Overview of Foreign Languages Institute

The Foreign Languages Institute (FLI) of Fujian Normal University (FNU) came into being as a result of the merger of three preeminent foreign languages departments of the province: that of Fukian Christian University, of Hwa Nan Women's College and of Fujian College. Dating back to the dawn of the 20th century and affiliated with distinguished schools of arts and humanities, the trio of its predecessors have endowed FLI with a humanistic tradition and a cultural legacy few other foreign languages departments in China could boast.

In part because of this very special pedigree, FNU in 1981 became one of just four normal universities throughout China to receive the official authorization for setting up China's first master's programs in English language and literature, and in a 1995 nationwide appraisal, its graduate program was ranked A by the State Council's Academic Degrees Commission. During the same period when it had been receiving recognitions on the national level, FLI also established itself as a center for foreign language teaching and research in the province. In 1985, its English program was designated by the Provincial Department of Education as one of Fujian's first nine "key academic specialties," a much coveted honor with which it was again awarded after a 1992 re-appraisal. In 1995, the master's program in comparative literature and world literature jointly run by FLI and the Chinese Department of FNU won a fiercely competed spot in the provincial "211 Project."

The growth of its graduate programs has never slowed down since the 1980s. Nowadays, with a total enrolment of over 200 full time graduate students, FLI offers master's degree in four areas: English language & literature, comparative literature & world literature,

Japanese language & literature, foreign linguistics & applied linguistics, as well as a mid-career master's program for high school teachers of foreign languages. More than 60 of those who had received an MA from FLI went on to pursue their Ph.D. degree in prestigious Chinese universities such as Peking University, Beijing Foreign Studies University, Shanghai International Studies University, Guangdong Foreign Studies University, Nanjing University, Beijing Normal University, and in internationally renowned institutions of higher learning in UK, USA and Australia as well. Among this group over 50 have already received their doctorates and have taken on important professional or academic positions at home and abroad.

The year of 2005 brought to FLI the success in application for the Ph D program in English Language & Literature, a great leap in FLI's academic reconstruction. As a result of about 20 years' consistent scholarly pursuit, the Program is now characterized by a series of achievements both at home and abroad in the following 3 distinct focuses: Theoretical Linguistics (language cognition and acquisition), Cross-Cultural Verbal Communication (rhetoric and pragmatics) and British Literature, American Literature & Comparative Literature.

The same impressive expansion is seen in its undergraduate section. Consisting of the Department of English Education, Department of Japanese, Department of Business English, College English Teaching & Research Division, and Asian-European Languages Teaching & Research Division, FLI currently provides five BA programs: English (for TEFL), Japanese, English (for business), International Business & Trade, and Teaching Chinese as a Second Language, for over 1200 full time students. FLI's English (for TEFL) program has won and maintained a high reputation in Fujian for decades. Attesting to the quality of the education this program has been offering, close to one third of its graduating seniors have been admitted to selective graduate programs in the past two years.

Winning the first place in the 2004 university-wide assessment of program development, it has now been designated as one of FNU's first batch of "Priority Hallmark Programs." Keeping pace with the remarkable improvement of its teaching is the just as remarkable success FLI has managed to achieve in upgrading its research and scholarship. Scholarly organizations and research facilities are fast becoming the most prominent of its institutional components. Affiliated to FLI are FNU's Foreign Language and Literature

Research Center, Institute of Japanese Studies, International Language Training Center, and the editorial board of Foreign Language and Literature Studies, which is Fujian's only scholarly journal devoted exclusively to foreign language studies. In recognition of the high quality of its publications, the journal has been officially named one of China's outstanding foreign language periodicals.

Heavy investment in technology in recent years has also turned FLI into a technically sophisticated institution of foreign language teaching. Not only is it equipped with six multimedia digital language labs boasting state-of-the-art software and hardware, it is also the proud owner of a well-designed website that incorporates research, teaching and practical resources and has been receiving what could amount to over 5 million visits per year. FLI's official website has become an online multi-purpose platform for extensive exchanges between its faculty and scholars at home and abroad.

At present FLI has about 207 employees, of whom 170 are full time teachers and 12 are full professors. Over 45% of its faculty members are either associate or full professors and over 75% hold a master's or doctoral degree. Most of them are productive publishing scholars and, as a result, FLI has consistently ranked first, in both quantitative and qualitative terms, among its peer institutions in Fujian's Social Sciences Publications Awards. It has also consistently won more State-sponsored and Province-sponsored research projects than its counterparts in Fujian's other colleges and universities. It is little wonder that FLI also claims the greatest number of full professors among Fujian's foreign languages colleges or departments.

FLI's people-oriented political work has played a key role in its phenomenal growth. A sense of responsibility and commitment has been informing and inspiring its employees and students alike. Of its staff and faculty, one has won the honorary title of Fujian's Outstanding Political Worker and another the title of Model Party Member of Fujian. And among its students, four have been commended as Fujian's Most Accomplished College Students and two have even distinguished themselves by having their names listed on the honor roll of Outstanding College Students of China. Driven by the shared conviction that there can be no quality teaching without quality scholarship in the first place, and that the students can never be expected to excel unless the faculty first distinguishes itself, FLI's leadership, faculty and staff are redoubling their efforts to lay a solid foundation for a sustainable development of FLI in the new century.

It's time to say goodbye, but do not give in to the sadness and the loneliness of that word. I want you to remember the joy and happiness of those times when we first said hello to each other. Take the special hello and lock it away within you-in that place in your heart where summer is an always-time.

想着想着，我们还是身处在这个宿命的夏天，所有的记忆都只是眼前层层叠叠的片断。一张一张照片翻开，在这样阳光灿烂的日子里，一段段定格的往事接受着阳光的曝晒，任由那一股子特别的味道深深扎进心底。他日梦里，或许还会有着滔滔流过的闽江水，有着深夜里14#楼微弱的灯光，20路站牌下拥挤的等车人，或者，挥霍了四年的大学依旧的芳草斜阳。而我们又开启了另一段旅途，朝着明天的方向风雨兼程，行囊里满满是光阴的故事，平凡而闪亮的日子——

时值 2006 年德国世界杯，特作此页珍藏，感谢世界杯，让我们离开时，不那么寂寞……

如敝家珍的 29 个男生是我们 02 级不可缺少的一道风景线。体育场上，他们可以是最拼搏的运动员；劳动中，他们可以是最卖力的免费搬运工；班艺中，他们可以是最叫座的女妆丑角；晚归时，他们可以是最尽职的安全保镖……是的，只要你愿意，他们可以是所有……他们是我们近 200 朵红花中最可爱的绿叶~~~~~

激情世界杯 动感 02 级

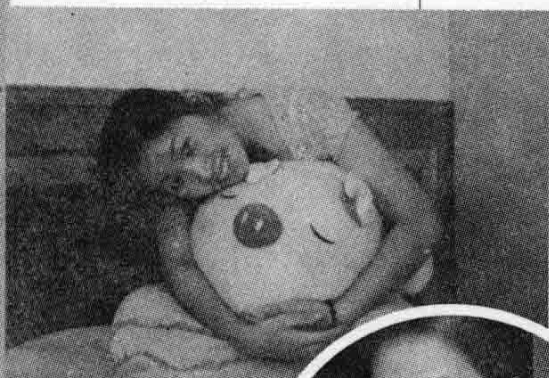

毕业了，独自撑起的生命的暖色

缘，妙不可言。因为有缘，冥冥之中天使把三十四个本不相识的我们相聚在英教（1）班这个温暖的大家庭。我们就像相亲相爱的一家人，共同谱写不寻常的大学生生命交响曲。激情飞扬，热情澎湃，生命给了什么，我们就享受什么，痛快地去感受，于是每件事情都发生来丰富我们的记忆。

大一军训的一幕幕场景还是那么清晰，剪切成一部即将谢幕的电影。曾经学习上的丰硕成果凝聚着我们的辛勤刻苦，运动场上似乎仍响彻着我们当时胜利的展望。四年的大学生活，我们一起走过；就这样，我们从青涩走向成熟。生命是一阶段一阶段的，转个弯，我们又要开始新的旅程。生命遗憾的是不能重来，但又庆幸的是它无须重来，于是我们学会了且行且珍惜。

青春散场，我们等待下一场开幕。等待我们前面的故事里，就着阳光，回忆这生命中最美好的四年，盛开过的花~~

人生短暂，四年虽不算长，却是我生命中最灿烂的时光。谢谢你们陪我走过！“拥抱你们”！
