## 館長序

研究發展是任何一個企業體,亦是各種產業能否賡續經營、效益加速提昇,免於在高度競爭社會下遭淘汰的重要基本原動力。屬於文化產業之一的博物館事業,似可如是觀之。

國立歷史博物館創建迄今將屆四十年,在包遵彭、王宇清、何浩天、陳癸淼及陳康順等歷任館長卓越領導,無私奉獻下,全體館員多能群策群力,積極從事各項法定館務職掌,並多方配合國家各階段制定之文化教育政策,舉其犖榮大者如推動國際文化雙向交流展覽、適時收購流失海外重要中華國寶、注重歷史文物研究及其教育推廣等皆是。就其績效言之,大致不負教育部當初排除萬難籌設本館之旨意暨廣大社會群衆之切望;惟時代丕變,當前社會多元化發展,本館館務之推展已逢轉型期,如何妥善因應邁向二十一世紀之需求,確係頗值省思亟待規劃付諸執行的課題。

猶記本人初接事國立歷史博物館,即揭示未來館務應朝國際化、現代化、資訊化、本土化及精緻化等目標,回歸本館史物研究、典藏、展覽暨其教育推廣之原宗旨。緣此,本館今後當以前輩既有的業績為基礎,並更加強學術研究及人才培育。目前之作法除責成在職同仁各本其專業知識,分就

館藏各類文物撰述,定期提出研究成果外,今年度並將發 行、出版歷史文物雙月刊、學報及史物叢刊等三種新刊物, 提供發表園地。

上項刊物之一的「史物叢刊」為系列專著或論叢,在內容上以歷史、文物、藝術、民俗相關者為主,務求學術性、歷史性及說明性兼具;撰作者除館內同仁外,亦廣納館外具真才實學的學者專家。此刊物與本館前此與國立編譯館中華叢書委員會合作編印之「歷史文物叢刊」性質類似,惟其收錄的範圍、撰稿人選及出版效率等當更具新貌。

學術是天下公器,立言不朽,歷久而常新。兹值「史物 叢刊」梓行在即,殷切期望能為本館學術研究注入活力,並 得以達成歷史傳承,社會文化教育深度推廣的時代新使命。 爰綴述以上數事為序並與全體同仁共勉。

國立歷史博物館 館長 黄光男

### **Preface**

An organization's research and development ability determines whether or not it can survive in a highly competitive society. As a cultural organization, the museum entrepreneur may be view as such.

The National Museum of History was founded in 1955, and will celebrate its Fortieth anniversary this year. Thanks to the outstanding leadership and selfless devotions of each director--Mr. Pao Tsung-p'eng, Wang Yu-ching, Ho Hao-t'ien, Chen Kuei-miao, and Chen Kang-shuen, who encouraged all of their colleagues to do their best as a team, they not only enthusiastically engaged in institutionalizing the museum administration, but also cooperated with the national policy on culture and education during each different period. This cooperation included strengthening international and cultural exchanges, collecting Overseas Chinese treasures, emphasizing research on historical artifacts and their development, as well as playing a role as an

Preface

educational institute. The result demonstrates that the National Museum of History has fulfilled the expectations of society and of the Ministry of Education which overcame all difficulties to establish the Museum.

However, as the current trend towards emphasizing the diversity of local history and artifacts continue, our museum is transforming itself. Since our mission is to meet the needs of the 21st century, we must design an overall plan to meet this new development.

When I first became the Director of the National Museum of History, I declared that the future goals of the Museum should become more international, mo dern, informational oriented and localized. On the other hand, the goal of the museum will continue to research, conserve, display, and educate the public about

its collection. The museum, based on the firm foundation of its past, will strengthen academic research and cultivate talented people. Currently, the professionals and specialists in the museum must write treatises on artifacts and present their research findings. From now on, the museum will offer the curators and researchers the opportunity to publish their academic papers in museum publications such as <u>Historical Artifacts Bimonthly Journal</u> and <u>Artifacts and History Series</u>.

One of the periodicals mentioned above, the Artifacts and History Series consist of a series of collected papers. This series will encompass artistic history, artifacts, art and folklore. The essays in this series will address academic and historical aspects. We have invited not only the specialists of our museum, but also scholars to publish in this series. Its characteristics are as same as the Collected Papers on History and Art of China which was edited by the Chung

Hwa Library Committee and National Institute for Compilation and Translation, but the <u>Artifacts and History Series</u> will cover a wide range of topics and with different authors.

Academics is a universal tool for achieving immortality through publishing writings that remaining everlastingly new. The <u>Artifacts and History Series</u> will be published soon, and I sincerly hope that our curators will conduct academic research in our museum with renewed energy. Therefore, the mission of inheriting the tradition and educating the public will be accomplished.

As these collected papers goes to press, it is my privilege to contribute these prefatory remarks to encourage my colleaguse.

Kuang-nan Huang Director National Museum of History
