故事 Fable

森林饮用水

Forest Drinking Water

一条美丽的小溪流淌过森林,有一只小鹿在溪旁停下来,想喝一口新鲜的水。突然,他犹豫了起来。

"我想起来了,几年前我在这里喝过水、后来却得了可怕的腹泻!"

deer stops by a wonderful little creek flowing through the forest to take a sip of fresh water. Suddenly he stops.

"I recall having a drinking water here years ago but I was struck with terrible diarrhea afterwards."

我想起来了,我在这里喝过水

I recall having a drink water here

几年前,这里根本不长任何植物

Years ago, nothing was growing here

一只在树上上蹿下跳的松鼠听到了小鹿的话,开了口:

"没错!几年前,这里根本不长任何植物。所有人都离开了,因为喝了不好的水,他们都得了病。"

squirrel was jumping around in the trees above and heard the deer's comment and said:

"You're right! Years ago, nothing grew here and everyone left because they got sick from the bad water."

"为什么人们不挖井抽水呢?"

"他们或许试过,但是没有成功。抽水的机器需要有零件和动力,而这些都会出毛病。为此,人们受了不少罪,不是水量不够,就是水质不好。"

"既然人类的小孩都病得快死了,他们为什么不从大城市取水呢?"小鹿追问道。

hy didn't people just dig a well and pump up water?"

"They may have tried, but it never worked. Pumps need parts and energy and they break down. So the people suffered a lot from not enough water as well as bad water."

"And if their children were sick and dying, why didn't they get water from the big city?" asked the deer.

为什么人们不挖井抽水呢?

Why didn't people just dig a well and pump up water?

人们搬到城里去住

People went to the city

"噢,那可太贵了。比起把水运到这里来,人们宁愿搬到城里去住,没有人愿意留下。"

"那现在的水怎么会变得如此干净又清澈了呢?"

h, that was too expensive. Instead of sending the water here, people went to the city. No one stayed behind."

"But how can it be so healthy and crystalline now?"

"从水重新变干净开始,我就回到这儿了。有一些好心人开始种树,接着,一些不可思议的事情发生了,以前从来没有的植物和树木开始在这里生长。"

"那是不可能的!他们全是自己长出来的?那些让人上吐下泻的细菌哪儿去了?它们不见了吗?"小鹿喊道。

was here when it all started to become healthy again. Some good people began to plant trees. And then some incredible things began to happen; more plants and trees which had never been here before began to grow."

"That's not possible! All are on their own? What about the bacteria that caused the digestion problems? Are they gone?" asked the deer.

一些好心人开始种树

Some good people began to plant trees

那些坏家伙不值一提

The bad ones are outnumbered

"让你肚子痛、让你生病的细菌还存在着,但是现在,亏得有了森林,千百万的其他细菌占领了这里的土壤,比起它们,那些坏家伙便不值一提了。"

"那么,你敢保证我在这里喝水不会发牛意外?"

he ones that caused stomachaches and made you sick are still here, but now, thanks to the forest, there are millions of other bacteria which have colonized the soil. The bad ones are outnumbered."

"So, you are sure I am not going to have an 'accident' the moment I drink here?"
