为中国高等中医药院校的常用教学方式之一。中医药人才的培养，特别是既掌握了中医药专业知识，又能进行外语交流和利用外语知识来传播中医药知识的人才培养成为关键。因此，将双语教学引入中医药教育之中是十分必要的。编者通过长期针灸临床及对于针灸双语教学的研究和实践，总结出“三步模块式”教学法。

一、病名病种模块学习

首先将针灸擅长治疗疾病的英文名称给学生，学生需要在课前自学这些英文病名。在具体的学习过程中，可以按不同的分科进行系统学习，通过具体的英文病例进行巩固。

二、接诊对话模块练习

在进行对话学习的过程中，学生主要以医学英语系列书籍为基础，通过课上及业余时间进行口语对话练习和听力练习。同时，安排本校外籍留学生与国内学生一起参加课堂讨论及英语接诊的模拟训练。

三、常见针灸问题的解答模块

随着中医的发展，人们对中医的兴趣也日渐浓厚，与此同时，人们也会提出一些问题，例如“什么是经络”“针灸能治疗哪些疾病”“针灸治疗后应注意什么”等。所以学生在应诊过程中必须能够准确简洁地解答这些问题。这就需要学生们能够在日常生活中学习，在实践中注意总结，以备临床所需。

本书包括三部分的内容：针灸适应证、问诊对话和针灸常见问题解答，旨在为广大中医针灸教师、医师、学生及中医针灸爱好者提供些许可借鉴之处。另外，成都中医药大学的曾芳老师、山东中医药大学的孙英霞老师、湖北中医药大学的沈峰老师、陕西中医学院的郭欣荣老师参加本项教学改革研究工作，北京中医药大学赵百孝教授给予了指导，在此一并感谢。

因编写时间仓促，内容涉及面广，编写经验不足，难免有认识片面、疏漏之处，望广大同仁和读者提出宝贵的批评和指导意见。

Chapter 1 Indications for acupuncture	1
第一章 针灸适应证	1
1. Respiratory System & Infectious Diseases 呼吸系统及传染性疾病	1
Acute Bronchitis 急性支气管炎	1
Chronic Bronchitis 慢性支气管炎	1
Bronchial Asthma 支气管哮喘	2
Common Cold 感冒	3
Influenza 流感	3
Mumps 流行性腮腺炎	4
Upper Respiratory Tract Infection 上呼吸道感染	4
2. Circulatory System Diseases 循环系统疾病	5
Arrhythmia 心律失常	5
Coronary Heart Disease 冠心病	6
Edema 水肿	6
Hypertension 高血压	7
Palpitation 心悸	7
3. Digestive System Diseases 消化系统疾病	8
Acute and Chronic Colitis 急、慢性结肠炎	8
Acute and Chronic Gastritis 急、慢性胃炎	9
Cholecystitis 胆囊炎	9
Constipation 便秘	9
Diarrhea 腹泻	10
Gallstones 胆结石	10
Gastroptosis 胃下垂	11
Indigestion 消化不良	11
Intractable Hiccups 顽固性呃逆	12
Neurotic Vomiting 神经性呕吐	12

Peptic Ulcer 消化性溃疡	12
4. Urinary and Reproductive System Diseases 泌尿生殖系统疾病	13
Chronic Prostatitis 慢性前列腺炎	13
Cystitis 膀胱炎	13
Impotence 阳痿	14
Urinary Tract Infection 泌尿道感染	15
Urinary Retention 尿潴留	15
Seminal Emission 遗精	16
5. Endocrine and Metabolism Disorders 内分泌代谢疾病	17
Diabetes 糖尿病	17
Hyperthyroidism (Graves' disease) 甲状腺功能亢进	17
Obesity 肥胖症	18
6. Musculo-Skeletal Disorders 运动系统疾病	19
Acute Lumbar Sprain 急性腰扭伤	19
Cervical Spondylopathy 颈椎病	19
Chronic Backache 慢性腰肌劳损	20
Frozen Shoulder 肩关节周围炎	20
Ganglion Cyst 腱鞘囊肿	21
Gonitis (Knee Arthritis) 膝关节炎	21
Lumbago or Low Back Pain 腰背痛	22
Myasthenia Gravis 重症肌无力	22
Prolapsed of Lumbar Intervertebral Disc 腰间盘突出症	23
Rheumatism 风湿病	24
Rheumatoid Arthritis 类风湿性关节炎	24
Sport Injury 运动损伤	25
External Humeral Epicondylitis (Tennis Elbow) 肱骨外上髁炎 (网球肘)	25
7. Neurologic Disorders 神经系统疾病	26
Cerebral Palsy 脑瘫	26
Dizziness 眩晕	26
Epilepsy 癫痫	27
Facial palsy (Bell Palsy) 面神经麻痹 (贝尔面瘫/中风面瘫)	27
Headache 头痛	28
Migraine 偏头痛	28
Neuralgia: Femoral/Intercostal/Occipital 股/肋间/枕神经痛	28

Optic Atrophy 视神经萎缩 (青盲症)	29
Parkinsons Disease 帕金森病	29
Peripheral Neuropathy 周围性神经疾患	30
Post stroke Sequela 中风后遗症	30
Radial Nerve Paralysis 桡神经麻痹	31
Sciatica 坐骨神经痛	31
Senile Dementia 老年性痴呆	31
Trigeminal Neuralgia 三叉神经痛	32
8. Five Sense Organs Disorders 五官科疾病	32
Acute Conjunctivitis (Pink Eye) 急性结膜炎 (红眼病)	32
Acute Tonsillitis 急性扁桃腺炎	33
Allergic Rhinitis 过敏性鼻炎	34
Eyelid Ptosis 眼睑下垂	34
Myopia 近视	35
Epistaxis 鼻出血	36
Sore Throat (Pharyngitis) 咽喉肿痛 (咽炎)	36
Stye 麦粒肿	37
Toothache 牙痛	37
Tinnitus 耳鸣	38
9. Gynecological Diseases 妇科疾病	38
Acute mastitis 急性乳腺炎	38
Amenorrhea 闭经	39
BreastHyperplasia 乳腺增生	39
Dysmenorrhea 痛经	40
Dysfunctional Uterine Bleeding 功能失调性子宫出血	40
Irregular Menstruation 月经不调	41
Infertility 不孕症	41
Malposition 胎位不正	42
Morning Sickness 孕吐反应	42
Pelvic Inflammatory Disease 盆腔炎	43
Peri-Menopausal Syndrome 围绝经期综合征	43
Postpartum Hypogalactia 产后乳少	44
Premenstrual Syndrome 经前期综合征	44
Recurrent Abortion 习惯性流产	44

Uterine Prolapse 子宫脱垂	45
10. Pediatric Diseases 儿科疾病	45
Attention Deficit Hyperactivity Disorder 小儿多动症	45
Infantile Cerebral Palsy 小儿脑瘫	46
Infantile Convulsions 小儿惊厥	47
Infantile Enuresis 小儿遗尿	48
Infantile Indigestion 小儿消化不良	48
11. Dermatological Disorders 外科皮肤病	49
Acne 痘疮	49
Baldness 脱发	50
Chloasma 黄褐斑	50
Eczema 湿疹	51
Erysipelas 丹毒	51
Flat Warts 扁平疣	52
Fungal Infection 真菌感染	52
Herpes Simplex 疱疹	53
Neurodermitis 神经性皮炎	53
Hemorrhoids (Piles) 痔疮	54
Psoriasis 银屑病 (牛皮癣)	55
Shingles 带状疱疹	55
Urticaria 荨麻疹	55
12. Emergency 急症	56
Angina 心绞痛	56
Biliary Colic 胆绞痛	57
Cerebral Hemorrhage 脑出血	57
Cerebral Infarction 脑梗死	58
Heat Stroke 中暑	59
Hyperpyrexia (High Fever) 高热	60
Shock 休克	60
Syncope 晕厥	61
Convulsion 痫证 (抽搐)	62
13. Mental Disorders and Other Diseases 情志疾病及其他	63
Anxiety Disorder 焦虑症	63
Chronic Fatigue Syndrome 慢性疲劳综合征	63

Competitive Stress Syndrome 竞技紧张综合征	64
Depression 抑郁症	65
Hyperhidrosis (Over Sweating) 多汗	65
Insomnia 失眠	66
Neurasthenia 神经衰弱	67
Panic Attack 惊恐发作	68
Withdrawal Syndrome 戒断综合征 (烟、酒、毒品)	68
Chapter 2 Inquiry	70
第二章 问诊	70
1. General Inquiry 一般问诊	70
History of Presenting complaint Inquiry 现病史	70
Past Medical History Inquiry 既往史	77
Personal History and General Condition Inquiry 个人史及一般状况	78
Family History Inquiry 家族史	78
TCM Inquiry 中医问诊	79
2. Respiratory System 呼吸系统	82
General Inquiry 一般问诊	82
Cough 咳嗽	83
Phlegm 痰	83
Breath 呼吸	84
Chest Pain 胸痛	85
Smoking Habits 吸烟史	85
Allergy 过敏	86
Asthma 哮喘	86
3. Circulatory System 循环系统	88
Blood Pressure 血压	88
Palpitation and Chest Pain 心悸与胸痛	89
Heart Beat 心跳	91
Initiating and Aggravating Factors 诱因及加重因素	91
Edema 水肿	92
4. Digestive System 消化系统	94
Stomachache 胃痛	94
Vomit 呕吐	95
Hiccup and Belch 呃逆与嗳气	96

Bowel Movement 排便	97
Eating Habits 饮食习惯	98
Mental State and Physique 精神状态与体质	99
5. Urogenital and Reproductive system 泌尿生殖系统	101
Urination 小便	101
Blood and Discharge 出血和分泌物	102
Sex Life 性生活	103
6. Locomotor System 运动系统	104
Pain 疼痛	104
Joint Movement and Function 关节活动与功能	105
Trauma 外伤	106
Living Habits/Lifestyle 生活习惯/方式	107
7. Nervous System 神经系统	107
Cognitive and Sensory Disturbance 认知与感觉障碍	107
Dizziness 眩晕	109
Others 其他	109
8. Gynaecology and Obstetrics 妇产科	110
Menstruation 月经	110
Menopause 停经	111
Pregnancy and Birth 孕产史	111
Blood and Discharge 出血和分泌物	112
Pregnancy 怀孕	113
9. Mental Disorder 精神疾病	114
Mood 情绪	114
Insomnia 失眠	116
Living Habits/Lifestyle 生活习惯/方式	116
Drinking Habits 饮酒习惯	117
Medical History 病史	118
Chapter 3 Common Q&A for Acupuncture Treatment	121
第三章 针灸治疗常见问答	121
Q: What's the difference between Modern Medicine and Traditional Chinese Medicine?	121
问：中医和西医有什么区别？	121
Q: Are five organs in TCM the same as those in modern medicine?	121

问：中医的五脏和西医的内脏器官一样吗？	121
Q: What's the meaning of meridians and collaterals?	
Do they really exist?	122
问：什么是经络？它真的存在吗？	122
Q: What are Qi and Blood in TCM?	123
问：什么是气血？	123
Q: What should I expect on my first visit?	124
问：第一次看病我该怎么做？	124
Q: What do I need to do for an acupuncture treatment?	124
问：针灸治疗中应该注意些什么？	124
Q: How long does it take to complete an acupuncture therapy?	125
问：一次针灸治疗需要多长时间？	125
Q: How many treatments will I need?	126
问：需要治疗多久？	126
Q: Are there any side effects of acupuncture?	126
问：针灸有副作用吗？	126
Q: How long does it take to complete an acupuncture therapy?	
What should we pay attention to after the treatment?	127
问：一次针灸治疗大概需要多长时间？针灸治疗后需要注意什么？	127
Q: Which diseases can be treated by acupuncture therapy?	128
问：针灸能治疗什么病？	128
Q: Does acupuncture hurt?	128
问：针灸疼吗？	128
Q: How does acupuncture work?	129
问：针灸为什么能治病？	129
Q: What is electro-acupuncture?	130
问：什么是电针？	130
Q: What is cupping therapy?	131
问：什么是罐法？	131
Q: What's the auricular acupuncture therapy?	
What's the mechanism of action?	131
问：什么是耳针？作用机理是什么？	131
Q: How acupuncture treat lumbago?	132
问：为什么针灸能治疗腰痛？	132

Q: Can acupuncture treat constipation? Why?	133
问：针灸能治疗便秘吗？为什么？	133
Q: Can acupuncture treat menstrual problems?	134
问：针灸能治疗月经病吗？	134
Q: Can acupuncture treat arthritis?	134
问：针灸能治疗关节炎吗？	134
Q: Can acupuncture help to lose weight?	136
问：针灸能减肥吗？	136
Q: How acupuncture therapy help quit smoking? How does it work?	137
问：为什么针灸能戒烟？作用原理是什么？	137
Q: Can acupuncture treat depression? How does it work?	137
问：针灸能治疗抑郁吗？原理为何？	137
Q: Can acupuncture treat stress?	138
问：针灸能治疗压力综合征吗？	138
Q: Can acupuncture treat infertility?	139
问：针灸能治疗不孕不育吗？	139
Q: Can acupuncture treat Irritable Bowel Syndrome (IBS)?	140
问：针灸能治疗肠易激综合征吗？	140
Q: Can acupuncture treat asthma?	141
问：针灸能治疗哮喘吗？	141
Q: Can acupuncture treat gastritis?	142
问：针灸能治疗胃炎吗？	142
Q: Can acupuncture treat trigeminal neuralgia?	143
问：针灸能治疗三叉神经痛吗？	143
Q: Can acupuncture treat Bell's palsy?	144
问：针灸能治疗面神经麻痹吗？	144

Chapter 1 Indications for acupuncture

第一章 针灸适应证

1. Respiratory System & Infectious Diseases

呼吸系统及传染性疾病

Acute Bronchitis 急性支气管炎

Acute bronchitis is an acute inflammation of bronchi of which cough is the main symptom. It is mostly caused by bacteria, virus, physical or chemical irritants like smoke, dusts, vapors or fumes according to modern medicine theory. In TCM theory it belongs to exogenous, due to invasion of the Wind-Cold or Wind-Heat into the Lungs and Defensive Fen, resulting in the dysfunction of the Lung. In acupuncture therapy we take *Lieque* (LU-7), *Hegu* (LI-4) and *Feishu* (BL-13).

急性支气管炎是以咳嗽为主要症状的气管或支气管急性炎症。西医学认为多由细菌、病毒感染或吸烟、粉尘、废气等理化刺激引起。中医认为该病属“外感咳嗽”，多是由外感风寒、风热之邪侵袭肺卫，肺气不宣，清肃失常，而致咳嗽。针灸治疗以取列缺、合谷、肺俞等穴为主。

Chronic Bronchitis 慢性支气管炎

Chronic bronchitis is a chronic inflammation of the bronchi. Its main clinical manifestation is cough with expectoration. The etiology is associated with the virus, bacteria, physical or chemical irritation, weak immunity and vegetative nerve functional disturbance, etc. Chronic bronchitis pertains to the categories of “cough” and “dyspnea” in Traditional Chinese Medicine. It is caused by disorders of Zang-Fu organs, such as the deficiency of Lung-Yin, leading to failure in moistening the respiratory system or the dysfunction of the Spleen in transformation and transportation that leads to Phlegm and Dampness in the interior, thus

impairing the function of the Lung or the stagnation of the Liver-Qi that turn into the Fire, which may scorch the Lung and result in dysfunction of the Lung; or it could be a Kidney deficiency leading to the dysfunction of the Kidney in accepting Qi, resulting in adverse ascent of the Lung-Qi. In acupuncture therapy we take *Feishu* (BL-13), *Taiyuan* (LU-9) and *Sanyinjiao* (SP-6).

慢性支气管炎是以咳嗽、咯痰为主要症状的支气管慢性炎症。西医学认为其发病与病毒感染、细菌感染、理化刺激、免疫状态及植物神经功能失调等因素有关。中医认为该病属“咳嗽”“喘证”等范畴，多由脏腑功能失调所致，如肺阴亏损，失于清润；或脾失健运，痰湿内生，肺气不宣；或肝气郁结，气郁化火，肺失清肃；肾虚而摄纳无权，肺气上逆。针灸治疗以取肺俞、太渊、三阴交等穴为主。

Bronchial Asthma 支气管哮喘

Bronchial asthma is a bronchial allergic disease with repeated attacks of reversible airflow obstruction and bronchospasm. The main clinical manifestations are repeated paroxysmal attacks of dyspnea with wheezing, chest tightness and cough. It is usually caused by different antigens, such as pollens, dust, fish, shrimp, fur, etc. Its pathogenic characteristics are broncho constriction, excessive mucous production from goblet cells, airways edema, vascular congestion and luminal occlusion due to hypersecretion of exudates. The disease belongs to the category of “Asthma with Wheezing” in Traditional Chinese Medicine. The basic cause of the disease is internal retention of Phlegm. It can be caused by the consumption of salty and greasy food, or sea foods such as shrimps and crabs. It may cause dysfunction of the Spleen in transformation and transportation, resulting in retention of Dampness and Phlegm which may block the air passages. In acupuncture therapy we take *Feishu* (BL-13), *Lieque* (LU-7), *Danzhong* (RN-17) and *Dingchuan* (EX-B-1) as the main acupoints.

支气管哮喘为反复发作的伴支气管痉挛及可逆性气流阻塞的支气管变态反应性疾病。临床主要表现为反复发作、伴有哮鸣音、以呼气性为主的阵发性呼吸困难以及胸闷、咳嗽等。西医学认为该病常由各种不同抗原（如花粉、灰尘、鱼虾、皮毛等）所引起，以支气管痉挛，杯状细胞分泌增多气道水肿，小血管收缩分泌物增多而使支气管阻塞为病理特征。本病属于中医“哮证”范畴，基本病机为痰饮内伏，常由偏嗜咸味、肥腻或进食虾蟹鱼腥所致，脾失健运，聚湿生痰，痰饮阻塞气道，而发为痰鸣哮
