PREFACE

前言

The modern aristocracy lives in the high-speed economic developing period. While fulfilling the abundant material life, they more eager for pursuit of spirit and culture, hope to build upgrade tasteful homes which suit for their identity in their spirit. And the elegant, pleasurable American pastoral style is their first choice.

American pastoral style highlights flavors of elegant and leisure, use large scale of pale ardoise and antique white, features with mainstream doodle flower graphic, the line is optional but very clean. It welcomes most large category of freehand-sketching graphic furniture comparing with other style ones.

American pastoral-style pays much attention to nature and comfort of live, and has been popular for many centuries in America. The decorating style was birth in the time of land cultivating, when there are more requirements in practical needs instead of aesthetics, the interior sets are rarely restrained. So same with the Queen Victorian Time and Economic Depression Time, the furniture in the time of Colony can be put together very randomly. Rocking chair, floral graphic, wild flower pots, wheat grass, fruits, disc, iron crafts are normally seen in pastoral style. No matter they are early rough furniture, rare antique or modern furniture; they can be used only if they suit for the overall environment.

This book is very comprehensively showing the American pastoral style, which is a really good lesson for the genuine design.

生活在经济高速发展时期的新贵族阶层的人，在满足充裕物质生活的同时，更渴望精神文化上的追求，营造一个有品位并和他们身份相符的家，是精神文化重要的一部分，而高贵典雅且轻松自在的美式田园风格是他们的首选之一。

美式田园风格突出格调清婉惬意，外观雅致休闲，色彩多以淡雅的板岩色和古董白居多、随意涂鸦的花卉图案为主流特色，线条随意但注重干净干练。相对其他风格的手绘家具它的家具类别最为广泛。

美式田园风格非常重视生活的自然舒适，在美国已经流传了几个世纪，这种装饰风格产于美国开拓疆土的年代，那时更多的是实际需要而不是美观，室内家具和陈设的选择也很少受风格的约束。因此殖民地时期的家具与维多利亚女王和经济萧条时期的物品一样，均可以随意放在一起。摇椅、小碎花、野花盆栽、小麦草、水果、磁盘、铁艺制品等都是田园风格空间中常用的物品，无论是早期的粗糙家具、珍奇古董、还是现代家具，只要它们和田园的格调感觉一致，都可以用作美式田园的装饰。

这本书全面地为我们展示了美式田园风格的元素，是真正向美式田园靠拢的好教案。

The design concept of American style furnishing and decorating lays in the most outstanding characteristic, which means cultural and historic inclusiveness as well as the deep enjoyment in the space design.

The kitchen should be concise; the furniture made of wood in the dining room mostly retain the natural grain of wood; showing a pure and casual pastoralism with the green plants, rattan table and chairs and the hollow decorations which are elegant and comfortable. The wooden furniture in the pastoral dining room mostly remains their natural grain and is painted by glazed paint to look natural and fresh. The child room pays attention to the freedom and Comfort of children, so design employs warm colors to be the main design of the child room. The veranda outside is special enough to adopt sufficient light. Living room expresses freedom everywhere, so as the dining room, it is the life idea of modern youths to pay more attentions to be casual and ease as well as freedom. There is still another special design, that is the arched entrance, the design of arched entrance prevents people to catch the layout inside at only one glance, this special design make the whole space unique.

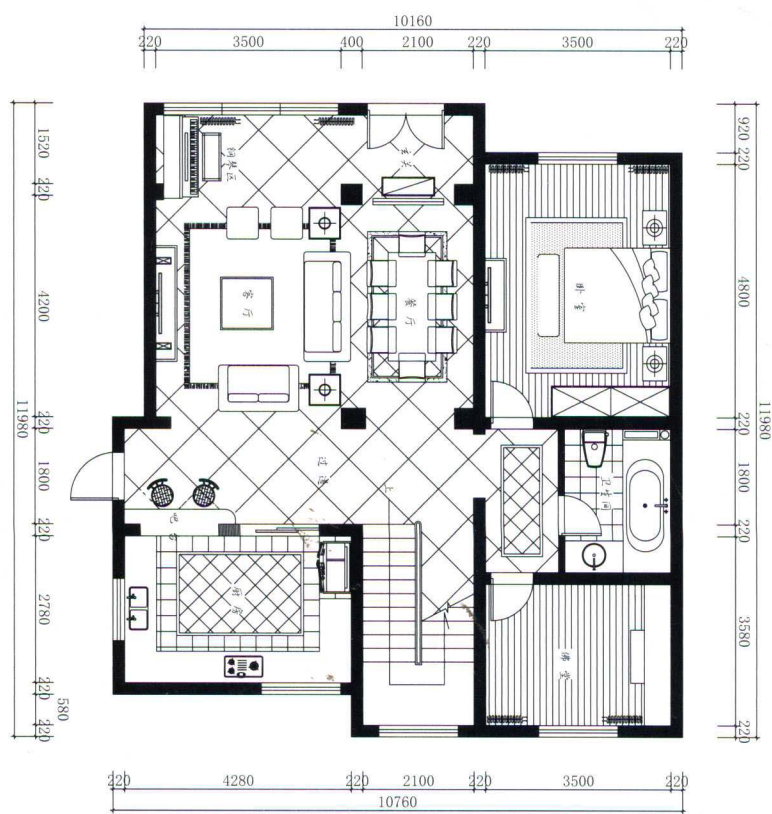

美式风格家居装修设计理念：美式风格最大的特点是文化和历史的包容性以及空间设计上的深度享受。
