Americans with small families usually own a small car or a large one. If both parents are working, they may have two cars. When the family is large, one of the cars is sold and they will buy a van(行李车).

A small car can hold (容纳) four persons but a large van can hold seven persons. A van can hold seven persons easily, so a family with three children can ask their grandparents to go on a holiday travel. They can all travel together.

Mr. Hagen and his wife had a third child last year. This made them sell a second car and buy a van. Their children are usually asked to sit in the back seats behind them. The sixth and seventh seats are used to put things, for a family of five must carry many suitcases when they travel. When they arrive at their grandparents' home, the suitcases are brought into the home and the two seats can then carry the grandparents.

Americans call vans motor homes. A motor home is always used for holidays. When a family are traveling to the mountains or to the seaside, they can live in their motor home for a few days or weeks. That is why motor homes have become very popular. In America there are many parks for motor homes.
