Designer Brunete Fraccaroli

Location São Paulo – Jardim Paulista

Area 200m²

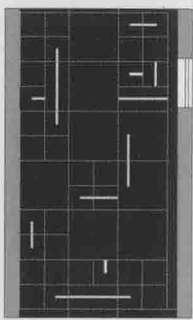

Brunete Fraccaroli's proposal to developing her office, was based on designing a place to work, that was joyful and comfortable. The colors came from Solutia's films, associated to the utilization of glass, these are the strengths of exploration.

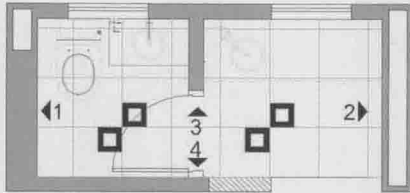

The place's audacity is noted from the entrance, with a spread hall. The colors play between the green, blue and pink, and produce a funny air to the office, making it playful and dynamic. In addition to the transparency of the glass, she creates a space contemporaneous and clean, while the mirrors give a sophisticated touch to the room.

The architect privileged the idea of turn the office functional and pleasant to work. Therefore, the silver cabinets of polyurethane made by Madeira Viva, are full of refinement. The entrance doors are opened by biometric authentication, which facilitates the movement, installed by Cynthron. The lighting, from La Lampe, values the colors from the place. The audio e video's project integrated all the office and was executed by Josias Studio.

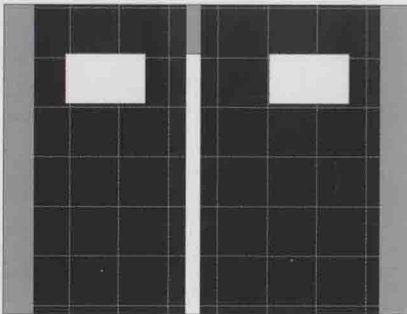

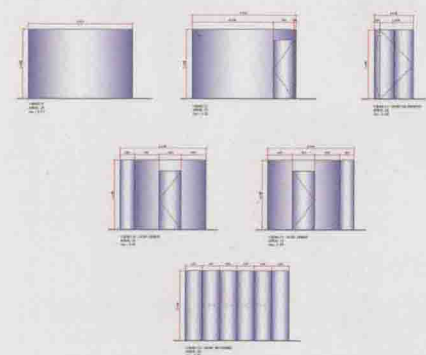

These characteristics are the translation from her way of living, happy and sophisticated, always searching for perfection in all of the details, producing a place which reflects the architect Brunete Fraccaroli in her single way.
