感悟娱乐休闲空间室内设计

Feel the Recreational & Leisure Space Indoor Design

刘卫军/中国高级室内建筑师

大陆地区第一个获得亚太室内设计国际金奖设计师

CIID中国建筑学会室内设计分会第三专业委员会委员

IDA香港室内设计协会中国深圳代表处委员

[中国建筑室内设计学会会员中国民族摄影协会与美术协会会员]

现为深圳市建筑装饰(集团)设计研究院设计一部负责人, 新青年设计会主持

1998年 荣获深圳建设投资控股集团“优秀青年设计师”及“青年岗位能手”称号、“北京第四届国际建筑、建材及城市设施展览会”优秀展示设计奖

1999年 深圳科技大厦国际高新科技展览馆设计工程荣获“深圳市样板工程奖”

2000年 参与中华世纪坛室内设计, 荣获“中国最高设计工程鲁班奖”

2001年 荣获中国首届住宅室内设计大赛提名奖及一项入围奖

2002年 荣获华南地区室内设计大赛第一名及最佳创意奖

2002年 荣获国际“亚太室内设计冠军奖”

2003年 荣获“2002年度深圳建筑装饰(集团)设计研究院优秀员工奖”

DANFU LIU/Chinese senior indoor architect

First designer in Mainland China awarded with International Gold Prize of Asia-Pacific Indoor Design

Member of Third Specialty Committee of CIID China Architectural Society Indoor Design Branch

Member of IDA Hong Kong Indoor Design Association China Shenzhen Representative Office

[Member of China Architectural Indoor Design Society

Member of China Ethnic Photographing Association and Art Association]

Responsible person of No. 1 Design Dept. of Shenzhen Architectural Decoration (Group) Design Research Institute, chairman of New Youth Design Society

1998 Won the title of "Excellent young designer" and "Young post expert" of Shenzhen Construction Investment Holding Group
Excellent exhibition design prize of "Beijing Fourth International Building, Construction Material and Municipal Facility Fair"

1999 "Shenzhen Model Project Prize" for International hi-tech gallery design project of Shenzhen Technology Building

2000 Participated in the indoor design of China Century Forum, won the "Luban Prize of China's Highest Design Project"

2001 Won the "Nomination prize of China First Residence Indoor Design Contest" and one "Entrance prize"

2002 Won the first place and best creation prize in South China Indoor Design Contest

2002 Won the international "Asia-Pacific Indoor Design Championship Prize"

2003 Won "Excellent employee prize of Shenzhen Architectural Decoration (Group) Design Research Institute in 2002"

设计态势

建筑与室内设计飞速发展, 设计师有了更多展示自己作品的舞台, 业内呈现出百花齐放、百家争鸣的局面, 如酒店设计、办公空间设计、家居设计等。室内设计师把建筑条件、设备条件、自然条件融合现代科技, 使室内设计的物质技术手段更多样化, 更具有先进性和灵活性, 并利用一切要素来创造优质的内部生活环境, 成就环境的美学价值。

解说娱乐休闲空间

娱乐休闲场所的室内设计, 是一个技术与艺术相结合的装饰空间, 它随着时代背景及意识形态的发展而发展, 并呈现新的特色。处于竞争日益激烈的社会, 人们受到来自工作

与生活等多方面的压力, 更加渴望轻松舒适的自由休闲空间。

娱乐休闲空间在设计中更多地考虑了人性化的生态环境, 然而作为一种商业空间, 它又是最具感官、最关注情绪的环境空间。所以对于室内设计专业来说, 不管使用哪一种装饰风格, 都强调富有特色、令人注目的艺术主题, 一系列的装饰元素都表现得非常抽象, 深化了设计的文化艺术内涵。

1. 包容性与扩张性

娱乐休闲作为服务性行业, 在设计中, 规划、功能、区域、布置都具有极大的包容性与扩张性。包容性, 因为它必须满足来自不同阶层不同地域的消费者, 所以装饰表达形式是国际化与大众化; 扩张性, 表述装饰设计的标志性与社会

效应性。

2. 设计概念、实施性与安全性

设计概念也是决定优秀的娱乐休闲空间的重要因素，好的设计概念会在无形中丰富了空间形象。如：思想营作定位、风格主题定位、装饰艺术手法等。设计实施性，它是比较具体的，包括了各种专业配合，如：灯光设计、家具设计、POP设计、音响系统设计、消防电气空调系统设计、陈设艺术设计、餐饮器皿设计等。设计安全性，它是最基本的，包括人流导示、消防通道、空气输送系统等。

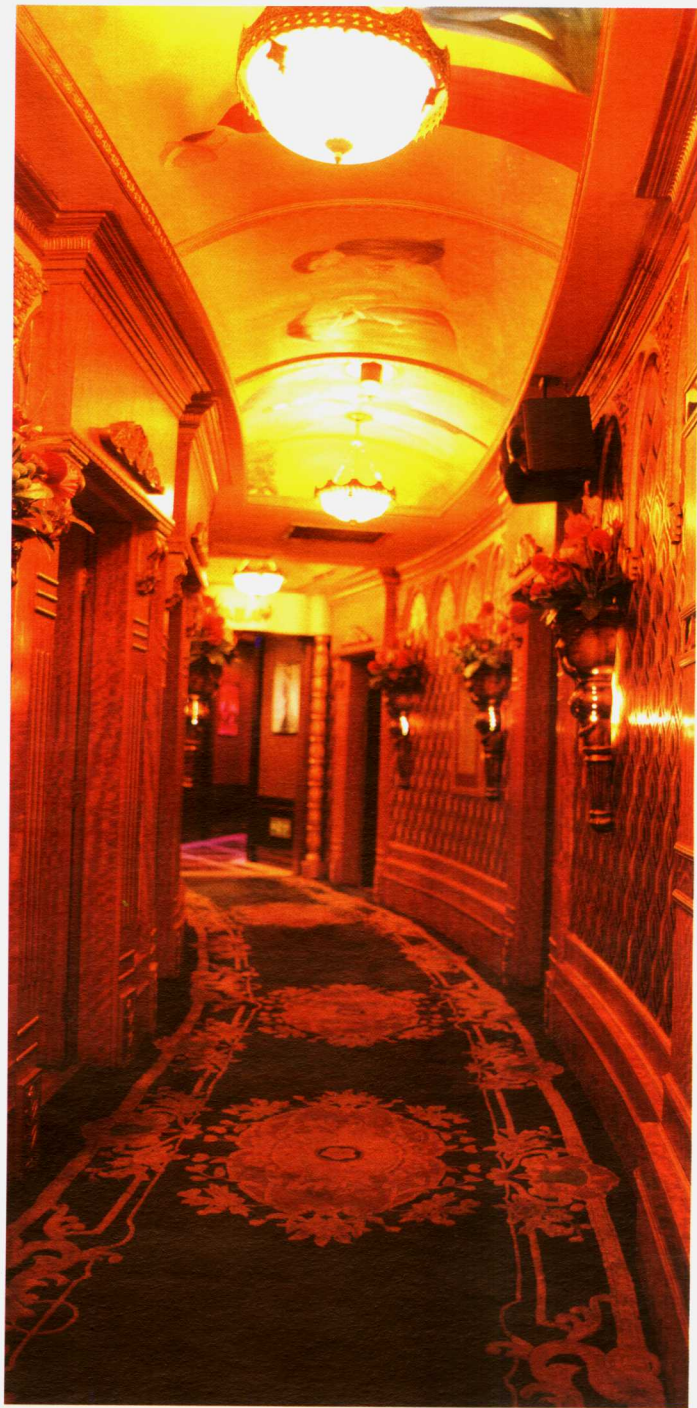

关于《生活元素空间》

《生活元素空间》以全新的角度收集了众多的酒吧、夜总会、卡拉OK、足浴桑拿、美容院等娱乐休闲场所室内设计的经典案例，以创新的精神表现不同的特性与内涵，从设计水准、科技含量、文化内涵、革新意识等各方面反映了设计师们正朝着全新的设计方向前进。为广大读者和设计师提供了具有极高的欣赏价值和参考价值的经典作品，具有一定的借鉴性和实用性，为探讨现代娱乐休闲场所的室内设计提供了依据。

感悟与效应

时代的变革，科学技术的发展和材料的进步，必然赋予室内设计以新的形式和内容。设计师面临着更多更专业的技能要求：各种休闲娱乐空间的功能性规划、创作设计、环境布置、音乐系统、灯光等，采用生态化、智能化、信息化的手段加以创新的同时，需对城市文脉、文化特色、审美要求等做出综合性的分析，加深对人的生理、心理、精神等方面的全面关怀，以宏观的时代潮流塑造各种功能区域空间以及娱乐休闲空间的相互协调性，升华和谐愉悦的人文气息。

娱乐休闲空间是一种综合性很强的环境艺术空间，《生活元素空间》的出版将会给设计师们带来更多创作灵感与参考，同时又会加深社会各界对建筑装饰设计的理解。本人发表以上拙见，希冀有机会可以与各位业界同仁专题性地互相交流，共同探讨娱乐休闲场所的室内设计，从而强化精品意识，推动原创设计意识，共同提升设计水平。

Feel the & Leisure Space

Design Status

The architectural and indoor design is developing rapidly, the designer has more stages to show his own works, and the industry has shown a status of "all flowers are in bloom and contention from a hundred schools of thought", such as hotel design, office space design, residential living design, etc. The indoor designer has merged the building condition, equipment condition and natural condition with the modern technology, making the material and technical means of the indoor design more versatile, more advanced and flexible, and utilizing all the factors to create high-quality internal living environment, achieving esthetic value of the environment.

Explain Recreational & Leisure Space

The indoor design of the recreational & leisure space is a decoration space in combination with the technology and art. It develops with the times background and ideology, and shows new features. In a society with ever-intensive competition, people have got the pressure from various aspects such as work and life, more longing for the relaxed and comfortable free leisure space.

The recreational & leisure space puts more attention to the humanistic ecological environment in the design. However, as a commercial space, it is an environmental space full of most sense and putting most concern on the sentiment. Therefore, for the indoor design, whichever decoration style it uses, it will emphasize the picturesque and outstanding artistic theme. A series of decoration elements are shown very abstractedly, deepening the cultural and artistic connotation of the design.

1. Compatibility and expandability.

As the service industry the recreation and leisure has great

compatibility and expandability in terms of planning, function, area and layout in the design, because it must satisfy the consumers from different levels in different areas, the decoration expression is internationalization and popularization; the expandability shows the decoration design symbolization and social effect.

2. Design concept, implementation and safety.

The design concept is also an important factor to determine the excellent recreational leisure space. Good design concept will enrich the space image invisibly, such as ideological operation orientation, style theme orientation, decoration art style, etc. The design implementation is quite specific, including the coordination from various specialties, such as light design, furniture design,

Recreational Indoor Design

POP design, audio system design, firefighting electrical air-conditioning system design, display art design, dining utensil design, etc. The design safety is most fundamental, including people's flow guidance, fire passage, air transmission system, etc.

On "Living Element Space"

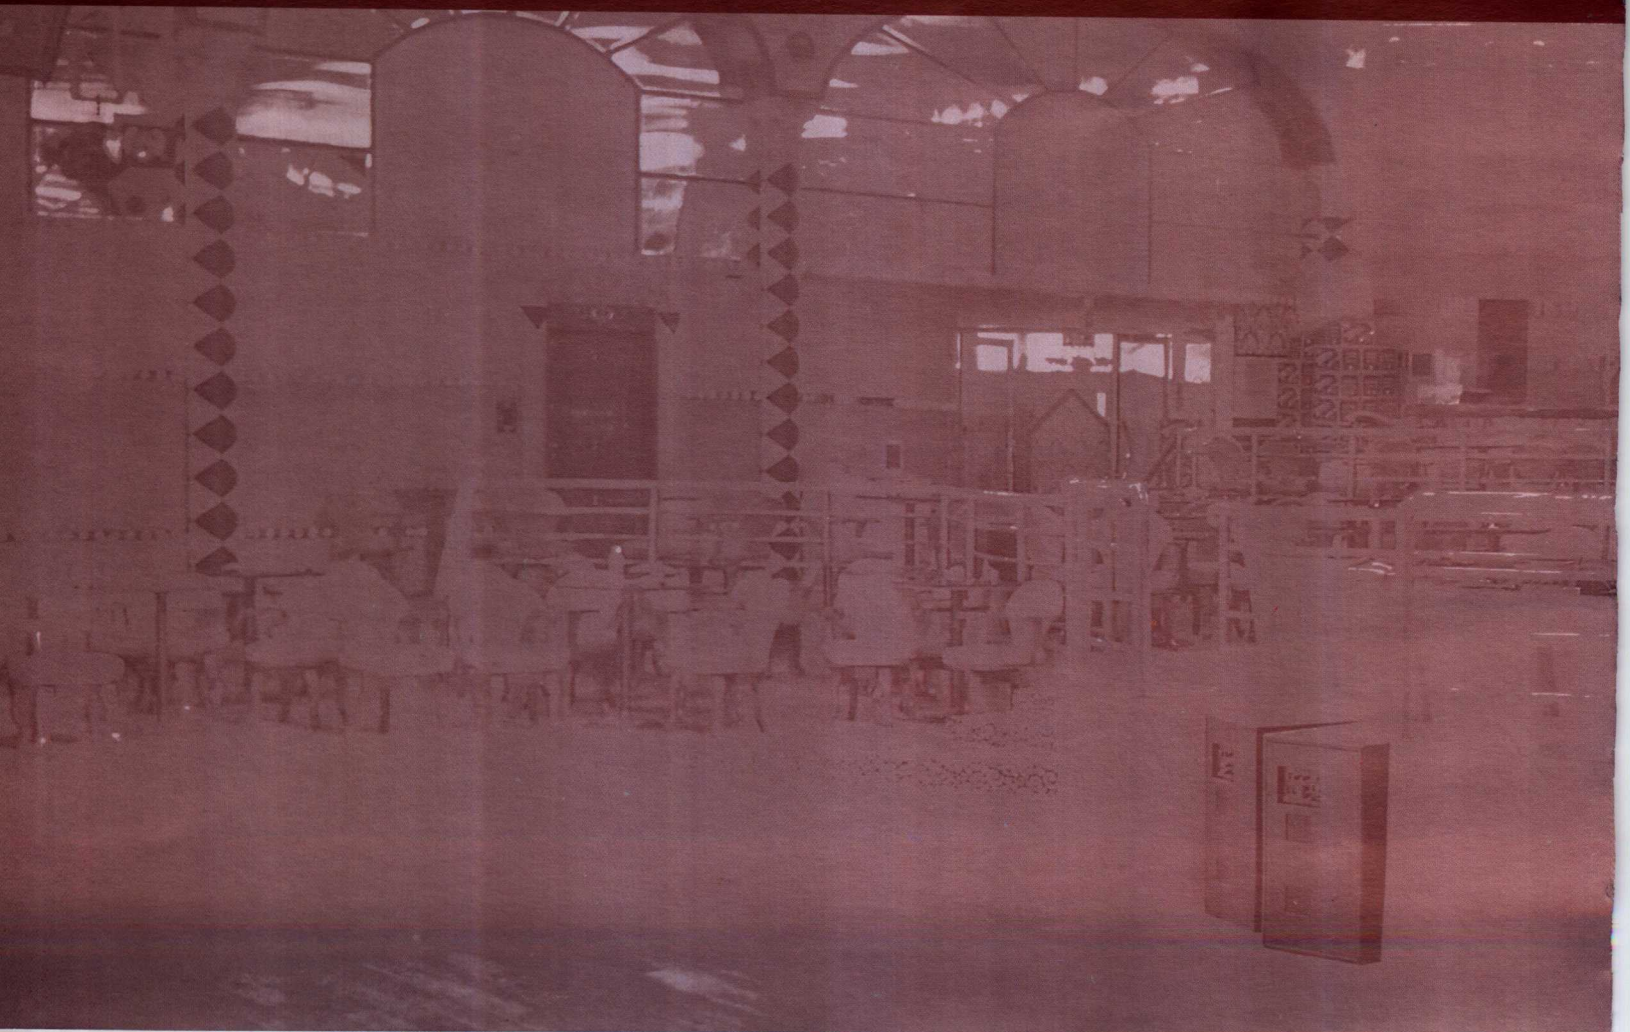

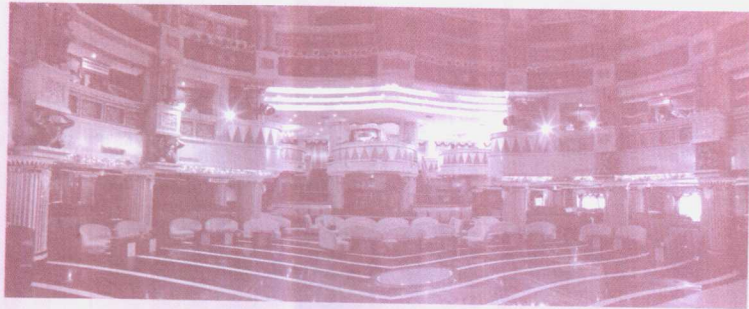

"Living Element Space" has collected from a completely new angle many classical indoor design examples for such recreational & leisure places as bar, nightclub, karaoke, foot bath, sauna, beauty salon, etc., showing different characteristics and connotations with innovative spirits, and demonstrating that the designers are marching towards the completely new design direction from various aspects, such as design level, technical

content, cultural connotation, innovative consciousness, etc. It provides the readers and designers with classical works of high appreciation value and reference value, having certain use for reference and practicability, providing the basis for the indoor design of modern recreational & leisure place.

Feeling & Effect

The change of the time, development of science & technology, and material progress will certainly assign the indoor design with new form and content. The designer is facing more requirements for more professional skill: functional planning, creation design, environment layout, music system, lighting, etc. for various leisure recreational spaces. While making innovation through ecological, intelligent and information means, they need to make comprehensive analysis on the city's context, cultural feature, esthetic requirement, etc., strengthen the overall concern on the physiological, psychological and spiritual aspects, shape the mutual coordination between various functional area space and recreational leisure space with macroscopic time trend, and improve the harmonic and pleasing humanistic breath.

The recreational leisure space is an environmental artistic space with strong comprehensive feature. The publishing of "Living Element Space" will bring more inspiration and reference for the creation for designers, and meanwhile it will strengthen the understanding and ideal of various social circles on the architectural decoration design. I have made the above comment and hope to have the opportunity to make special communication with various colleagues of the industry, jointly discussing the indoor design of recreational leisure place, thus strengthening the essence consciousness, promoting the original design consciousness, and jointly improving the design level.

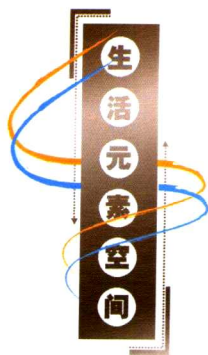

夜总会 · 娱乐城

Nightclub *Recreational town*

21世纪演艺中心 21st Century Performance Center

设计单位: 御居室内设计事务所有限公司

投资商: 深圳市中航集团物业总公司

摄影: 喻楚迪

建筑面积: 3000m²

装修材料: 玻璃钢、墙纸、不锈钢、

彩色亮漆、木贴面板等

Designed by: IBIS Interior Design & Associates Limited.

Investor: Shenzhen Zhonghang Group Property Corporation

Photographer: Yu Chudi

Floor area: 3000m²

Decoration material: Fiberglass reinforced plastics, wallpaper,

stainless steel, colored light paint, wood face

panel, etc.

环绕的吧台、深沉的家具色调、丰富的空间层次感, 突出了升降式舞台的中心位置。色彩各异、如梦似幻的灯光, 烘托出激情振奋的娱乐氛围。欧陆风格的浮雕, 使人如身临其境, 惊奇与神秘感并存。

The surrounding bar counter, dark furniture color and rich sense of space layer have highlighted the central position of the lifting stage. Different colored dream-like lights have set off the recreational atmosphere with enthusiasm and inspiration. The European continental relief makes people feel like staying inside, with coexistence of surprise and mystery.
