FOREWORD

Taiwan, Republic of China, being an island, is not rich in natural resources; therefore, depends heavily on external trade. Our annual export trade amount counts more than fifty percent of our G.N.P. It is easy to understand the importance of export trade in our economical development.

The establishment of China External Trade Development Council aims at helping the exporters of our country to extend their trade abroad. In recent years, our people have fully realized the important role which external trade played. The publishers have contributed more and more to the publication of books, magazines, and annuals concerning external trade. This is really a thrilling phenomenon. According to statistics, the export amounts of our annual machinery and hardware reaches 1.3/1.4 billion U.S. dollars. They are classified among the exporting goods which possess the highest potentiality. Due to the competitive price and good quality of our machinery and hardware, international businessmen come to Taiwan for shopping purpose, The "TAIWAN MACHINERY & HARDWARE DIRECTORY", compiled by CHINA INFORMATION CENTER, is highly recommendable for both domestic and foreign traders as a reference book. It also contributes to promoting the exportation of our machinery and hardware; therefore, it is being helpful and worth encouragement.

As before the publishing of the annual, several pieces of talk are intentionally added to offer a reference to domestic and foreign traders.

Vice-president and Secretary-general

序

我國爲一海島經濟型態，自然資源缺乏，對外貿易之依賴性甚高，每年我國之出口貿易額均超過全國生產毛額之半數，足見出口貿易對我經濟發展之重要性。

外貿協會之成立，在協助國內業者拓展對外貿易，近年來國人已體會到對外貿易之重要性，全國出版界對促進對外貿易之書刊、年鑑，亦日見增加，實爲一可喜現象。根據統計，我國近年來每年機械產品及主要五金產品之外銷金額，已高達十三億至十四億美元左右，爲我國出口產品中極具潛力之項目。由於我國機械五金產品物美價廉，國際人士競相來台採購，因此全國產品資料供應社編刊「中華民國機械暨五金年鑑」一書，對國內外業者極具參考價值，對促進我國機器五金之外銷，亦大有幫助，誠值得鼓勵。茲值該書刊印之前，特聊綴數語，用介我國內外業者參考。
