序

百年学府,他们走过;这座校园,他们奋斗过……

吴有训、严济慈、李四光、竺可桢、茅以升、陶行知、胡小石、熊庆来、杨杏佛、童第周、金善保、闻一多、张大千、徐悲鸿、吴作人、吕叔湘、吴健雄、宗白华、梁希、戴安邦……名家大师们的瑰丽身影,永远铭刻在这里。

海阔天空,风云际会,伟人事迹,给后来者带来多少景仰。

斗转星移,岁月的流逝已将“两江师范学堂”的石匾冲刷出道道印痕;青砖圆瓦、斗拱飞檐的四周,已触目可见现代化高楼广厦直插云霄。可是,在校园的心灵深处,爱国、科学、开放、奉献的精神,严谨、求实、勤奋、创新的学风,却一直传承不绝,历久弥新。

这里,百年来培育了代代英杰;这里,结出了数不胜数的科技、思想、文化硕果……

这就是南京大学。

这就是数代大哲先贤耕耘以继的精神家园,这就是今日衮衮多士育才济世的文化圣地。

感谢你来到这里,欢迎你神览南大这难以言说的渊博与美丽。

Preface

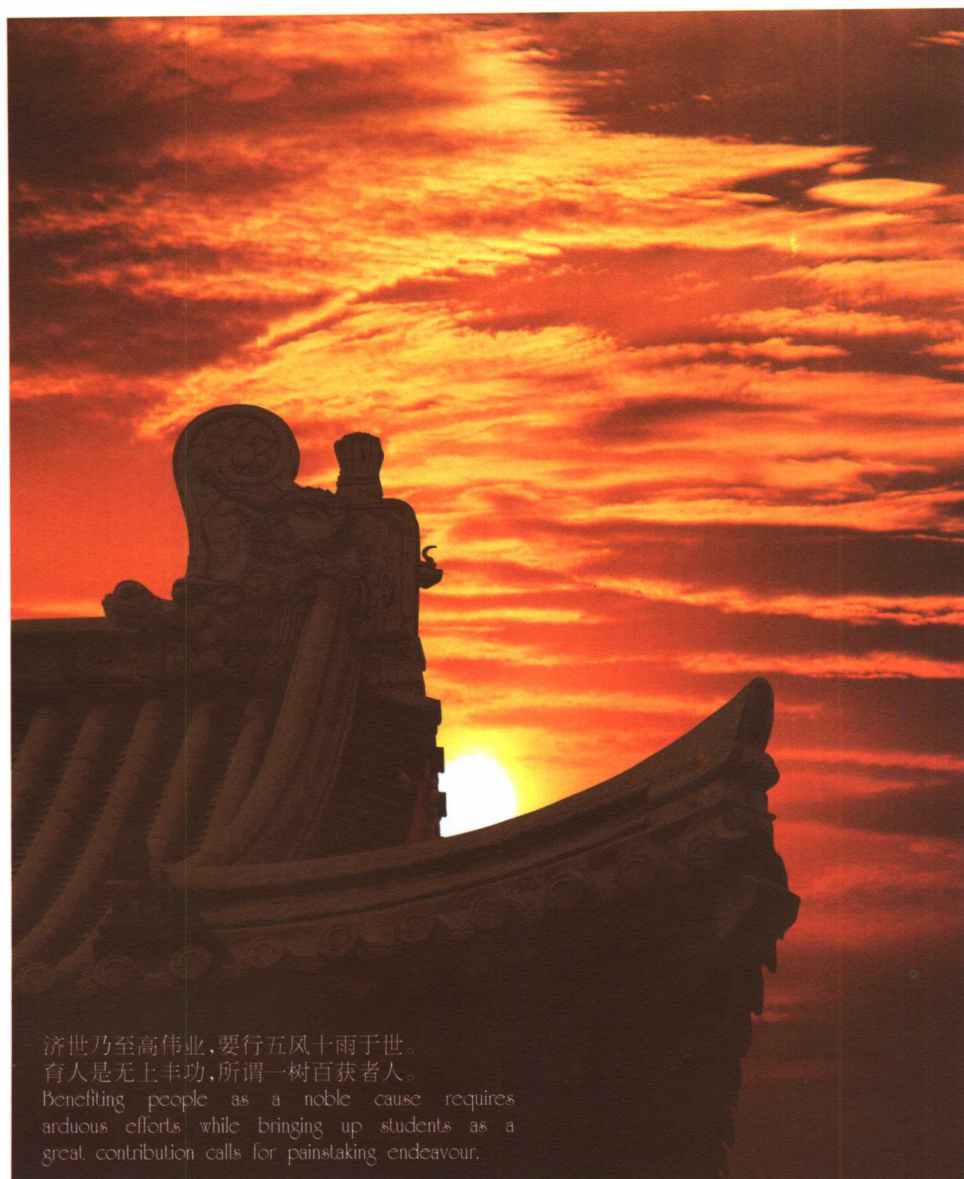

With a history of one hundred years, Nanjing University has witnessed experiences of quite many celebrities of eternal fame on the campus, including Wu Youxun, Yan Jici, Li Siguang, Zhu Kezheng, Mao Yisheng, Tao XingZhi, Hu Xiaoshi, Xiong Qinglai, Yang Xingfu, Tong Dizhou, Jing Shanbao, Wen Yiduo, Zhang Daqian, Xu Beihong, Wu Zuoren, Lu Shuxiang, Wu Jianxiong, Zong Baihua, Liang Xi and Dai Anbang, etc. Their experiences greatly inspire people of many generations to come.

Despite the elapse of time that has worn out the stone board inscribed with "Liangjiang Normal School" and the change of architecture marked by streamlined, clear-cut and towering styles of modern fashion as against previous traditional modes featured by grey bricks, round tiles, brackets and upturned eaves in stable balance, Nanjing University has been carrying on its spirit of patriotism, scientific approach, opening-up and dedication as well as its academic atmosphere of rigor, realistic attitude, diligence and creativity.

For a hundred years, many influential talents have been brought up, contributing greatly to the development of science, technology, ideology and culture in China.

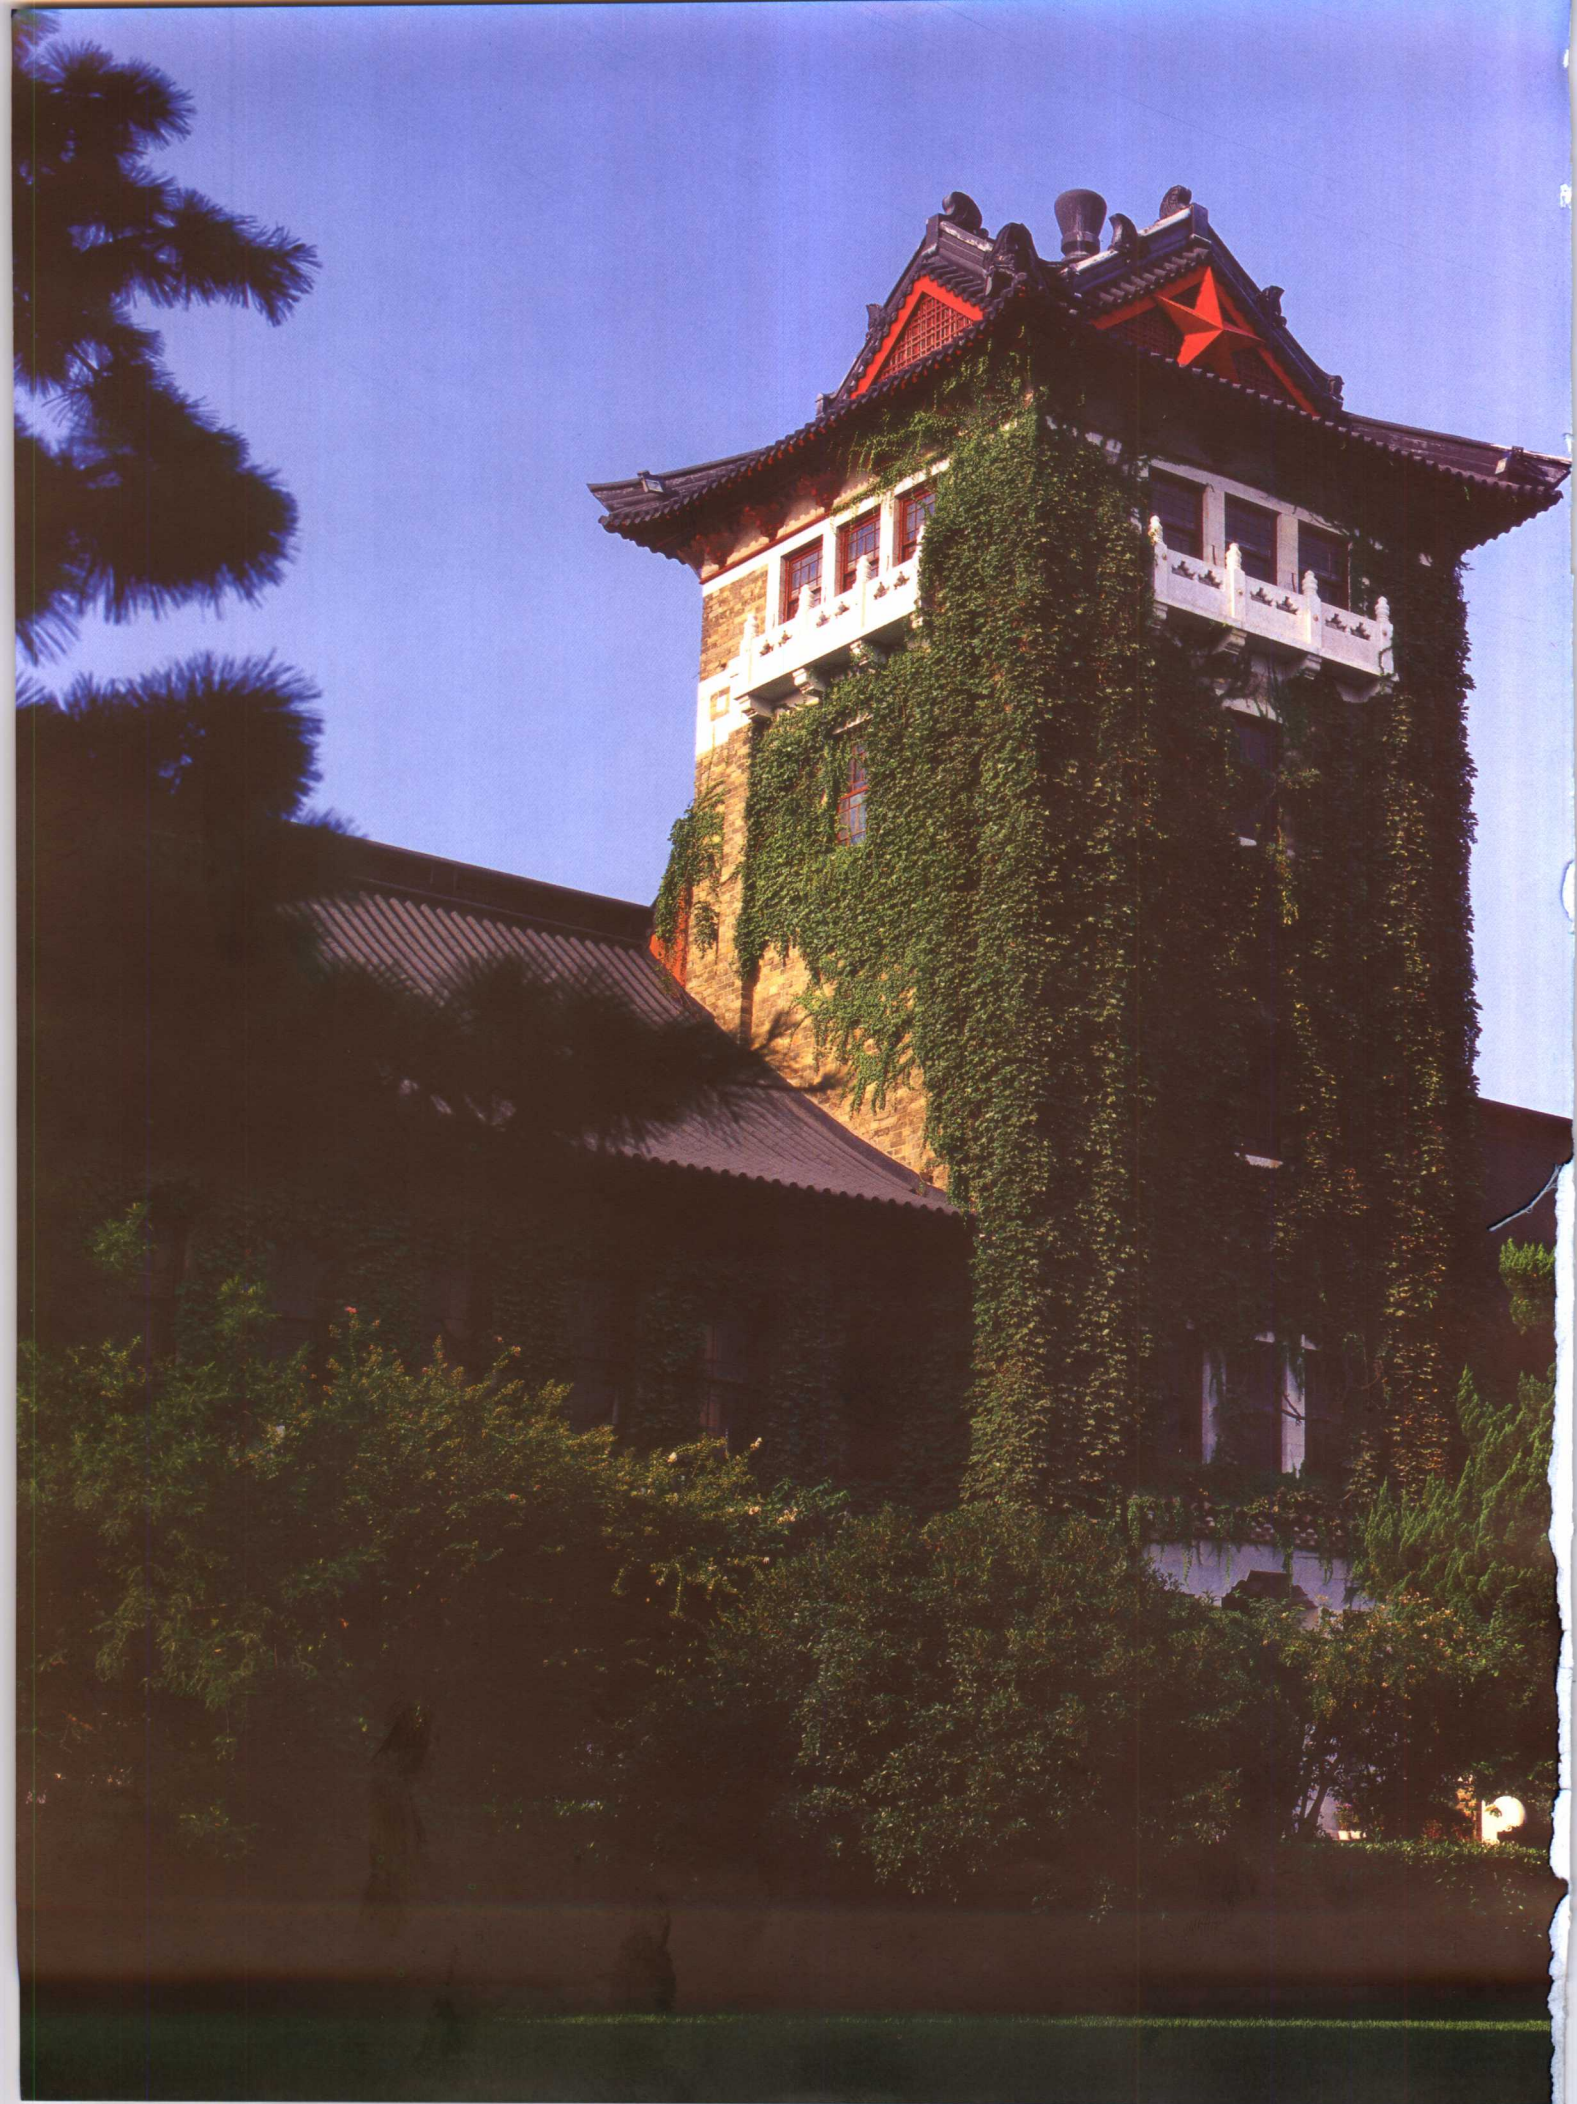

This is Nanjing University. This is the spiritual home cultivated persistently by famous philosophers and sages of several generations. This is a sacred place of culture giving birth to a large number of talented people.

Welcome to Nanjing University, a campus with indescribable profoundness and beauty.

济世乃至高伟业，要行五风十雨于世。
育人是无上丰功，所谓一树百获者人。
Benefiting people as a noble cause requires
arduous efforts while bringing up students as a
great contribution calls for painstaking endeavour.

Students work diligently for greater academic achievements in icy-cold weather
while teachers devote themselves with full commitment to bringing up talents.
