## The Pursuit of an Ideal State

ww.ertongbook.com

Neon lights illuminate the densely rushed crowd.

They walk through the city corner.

In bustling cities, have you ever wanted your own peace?

Will you miss the free days in deep sleep?

Do you wish to see the branches and flowers swaying in the wind?

The open courtyard makes you a myriad of thoughts.

Because of the beautiful scenery, you may feel reluctant to depart.

Therefore, people begin to seek a destination with peace.

The scenery helps to release people's soul.

Comfortable residence without landscape is just like coffee without milk.

Landscape brings people a variety of moments to experience,

From the transience of four seasons to the rhythm of the city on your skin.

# 追求理想的国度

霓虹的街灯映照着密集奔波的人群 他们穿行于城市的角落 在繁华闹市间,你是否也想寻觅一份属于自己的宁静 沉睡时,你是否会回忆那游离的日子 期盼见到那风中摇曳的树枝和飞舞的花朵 空旷的庭院让你思绪万千 因留恋繁华闹市的美景而不忍离去 于是人们便寻觅着一方宁静的归处 美好的环境带给人们心灵的释放 舒适的住宅没有景观的点缀就像没加牛奶的咖啡 美景带给人们不同的瞬间体验 从转瞬即逝的四季到城市在肌肤间的律动

# **Preface**

Living environment contains five elements: they are the people, society, nature, architecture, and network respectively. The forms of housing construction differentiated because of the terrain, geography, climate, history and way of life. In the South River Land, the exquisitely handsome loft and concisely elegant bamboo house maintain the harmony with nature. In the sparsely populated northwest, tile-roofed-house shows a dignified life. And in the vast North China, flat houses are as simple and vigorous as the Great Plains.

The major elements in landscape design are: green landscapes Which are like plant arrangement, platform greenbelt, roof greenbelt, and protection of old trees; road landscapes are like vehicle road plant and footpath; site landscapes are like fitness court, amusement park and leisure square; waterscape are like natural waterscape, swimming pool; sheltered landscape are like pavilion, gallery, pergola and membrane structure; simulated landscape are like rockery, imitation stone, artificial trees and lawn; high viewpoint landscape are like pattern, color, level, density, shade and contour.

This book has collected 31 projects relating to residential landscape design. All the projects have collected culture, history, art and inspiration as a whole. The aim of such projects is to provide a leisure space and landscape for the exchange of ideas, interactive entertainment and art appreciation of people. The publication of the book, while giving the designers inspiration, will also lead the reader to appreciate an elegant heaven residence, and then to create more fantastic works.

# 序言

人居环境所包含的五种元素分别是人、社会、自然、建筑,以及网络。房屋建筑形式又因地形、地域、气候、历史渊源和生活方式的不同而形成迥异的风格。在杏花春雨的江南,玲珑俊秀的阁楼、简练雅致的竹楼,与自然保持着和谐;在地广人稀的塞北,出檐起脊的瓦房,显示着生活的凝重;在广袤无垠的华北,齐斩斩的平顶房与大平原一样古朴浑厚。

住宅景观设计的要素包括:绿化种植景观,即植物配植、平台绿地、屋顶绿地、古树名树保护;道路景观,即机动车道、步行道;场所景观,即健身运动场、游乐场、休闲广场;水景景观,即自然水景、泳池水景;庇护性景观,即亭、廊、棚架、膜结构;模拟化景观,即假山、假石、人造树木、人造草坪;高视点景观,即图案、色彩、层次、密度、荫影、轮廓。

本书共辑录了31个有关住宅景观的典范作品,集文化、历史、艺术、灵感于一体的综合设计。为人们提供一个交流信息、娱乐互动、鉴赏艺术的休闲场所和住宅景观,更有设计独特的公共设施。此书的出版不仅会带给设计工作者及艺术爱好者们一个宏观的居住美感体验,而且能激发创作灵感,从而呈现更多更好的作品。

#### Landscape Highlights

To instead of building solid wall, which would make the area feel even smaller, designers proposed a custom-designed sculpture wall as the alternative. The wall is a series of sculptural columns; each has some space between one another. As the result, the area has some ventilation and plays with natural light in a much more interesting way. At the base of the columns, designers strategically place a reflecting pond to make the visual even more beautiful.

### Design Concept

For the pool, originally, the architect provides a small rectangular pool in the middle of the roof. Because designers have a great view here, they suggested them to create an L-shape pool, right at the edge of the building instead. With this design, designers have one of the best views of Bangkok for residents. Then they play with the composition of the pool terrace. They divide the terrace into several portions. This way, a person would not see the whole garden at once. He has to walk around and discover some secret corners in the garden by himself. With a variety of space provided on the roof, everyone can use it without disturbing others.

### 景观亮点

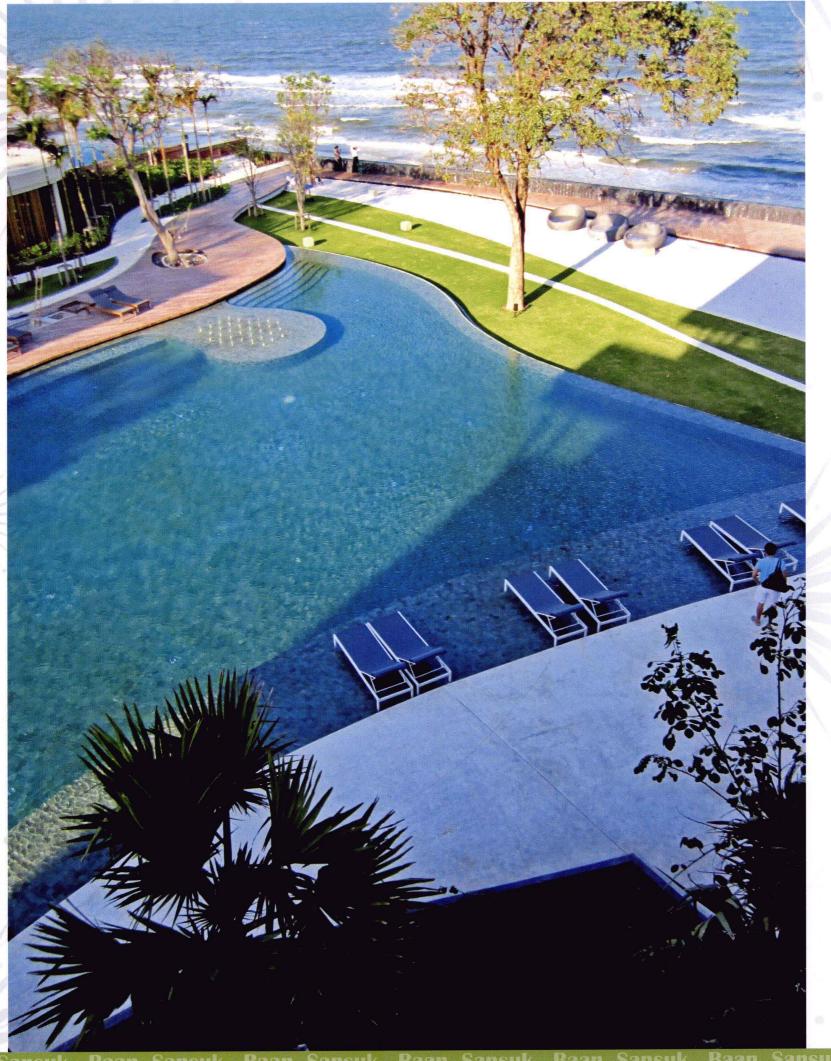

为了取代使房间看起来更小的坚实墙壁,设计师改用了预制雕刻墙作为替代品。墙壁上呈现出一系列雕塑,每两个面墙之间就有一些空隙。因此,空间便得以通风,并引入充足的光线。在雕塑的底部,设计师还设计了一个反光水池,制造出迷人的视觉效果。

### 设计理念

至于水池的设计,设计师们在屋顶中央设计了一个小型的矩形水池。设计师在它的设计上有一个独特的想法,他们想在建筑的边沿设计一个 L 形泳池。泳池的设计为住户提供了曼谷最好的赏景角度。然后设计师们开始考虑泳池露台的景观设计。他们将露台分为几个部分。人们就不能一次将所有的景致全部看完,必须绕一圈才能看到花园里一些隐蔽的角落。屋顶上有足够的私人空间,使每个人都可以享受悠闲舒适的生活。
