[同济大学北楼简介]

北楼建于 1953 年，平面呈一字形，高四层，与南楼对称布置在校园主轴线两侧，与图书馆一同围合出一片庄重而祥和的空间。建筑立面细节精美。南北楼见证了同济大学半个多世纪的历史，是一组凝结了同济人许多记忆的经典建筑。2005 年，南北楼被列入上海市第四批优秀历史建筑保护名单。

The four-story North Building was built in 1953. With the South Building in opposite, these two buildings are standing on both sides of the library symmetrically. It is of great aesthetic value because of its delicate structure and consummate particulars.
