2008年09月至2010年08月学年中有一个重要变化就是学院领导班子的换届。迄2010年初，建筑学院行政和党委陆续完成了班子的任期换届工作。同期，建筑学院对原有的建筑系、规划系等领导班子也进行了较大的调整。学校引进程泰宁院士，并组建成立了“建筑设计和理论研究中心”，学院新组建了建筑技术科学系和新的数字运算和应用中心。城市和建筑遗产保护教育部重点实验室获立项批准后进入建设期。

在四川汶川地震灾后重建过程中，学院师生不畏艰难，高质量完成了绵竹市广济镇从总体规划到镇中心单体建筑设计的全部技术工作，得到各界广泛好评。

2008-2010年，建筑学科申报的国家自然科学基金共获准25项，位居全国同类院系前茅，特别可喜的是其中青年基金占了较大份额，同时，6位青年教师获得教育部博士点基金资助，2位在站博士后获得中国博士后基金特别资助，反映了学科发展和团队建设中新一代学术骨干的成长。

学院国际化办学思路和实务工作又有了新的拓展。学校聘请葡萄牙建筑大师阿尔瓦罗·西扎来校学术讲演；邀请美国麻省理工学院（MIT）建筑与城市规划学院院长Adale Santos和建筑系主任张永和来学院作学术讲演并开展国际联合设计课程；邀请英国建筑联盟学校（AA）Brett Steele校长、Mark Cousins和Adrian Forty教授来校讲演，并联合举办建筑理论国际会议。国际联合教学在稳定的基础上有了内容和形式上的拓展，学院先后与瑞士苏黎世高工（ETHZ）、TU Vienna、TU Delft、新南威尔士大学（UNSW）和美国伍德堡大学等开展了联合教学并部分学分互认。师生合作作品“孔洞城市”（POROCITY）参加第12届威尼斯国际建筑双年展（12th Venice International Architecture Exhibition），这是学院师生作品第二次参加威尼斯双年展这一国际重要事件。近3年学院选送25名博士生执行国家CSC计划出国深造，同时从美、英、日和瑞士引进了多名世界名校博士充实师资队伍。

工程获奖方面取得丰硕成果：2008-2009年，建筑学科8项作品（4项为合作）荣获新中国成立60周年建筑创作大奖优秀奖（全国300项）。学院与罗马大学合作完成的辽宁广胜寺塔保护与修复项目，获“亚澳地区建筑遗产保护奖”（全亚洲6项）。建筑、规划景观作品荣获国家银奖1项、铜奖1项；获全国规划和建筑设计二等奖3项、三等奖2项；省级规划和设计一等奖2项、二等奖6项。学院主持的人民日报社大楼建筑设计方案在强手如林的北京标志性建筑设计方案竞赛中中标。

教学成果获国家级教学成果奖二等奖；建筑设计课程获得“国家级精品课程”称号；建筑设计课程团队获得国家级教学团队称号。城市和建筑遗产保护教育部重点实验室则在建筑遗产保护研究方面取得显著成绩。建筑技术学科团队近年在国家科研支撑下获得显著进步，学院学科均衡性总体向好。

然而，今天的中国建筑教育又面临着新的挑战和发展契机：国家层面学科分布设置可能的变化、专业学位培养的倡导、社会职场需求的变化等都是摆在我们面前的新问题和新的挑战，只有在继承传统基础上不断创新才是我们未来发展的唯一路径。

Dean's Message

An important development during the academic-year 2009–2010 is the change of the leadership of the School, as well as the directors of the departments and some other positions. Meanwhile, some new institutions were established and are in operation now, including the "Research Center of Architectural Design and Theory" set up by Professor Cheng Taining – an academican of Chinese Academy of Engineering, the Department of Building Science and Technology, and the SEU Urban and Architectural Heritage Conservation Laboratory of Ministry of Education which was officially approved and has been in its initial developing period.

In the process of rebuilding the area destroyed by the fatal earthquake in Wenchuan, many of our teachers and students devoted themselves to the planning and design for reconstruction of Mianzhu City. They finished all the detailed designs in a short time and with high quality.

In the past two academic years, the School won 25 research projects sponsored by the National Natural Science Foundation of China (NSFC), and 6 doctoral and 2 post-doctoral research projects from the Ministry of Education. With the support of all faculty members, the international collaboration was enhanced greatly. Portugal's prestigious architect Alvaro Siza came to the School and gave his first lecture in mainland China; Professor and Dean Adale Santos and Professor and Director Yung Ho Chang from the MIT, Professor and Director Brett Steele and Professor Mark Cousins from the AA School, and Professor Adrian Forty from UCL, came to co-organize the international workshops, seminars and symposiums. We also arranged a number of international studios together with architectural schools of ETHZ, TU Vienna, TU Delft, UNSW, and not mentioned many others. Our students' project POROCITY took part in the 12th La Biennale di Venezia, and it is the second time for the school joining this important event.

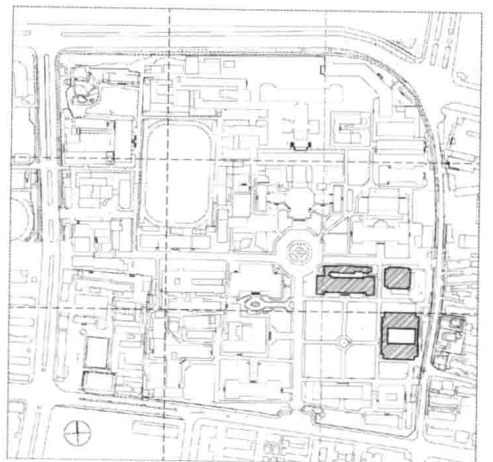

Supported by the CSC Program of the Ministry of Education, the School sent 25 doctoral candidates to study abroad in recent academic-years. Some excellent doctors joined the faculty as new force from the schools of the U.S. A., the U.K., Japan and Switzerland.

In the fields of teaching, architectural practice and urban planning, the School also made remarkable achievements. The course Architectural Design won the Second Prize of the State-level Teaching Award and was awarded as a National Excellent Course, and the group of teachers was named the National Teaching Team accordingly. Considering the establishment of the Heritage Laboratory and the Department of Building Science and Technology, the structure of the school is much more improved than ever before.

In terms of practice, 8 projects won the 60th Anniversary of New China Architectural Design Awards. The conservation of ancient Pagoda at the Guangshengsi Templein Liaoning Province (in collaboration with Rome University) was awarded as one of the six Best Cases by the UIA 2010 International Symposium on the Conservation of Architectural Heritage (Region IV, Asia and Oceania). There are some other awards, including one National Silver and one Copper Medals, 3 National Second Prizes and 2 National Third Prizes, 8 first and second prizes at province level. Further more, the faculty won the important architectural design competition of People's Daily's Headquarter in Beijing.

Nonetheless, architectural education in today's China is facing new challenges as well as opportunities. At the national level, the re-arrangement of the discipline is still an ongoing project, and demands plenty of efforts made by us. The only way for the further development in the coming years is to continue our creation on the basis of inheriting the tradition of the past.
