In today’s world, more and more people are unhappy. They think they have too much work to do. They have just a little money. They have too many problems in their lives ... All these things make them unhappy. But in my opinion, whether you are happy or not, only depends on yourself.

In fact, happiness is always around you if you look for it. When we have trouble at school, our classmates will help us and our teachers will encourage us; when we do well, our friends and parents will say “Congratulations!” to us. There is happiness everywhere, but some people can’t find it.

How should we make ourselves happy?

When you are unhappy, you’d better go to a quiet place, sing songs loudly by yourself, or sit in front of the piano and play beautiful music. When you do these things, all your unhappy thoughts go away.

Let’s welcome the future with the biggest smile from our hearts!
