Aim to change the idea of traditional living space, designers make it through the use of simple color, materials, space planning and other elements. It lets the owner to create a flexible and spacious home according to different circumstances.

Using simple white base, with different grey for contrasting effect, decorated with yellow, it not only increases the unit with a sense of space level, but also becomes more harmony.

In order to enhance the unit's existing high ceiling, designers use a huge size of charcoal grey carved wall panel, an eye-catching decorative lamps, simple cut bookcase together with a set of classic sofa unit. With all these elements, it thus forms a spacious and diversified living space.

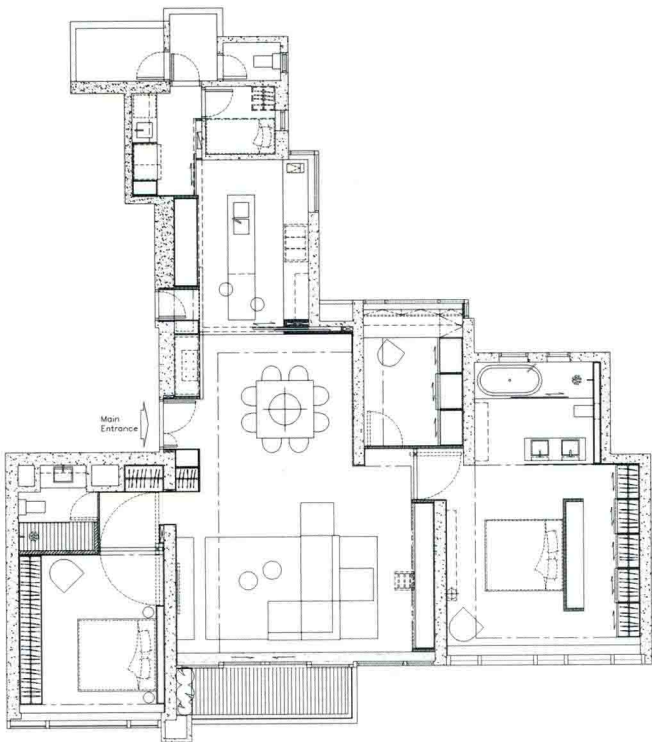

In addition, designers, by using oversize sliding doors and revolving doors, just simply change its opening direction, you can then create a space with a layered, flexible multifunctional unique residence. ●

为了改变传统单位模式，设计师透过简单色系、物料及空间规划等元素，令户主可按不同情况，灵活改动空间成理想居所。

运用白色为主色调，配合各灰色系列作柔和对比，再利用深黄色作空间点缀，令单位变得更简洁柔和。

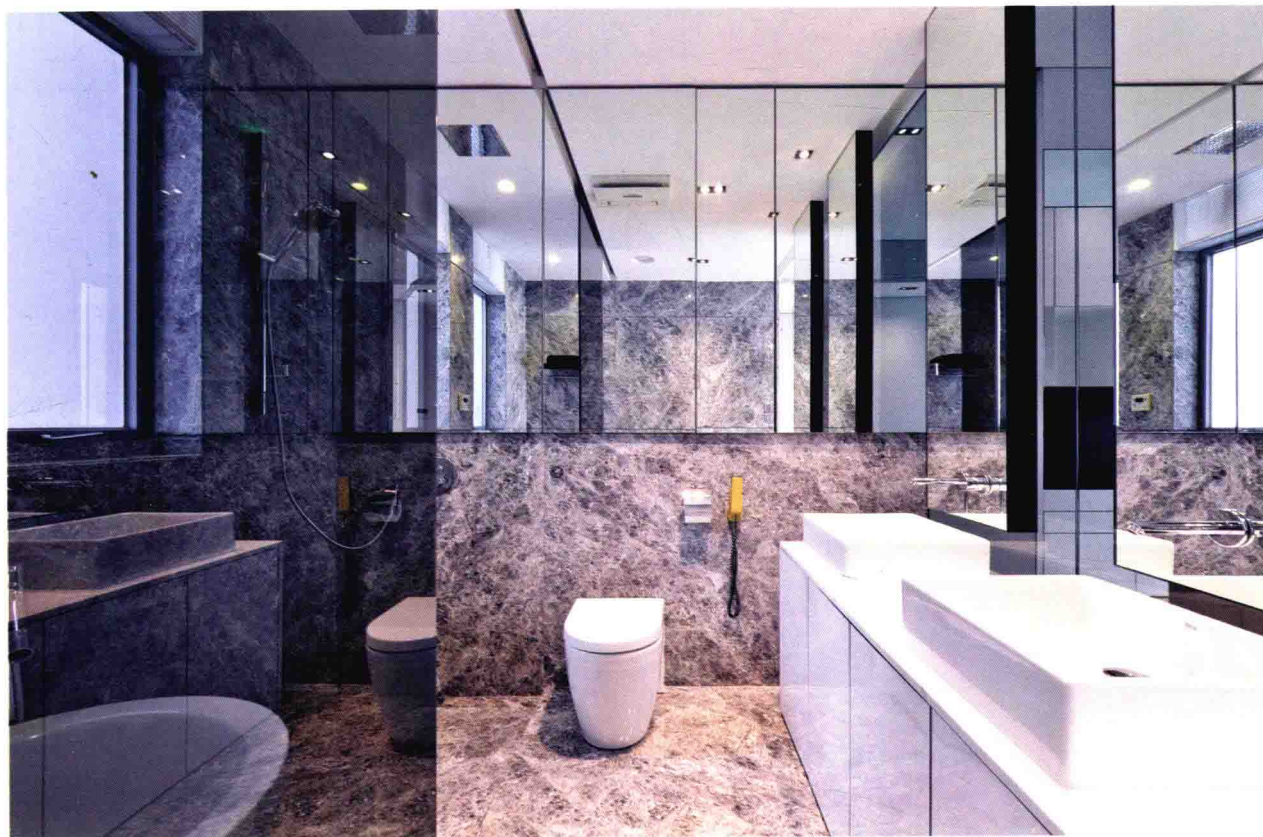

大小不一之饰灯、简单夹角造型书柜等元素，配合特色造型家具，加强单位空间层次。

透过利用大型趟门及掩门，令户主简单营造一个多元化空间。

A young, metal accessory manufacturer invited us to renovate his new 3-storey house which could fit Chinese Fengshui principles. The design challenge is on how to investigate new possibilities from Fengshui ideas into a bold & stylish house design.

除了门的朝向和家具摆放的相关问题外，本案的室内不能出现任何木质家具，但却可以大量使用金属制品。由于白色代表金属，设计师运用白色的背景来与原始

Space is further characterized by dark metal portal features and stairs balustrade. There are other notable details, such as round corner glazing wall at master bedroom; 8 heads pendent lamps with mirrors strips at dining and 8-pointed star copper plate inlaid at carport. 空间中入口和楼梯栏杆运用了暗色金属制品。本案中还有其他一些值得注意的细节，例如主卧的圆角釉面墙、用餐空间的八头吊灯、车库中嵌入的八角星铜板。经过设计师精心的设计，最终创造出一间独特的金属风水住宅。
