Internet Information & Communication Center 互联网信息通讯中心

Landscape design • Construction : Kirinkorea (02)512-2077
Location : Gyeonggi-do, Korea

互联网信息通讯中心是专为有关计算机风险企业设计的建筑物，在5层门廊的中亭组成了室内花园，此处从业务空间通过门窗就可以看到，可以说是具有通道功能的多功能空间。将容易形成枯燥无味的空间设计以绿色室内布景，给大家提供一个如大自然般的休息空间。3个空间各以互联网信息通讯中心所象征的技术（Technology）和利用此技术的

人（Human）之间的相互协调（Harmony）作为主题，使同一个建筑同一个楼层相互不同的门廊空间既有联系性，又有相互不同的氛围。

位于建筑左侧的C列门廊以人（Human）为主题，由黄土色彩和曲线为主，构成了一种乡间小路般的自然空间。位于建筑右侧的F列门廊为表现出技术（Technology）的速度感使用了斜

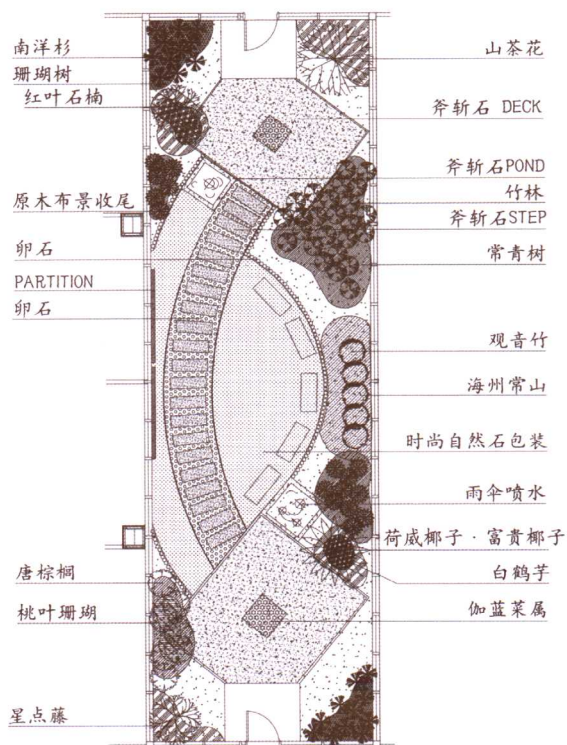

平面图

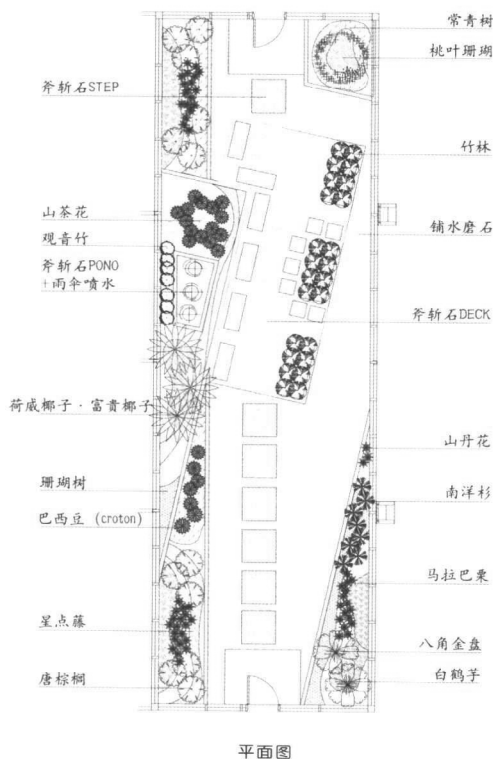

线模式，通过鹅卵石和黑色的斧斩石强调了黑白色彩对比。位于建筑中央的D列门廊则把C列的曲线和黄土色与F列的斜线和白色相组合，表现了人和技术的协调（Harmony），以此使各自的室内花园自然地由曲线变化到直线、从黄土色变化到白色。并且对树种的质感来讲，从C列的美观树种栽植，逐渐选定叶子

质感的大树种，到F列果断导入了大荷威椰子·富贵椰子，或者色彩强烈的巴西豆等。相反，在三个空间以竹子为主要树种，利用斧斩石包装和水景设施，使各个空间既不相同，又有统一性。从而使各个空间演绎各种不同的氛围，同时用地面材料和植物原料展现相互联系性。

平面图

Internet Information & Communication Center is a building for the computer-relating venture companies. The interior garden occupying the 5th floor atrium is seen from the office through the windows. The multi-function space, which can easily become monotonous, has been transformed into a relaxing area. It has been designed under three themes technology representing Internet Information & Communication Center, human the user and the harmony between them.

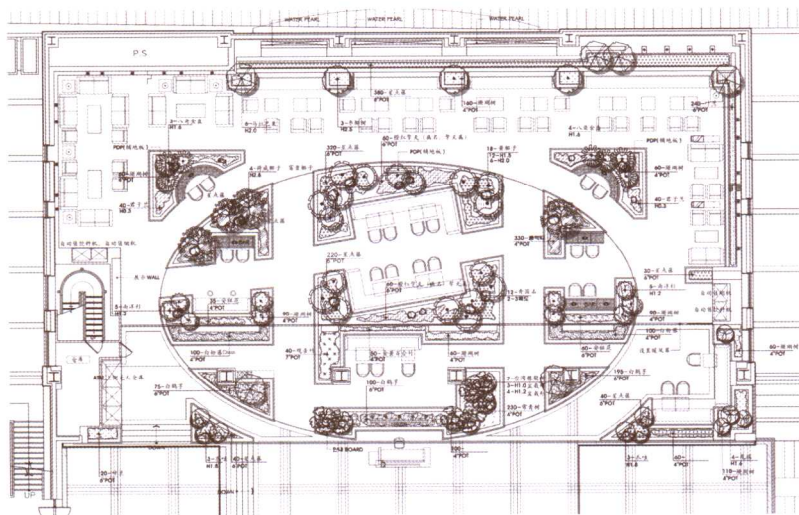

The human-themed Atrium C on the left of the building is ochery and curvaceous so that one feels as if he is walking on the strolling path. On the right side is Atrium F themed with technology. An oblique pattern expresses the

velocity, and the black trassco and white pebble emphasize the color contrast. Atrium D sitting on the center reflects the harmony, combining the individuality of Atrium C and F; the indoor garden smoothly changes from ochery to white, round to oblique. The texture of the trees are also various. The texture and the leaf size of the tree in Atrium C gradually transforms from fine to coarse, small to large as one proceeds toward Atrium F, where large kentia palms and strong-colored crotons have been daringly adopted. Though having different atmospheres, the three spaces are in common; the common use of the bamboo, trassco paving and water facility bring unity to individuality.

Landscape design · Construction : Kirinkorea (02)512-2077
Location : Seoul, Korea

1层 宣传中心

- PR Center, 1st floor

In KT&G, it has been designed in the form of a relaxation space on the first floor lobby. The plants absorb the micro dust and purify the air, creating a pleasant environment even for a smoker. Pendant trees like the amstel king, rubber tree, fan palm and phoenix palm making up for the weak point by guiding the people's viewpoint to downward.

1层 宣传中心

宣传中心设在1层外厅，是以舒适的休息空间形态来组成。最大限度地发挥室内植物吸着灰尘、净化空气的作用、可使环境舒爽，发挥各功能最大的特点。积极导入室内布景，创建可吸烟的休息空间，诱导KT&G的宣传，并且导入黄椰子、橡胶树、蒲葵、枣椰树等树枝下垂的下垂树种，诱导使用者的视线跟随植物，弥补了上顶略低的缺陷。
