In our class, the teacher asks us which kind of

animals we like best. Here are some of the answers.

Lucy says she likes dogs because they can help people to look after their houses.

She thinks the dogs are very friendly, too.

Mary says she likes to keep cats because she can play with them after school. The cats are lovely animals in her mind.

Mike says a fish is his favourite pet. It is very easy to take care of and it is quiet.

Rick says he likes pigs, although people think pigs are lazy and dirty. But in fact, they are cleverer than dogs sometimes.

It's great to have some money in our pockets. But how can we get the pocket money and how much can we get? Here are the facts of the pocket money.

In the US, a little pre-school kid may get a dollar or two, and older children get more. American parents give pocket money to their children, but their children have to do chores. Like kids in the US, British children also do chores to earn their pocket money. In Britain, kids in the primary school get 4 or 5 pounds each week. When they enter middle school, they get about 9 pounds. In Britain, boys usually get a little more pocket money than girls.

Children know it's not easy to get the pocket

money. So they can learn to spend money wisely. 7% of them spend less than £1 each week, 22% spend between £1 and £5, and 20% spend over £5 each week. Most children spend their pocket money on sweets, crisps(薯片)and chocolate.

根据短文内容,回答下列问题。

1. What's the main idea of the passage?

2. How do American children get their pocket money?

3. In Britain, how much pocket money do kids in primary school get each week?

4. If there are one thousand students, how many of them can spend between £1 and £5 a week?

5. What do most children buy with their pocket money?

There are many different kinds of animals in the zoo. We see the zoo keepers give them food to eat. They don't have to find food for themselves. They just eat, walk and sleep all day. So many of us think that the animals there are happy. But most of them are sad. Why? They are not free!

Animals like elephants, monkeys and tigers usually live freely and happily in forests or mountains. Tigers, for example, run, jump and play with their children and catch small animals for food. But now they have to stay in the small rooms in the zoo. Their life in the zoo is different from their life in the forests.

Now all of us think more animals should go back to the forests. Do you think so?
