Students are (3) \_\_\_\_\_ to have their own thoughts and their own ideas when they have lessons. They are properly guided to use the knowledge (4) \_\_\_\_\_. In liberal education, punishment (5) \_\_\_\_\_ exists (存在). Teachers and students are just like friends. The idea is of course a perfect one if it can really be carried out. However, it only (6) \_\_\_\_\_ in the imagination and will never be (7) \_\_\_\_\_. We must admit that children should (8) \_\_\_\_\_ be guided properly. Just close your eyes and think how many students (9) \_\_\_\_\_ in every hundred (10) \_\_\_\_\_ will carry out the duties of the students if they are not (11) \_\_\_\_\_. What is the use of advice if it is not supported by a (12) \_\_\_\_\_ degree of control and punishment? It is (13) \_\_\_\_\_ for us to judge the success and failure of this kind of education now, but from the behaviour of the children who are actually the result of (14) \_\_\_\_\_, we can see that something must be done to (15) \_\_\_\_\_ these children.
