众所周知,历年真题是考研英语最宝贵的复习资料。历年考研学生也特别注重对真题的研究与学习,但是成绩并没有实质性的提高:单词似曾相识但就是想不起来,长难句依然似懂非懂,做错的题目再次做还是错。这是为什么呢?原因很简单,那就是他们并没有真正吃透真题!!! 因此,多年来我始终倡导:要真正搞懂、吃透考研英语历年真题,要想在考研英语中得高分就必须对这些试卷进行"超精读"。所谓超精读,就是超级精细地阅读,就是一字不漏、逐字逐句地精读。要真正做到"超精读",必须做到如下四点:

第一,没有一个核心单词不认识。在真题中背单词,这种效果是最好的,但有一点大家要注意:考研英语并不要求考生有大量的词汇储备,只是要求考生能掌握核心词汇的一词多义,熟词生义和衍生词,而这些都可以通过真题超精读来实现。

第二,没有一个句子是难句。在备考的过程中,考生如果能做到从考研真题中任意挑出一个句子,就能立刻看懂它,并把它翻译成汉语,那么大家的基本功就非常扎实了。

第三,全文翻译。在掌握了词汇和难句之后,考生可以尝试着对真题文章(尤其是阅读理解Part A部分)进行翻译,一方面可以提高自己的翻译能力,另一方面也可以加深对文章的理解。但是很多考生翻译完之后感觉自己的译文不是很通顺,与参考答案很难对得上。这是正常的,因为参考答案都是老师翻译的,并且很多地方是"意译"的,考生只要能将文章大意弄懂,翻译得准确、流畅即可。

第四,透析命题思路,掌握选项规律,弄懂正确选项为什么对,错误选项为什么错。考研英语的选项设置理念就是用一些错误的选项迷惑考生,从而考查考生对文章的理解和推理判断能力。因此,考生要不断地修正自己的做题思路,让自己的思路和命题专家的思路高度一致;不仅要知道正确选项为什么对,而且还要弄懂错误选项为什么错。只有经过认真、系统的准备,才能达到眼中只有正确答案的境界!

因此,在考研英语复习的基础阶段(暑假之前),考生应该仔细研读 1994 到 2004 年这 11 年的真题,这 11 年的真题相对来说比较简单,适合基础阶段使用。在真题中复习核心词汇,复习核心语法及长难句,掌握命题思路与答题技巧。暑假之后再认真专研 2005 到 2015 年的真题。考生只有将真题做到超精读,才能真正领会真题的奥秘!

为了便于大家用超精读的方法复习,结合多年授课经验,我特意编写了《考研英语真题超精读(基础篇)》(1994 到 2004 年真题)和《考研英语真题超精读(提高篇)》(2005 到 2015 年真题),每篇文章均给出了核心词汇详解、长难句精析、英汉互译及思路透析。因排版原因,对试题内容进行了一些调整。这两本书是我多年授课经验精华的总结,与市面上的真题书相比:文章讲解最详细,选项分析最彻底,考点把握最到位。考生只要严格按照科学的方法复习,认真吃透这两本书,英语成绩一定会有质的飞跃!! 由于时间与精力有限,本书疏漏之处在所难免,欢迎大家批评指正。考生可以通过关注我的微博:陈正康老师(新浪微博)及公共微信号:czkkaoyanyingyu 进行英语复习中相关问题的交流与答疑。最后视大家考研成功,金榜题名!!!

Section II Reading Comprehension

Part A

Directions:

Read the following four texts. Answer the questions below each text by choosing [A], [B], [C] or [D]. Mark your answers on **ANSWER SHEET 1**. (40 points)

Text 1

Everybody loves a fat pay rise. Yet pleasure at your own can vanish if you learn that a colleague has been given a bigger one. Indeed, if he has a reputation for slacking, you might even be outraged. Such behaviour is regarded as "all too human," with the underlying assumption that other animals would not be capable of this finely developed sense of grievance. But a study by Sarah Brosnan and Frans de Waal of Emory University in Atlanta, Georgia, which has just been published in *Nature*, suggests that it is all too monkey, as well.

The researchers studied the behaviour of female brown capuchin monkeys. They look cute. They are good-natured, cooperative creatures, and they share their food readily. Above all, like their female human counterparts, they tend to pay much closer attention to the value of "goods and services" than males.

Such characteristics make them perfect candidates for Dr. Brosnan's and Dr. de Waal's study. The researchers spent two years teaching their monkeys to exchange tokens for food. Normally, the monkeys were happy enough to exchange pieces of rock for slices of cucumber. However, when two monkeys were placed in separate but adjoining chambers, so that each could observe what the other was getting in return for its rock, their behaviour became markedly different.

In the world of capuchins grapes are luxury goods (and much preferable to cucumbers). So when one monkey was handed a grape in exchange for her token, the second was reluctant to hand hers over for a mere piece of cucumber. And if one received a grape without having to provide her token in exchange at all, the other either tossed her own token at the researcher or out of the chamber, or refused to accept the slice of cucumber. Indeed, the mere presence of a grape in the other chamber (without an actual monkey to eat it) was enough to induce resentment in a female capuchin.

The researchers suggest that capuchin monkeys, like humans, are guided by social emotions. In the wild, they are a cooperative, group-living species. Such cooperation is likely to be stable only when each animal feels it is not being cheated. Feelings of righteous indignation, it seems, are not the preserve of people alone. Refusing a lesser reward completely makes these feelings abundantly clear to other members of the group. However, whether such a sense of fairness evolved independently in capuchins and humans, or whether it stems from the common ancestor that the species had 35 million years ago, is, as yet, an unanswered question.

21. In the opening paragraph, the author intro	oduces his topic by
[A] posing a contrast	[B] justifying an assumption
[C] making a comparison	[D] explaining a phenomenon
22. The statement "it is all too monkey" (Line	es 5-6, Paragraph 1) implies that
[A] monkeys are also outraged by slack ri	vals
[B] resenting unfairness is also monkeys'	nature
[C] monkeys, like humans, tend to be jea	alous of each other
[D] no animals other than monkeys can de	evelop such emotions

23. Female capuchin monkeys were chosen for the re	
[A] more inclined to weigh what they get	[B] attentive to researchers' instructions
[C] nice in both appearance and temperament	[D] more generous than their male companions
24. Dr. Brosnan and Dr. de Waal have eventually fo

	Text 3						

Of all the components of a good night's sleep, dreams seem to be least within our control. In dreams, a window opens into a world where logic is suspended and dead people speak. A century ago, Freud formulated his revolutionary theory that dreams were the disguised shadows of our unconscious desires and fears; by the late 1970s, neurologists had switched to thinking of them as just "mental noise"—the random byproducts of the neural-repair work that goes on during sleep. Now researchers suspect that dreams are part of the mind's emotional thermostat, regulating moods while the brain is "off-line." And one leading authority says that these intensely powerful mental events can be not only harnessed but actually brought under conscious control, to help us sleep and feel better. "It's your dream," says Rosalind Cartwright, chair of psychology at Chicago's Medical Center. "If you don't like

Evidence from brain imaging supports this view. The brain is as active during REM (rapid eye movement) sleep—when most vivid dreams occur—as it is when fully awake, says Dr. Eric Nofzinger at the University of Pittsburgh. But not all parts of the brain are equally involved; the limbic system (the "emotional brain") is especially active, while the prefrontal cortex (the center of intellect and reasoning) is relatively quiet. "We wake up from dreams happy or depressed, and those feelings can stay with us all day," says Stanford sleep researcher Dr. William Dement.

it, change it."

The link between dreams and emotions shows up among the patients in Cartwright's clinic. Most people seem to have more bad dreams early in the night, progressing toward happier ones before awakening, suggesting that they are working through negative feelings generated during the day. Because our conscious mind is occupied with daily life we don't always think about the emotional significance of the day's events—until, it appears, we begin to dream.

And this process need not be left to the unconscious. Cartwright believes one can exercise conscious control over recurring bad dreams. As soon as you awaken, identify what is upsetting about the dream. Visualize how you would like it to end instead; the next time it occurs, try to wake up just enough to control its course. With much practice people can learn to, literally, do it in their sleep.

At the end of the day, there's probably little reason to pay attention to our dreams at all unless they keep us from sleeping or "we wake up in a panic," Cartwright says. Terrorism, economic uncertainties and general feelings of insecurity have increased people's anxiety. Those suffering from persistent nightmares should seek help from a therapist. For the rest of us, the brain has its ways of working through bad feelings. Sleep—or rather dream—on it and you'll feel better in the morning.

**
[B] are susceptible to emotional changes
[D] are a random outcome of neural repairs

32. By referring to the limbic system, the author into	ends to show .
[A] its function in our dreams	B the mechanism of REM sleep
[C] the relation of dreams to emotions	[D] its difference from the prefrontal cortex
33. The negative feelings generated during the day to	
[A] aggravate in our unconscious mind	[B] develop into happy dreams
[C] persist till the time we fall asleep	[D] show up in dreams early at night
34. Cartwright seems to suggest that	
[A] waking up in time is essential to the ridding	of bad dreams
[B] visualizing bad dreams helps bring them under	
[C] dreams should be left to their natural progre	ssion
[D] dreaming may not entirely belong to the unc	onscious
35. What advice might Cartwright give to those who	
[A] Lead your life as usual.	[B] Seek professional help.
[C] Exercise conscious control.	[D] Avoid anxiety in the daytime.

Part B		
Directions:		
In the following text, some sentences have been rer	noved. For Ouestions (4	1)—(45), choose the most
suitable one from the list [A]—[G] to fit into each of		
which do not fit in any of the gaps. Mark your answ		
Canada's premiers (the leaders of provincial	governments), if they J	have any breath left after
complaining about Ottawa at their late July annual	meeting, might spare a	moment to do something,
together, to reduce health-care costs.		
77 7 11 4 1 4 1 4 1 1 1	4 4 6 4 4 7	

They're all groaning about soaring health budgets, the fastest-growing component of which are pharmaceutical costs.

(41)

(42)

What to do? Both the Romanow commission and the Kirby committee on health care—to say nothing of reports from other experts—recommended the creation of a national drug agency. Instead of each province having its own list of approved drugs, bureaucracy, procedures and limited bargaining power, all would pool resources, work with Ottawa, and create a national institution.

But "national" doesn't have to mean that. "National" could mean interprovincial-provinces combining efforts to create one body.

Either way, one benefit of a "national" organization would be to negotiate better prices, if possible, with drug manufacturers. Instead of having one province—or a series of hospitals within a province-negotiate a price for a given drug on the provincial list, the national agency would negotiate on behalf of all provinces.

Rather than, say, Quebec, negotiating on behalf of seven million people, the national agency would negotiate on behalf of 31 million people. Basic economics suggests the greater the potential consumers, the higher the likelihood of a better price.

(43)

A small step has been taken in the direction of a national agency with the creation of the Canadian Co-ordinating Office for Health Technology Assessment, funded by Ottawa and the provinces. Under it, a Common Drug Review recommends to provincial lists which new drugs should be included. Predictably, and regrettably, Quebec refused to join.

A few premiers are, suspicious of any federal-provincial deal-making. They (particularly Quebec

Premiers love to quote Mr. Romanow's report selectively, especially the parts about more federal money. Perhaps they should read what he had to say about drugs. "A national drug agency would provide governments more influence on pharmaceutical companies in order to try to constrain the ever-increasing cost of drugs."

So when the premiers gather in Niagara Falls to assemble their usual complaint list, they should also get cracking about something in their jurisdiction that would help their budgets and patients.

- [A] Quebec's resistance to a national agency is provincialist ideology. One of the first advocates for a national list was a researcher at Laval University. Quebec's Drug Insurance Fund has seen its costs skyrocket with annual increases from 14.3 per cent to 26.8 per cent!
- [B] Or they could read Mr. Kirby's report: "The substantial buying power of such an agency would strengthen the public prescription-drug insurance plans to negotiate the lowest possible purchase prices from drug companies."
- [C] What does "national" mean? Roy Romanow and Senator Michael Kirby recommended a federal-provincial body much like the recently created National Health Council.
- [D] The problem is simple and stark: health-care costs have been, are, and will continue to increase faster than government revenues.
- [E] According to the Canadian Institute for Health Information, prescription drug costs have risen since 1997 at twice the rate of overall health-care spending. Part of the increase comes from drugs being used to replace other kinds of treatments. Part of it arises from new drugs costing more than older kinds. Part of it is higher prices.
- [F] So, if the provinces want to run the health-care show, they should prove they can run it, starting with an interprovincial health list that would end duplication, save administrative costs, prevent one province from being played off against another, and bargain for better drug prices.
- [G] Of course, the pharmaceutical companies will scream. They like divided buyers, they can lobby better that way. They can use the threat of removing jobs from one province to another. They can hope that, if one province includes a drug on its list, the pressure will cause others to include it on theirs. They wouldn't like a national agency, but self-interest would lead them to deal with it.

Part C

Directions:

Read the following text carefully and then translate the underlined segments into Chinese. Your translation should be written clearly on ANSWER SHEET 2. (10 points)

It is not easy to talk about the role of the mass media in this overwhelmingly significant phase in European history. History and news become confused, and one's impressions tend to be a mixture of skepticism and optimism. (46) Television is one of the means by which these feelings are created and conveyed—and perhaps never before has it served so much to connect different peoples and nations as in the recent events in Europe. The Europe that is now forming cannot be anything other than its peoples, their cultures and national identities. With this in mind we can begin to analyze the European television scene. (47) In Europe, as elsewhere, multi-media groups have been increasingly successful; groups which bring together television, radio, newspapers, magazines and publishing houses that work in relation to one another. One Italian example would be the Berlusconi group, while abroad Maxwell and Murdoch come to mind.

Clearly, only the biggest and most flexible television companies are going to be able to compete in

such a rich and hotly-contested market. (48) This alone demonstrates that the television business is not an easy world to survive in, a fact underlined by statistics that show that out of eighty European television networks, no less than 50% took a loss in 1989.

Moreover, the integration of the European community will oblige television companies to cooperate more closely in terms of both production and distribution.

(49) Creating a "European identity" that respects the different cultures and traditions which go to make up the connecting fabric of the Old Continent is no easy task and demands a strategic choice—that of producing programs in Europe for Europe. This entails reducing our dependence on the North American market whose programs relate to experiences and cultural traditions which are different from our own.

In order to achieve these objectives, we must concentrate more on co-productions, the exchange of news, documentary services and training. This also involves the agreements between European countries for the creation of a European bank for Television Production which, on the model of the European Investments Bank, will handle the finances necessary for production costs. (50) In dealing with a challenge on such a scale, it is no exaggeration to say, "United we stand, divided we fall"—and if I had to choose a slogan it would be "Unity in our diversity." A unity of objectives that nonetheless respect the varied peculiarities of each country.

Section III Writing

Part A

51. Directions:

Two months ago you got a job as an editor for the magazine *Designs & Fashions*. But now you find that the work is not what you expected. You decide to quit. Write a letter to your boss, Mr. Wang, telling him your decision, stating your reason(s), and making an apology.

Write your letter with no less than 100 words. Write it neatly on ANSWER SHEET 2.

Do not sign your own name at the end of the letter; use "Li Ming" instead.

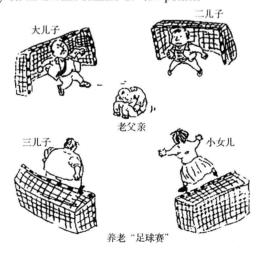

You do not need to write the address. (10 points)

Part B

52. Directions:

Write an essay of 160—200 words based on the following drawing. In your essay, you should first describe the drawing, then interpret its meaning, and give your comment on it.

You should write neatly on ANSWER SHEET 2. (20 points)

2005年真题第8页(共9页)

Part C

- 46. 电视是引起和传递这些感受的方式之——在联系不同的民族和国家方面,它从未像在最近欧洲发生的事务中那样,发挥过如此大的作用。
- 47. 像在其他地方一样,多媒体集团在欧洲越来越成功了:这些集团将关系密切的电视、广播、报纸、杂志和出版社整合到了一起。
- 48. 单这一点就足以证明,要在电视行业里存活绝非易事,统计数字表明了这一事实,在 80 家欧洲电视网中,多达一半在 1989 年亏损。
- 49. 不同的文化和传统构成了连接欧洲大陆的纽带,要创造出一种尊重这些不同文化和传统的"欧洲 认同感"并非易事,需要做出一种战略性的选择。
 - 50. 在应对如此规模的挑战时,我们可以毫不夸张地说,"联合,我们就胜利;分裂,我们就失败"。

Section II Reading Comprehension

Part A

Directions:

Read the following four texts. Answer the questions below each text by choosing [A], [B], [C] or [D]. Mark your answers on **ANSWER SHEET 1**. (40 points)

Text 1

In spite of "endless talk of difference," American society is an amazing machine for homogenizing people. There is "the democratizing uniformity of dress and discourse, and the casualness and absence of deference" characteristic of popular culture. People are absorbed into "a culture of consumption" launched by the 19th-century department stores that offered "vast arrays of goods in an elegant atmosphere. Instead of intimate shops catering to a knowledgeable elite," these were stores "anyone could enter, regardless of class or background. This turned shopping into a public and democratic act." The mass media, advertising and sports are other forces for homogenization.

Immigrants are quickly fitting into this common culture, which may not be altogether elevating but is hardly poisonous. Writing for the National Immigration Forum, Gregory Rodriguez reports that today's immigration is neither at unprecedented levels nor resistant to assimilation. In 1998 immigrants were 9.8 percent of population; in 1900, 13.6 percent. In the 10 years prior to 1990, 3.1 immigrants arrived for every 1,000 residents; in the 10 years prior to 1890, 9.2 for every 1,000. Now, consider three indices of assimilation—language, home ownership and intermarriage.

The 1990 Census revealed that "a majority of immigrants from each of the fifteen most common countries of origin spoke English 'well' or 'very well' after ten years of residence." The children of immigrants tend to be bilingual and proficient in English. "By the third generation, the original language is lost in the majority of immigrant families." Hence the description of America as a "graveyard" for languages. By 1996 foreign-born immigrants who had arrived before 1970 had a home ownership rate of 75.6 percent, higher than the 69.8 percent rate among native-born Americans.

Foreign-born Asians and Hispanics "have higher rates of intermarriage than do U.S.-born whites and blacks." By the third generation, one third of Hispanic women are married to non-Hispanics, and 41 percent of Asian-American women are married to non-Asians.

Rodriguez notes that children in remote villages around the world are fans of superstars like Arnold Schwarzenegger and Garth Brooks, yet "some Americans fear that immigrants living within the United States remain somehow immune to the nation's assimilative power."

Are there divisive issues and pockets of seething anger in America? Indeed. It is big enough to have a bit of everything. But particularly when viewed against America's turbulent past, today's social indices hardly suggest a dark and deteriorating social environment.

21. The word "homogenizing" (Line 1, Paragraph 1	1) most probably means
[A] identifying [B] associating	[C] assimilating [D] monopolizing
22. According to the author, the department stores	of the 19th century
[A] played a role in the spread of popular culture	[B] became intimate shops for common consumers
[C] satisfied the needs of a knowledgeable elite	[D] owed its emergence to the culture of consumption
23. The text suggests that immigrants now in the U.	S
[A] are resistant to homogenization	[B] exert a great influence on American culture
$\lceil C \rceil$ are hardly a threat to the common culture	[D] constitute the majority of the population
24. Why are Arnold Schwarzenegger and Garth Bro	oks mentioned in Paragraph 5?
[A] To prove their popularity around the world	

[B] To reveal the public's fear of immigrants.
[C] To give examples of successful immigrants.
[D] To show the powerful influence of American culture.
25. In the author's opinion, the absorption of immigrants into American society is
[A] rewarding [B] successful [C] fruitless [D] harmful
Text 2
Stratford-on-Avon, as we all know, has only one industry—William Shakespeare—but there are two distinctly separate and increasingly hostile branches. There is the Royal Shakespeare Company (RSC), which presents superb productions of the plays at the Shakespeare Memorial Theatre on the Avon. And there are the townsfolk who largely live off the tourists who come, not to see the plays, but to look at Anne Hathaway's Cottage, Shakespeare's birthplace and the other sights. The worthy residents of Stratford doubt that the theatre adds a penny to their revenue. They frankly dislike the RSC's actors, them with their long hair and beards and sandals and noisiness. It's all deliciously ironic when you consider that Shakespeare, who earns their living, was himself an actor (with a beard) and did his share of noise-making. The tourist streams are not entirely separate. The sightseers who come by bus—and often take in Warwick Castle and Blenheim Palace on the side—don't usually see the plays, and some of them are even surprised to find a theatre in Stratford. However, the playgoers do manage a little sight-seeing along with their playgoing. It is the playgoers, the RSC contends, who bring in much of the town's revenue because they spend the night (some of them four or five nights) pouring cash into the hotels and restaurants. The sightseers can take in everything and get out of town by nightfall. The townsfolk don't see it this way and local council does not contribute directly to the subsidy of the Royal Shakespeare Company. Stratford cries poor traditionally. Nevertheless every hotel in town seems to be adding a new wing or cocktail lounge. Hilton is building its own hotel there, which you may be sure will be decorated with Hamlet Hamburger Bars, the Lear Lounge, the Banquo Banqueting Room, and so forth, and will be very expensive. Anyway, the townsfolk can't understand why the Royal Shakespeare Company needs a subsidy. (The theatre has broken attendance records for three years in a row. Last year its 1,431 seats were
10:30 a.m.
26. From the first two paragraphs, we learn that
[A] the townsfolk deny the RSC's contribution to the town's revenue
B the actors of the RSC imitate Shakespeare on and off stage
[C] the two branches of the RSC are not on good terms
[D] the townsfolk earn little from tourism
27. It can be inferred from Paragraph 3 that
[A] the sightseers cannot visit the Castle and the Palace separately
[B] the playgoers spend more money than the sightseers

[C] the sightseers do more shopping than the playgoers

[D] the playgoers go to no other places in town than the theater
