学校简介 | BRIEF INTRODUCTION

河南理工大学始建于1909年，是我国建立最早的矿业高等学府和河南省废除科举制度后第一所高等学校。在一个世纪的办学历程中，曾10次迁址，辗转4省，9易其名，历经焦作路矿学堂、福中矿务大学、私立焦作工学院、西北工学院、国立焦作工学院、焦作矿业学院等重要历史时期，1995年恢复焦作工学校名，2004年更名为河南理工大学。

20世纪上半叶，著名教育家蔡元培、地质学家翁文灏、工矿泰斗孙越崎和张仲鲁、张清涟、丁观海、张伯声、邓曰谟、李钟美等众多留美学者先后出任学校领导职务或教授，引领学校承担起培养工矿高级技术人才的历史责任，为民族工业振兴、国家经济发展和社会文明进步作出了特殊贡献。历经时艰形成的“自强不息、奋发向上”传统精神和“明德任责”校训、“好学力行”校

Founded in 1909, HPU was the first mining college in China and the first higher education institution in Henan Province. Over the past century, it moved to ten different locations in four provinces and was known by nine different names: Jiaozuo Lukuang College, Fuzhong Mining University, Jiaozuo Private Institute of Technology, Northwest Institute of Technology, Jiaozuo State Institute of Technology, and Jiaozuo Mining College. It resumed using the name of Jiaozuo Institute of Technology in 1995 and took the name of Henan Polytechnic University (HPU) in 2004.

In the early 1900s, famous overseas scholars, such as Mr. Cai Yuanpei, Mr. Weng Wenhao, Mr. Sun Yueqi, Mr. Zhang Zhonglu, Mr. Zhang Qinglian, Mr. Ding Guanhai, Mr. Zhang Bosheng, Mr. Deng Yuemo, and Mr. Li Zhongmei returned from America and took important posts or worked as professors at the university. They led the university to take on the historic mission of cultivating senior technicians for industries, and made contributions to the rejuvenation of national industry, economic development and social civilization. The traditional spirit of “Striving continuously upward”, the motto of “Improving morality and shouldering responsibility”, and the ethos of “Eager learning and diligent work” have been formed throughout the university’s history and passed on from generation to generation.

风更是生生不息、代代相传。

新中国成立后，学校坚持服务煤炭工业的办学方向，为中南五省以及华北、西北地区煤炭工业发展输送大批高级专门人才，成为煤炭工业重要的人才培养基地，赢得“关内看焦作”之美誉。改革开放以后，学校在强化为地矿服务的同时，着力扩宽学科专业领域，发展研究生教育，实现由行业院校向通用工科院校的根本性转变。特别是进入新世纪以来，学校牢牢把握高等教育大发展的历史机遇，紧紧围绕建设高水平教学研究型大学的目标，锐意改革，开拓进取，学校各项事业实现跨越式发展。现在学校已成为拥有博士学位授予权、七大学科门类和40000名在校生规模的河南省重点建设的骨干高校，学校办学层次、水平、实力和知名度、影响力显著提升，已步入多科性教学研究型大学行列。

百年理工，世纪风华。站在新的历史起点的河南理工大学，正以党的十七大精神为指导，深入贯彻“坚持科学发展观，全面提升内涵，加快学校发展”战略思想，进一步深化改革，强化特色，谱写无愧于民族的时代华章！

After the founding of the People's Republic of China, the university insisted on serving the coal industry and cultivated many talented graduates for the coal industry in the five mid-south provinces, the northwest, and the northern areas of China. Accordingly, it became an important training base for the coal industry and won a reputation as an important institution. After the reform and opening-up, the university not only emphasized the coal industry, but also expanded to other disciplines, and began offering postgraduate education. This move reified the transformation from a single-disciplinary university to a multi-disciplinary one. In particular, since the entrance into the new era, the university has taken advantage of opportunities to realize a developmental leap centering on the target of building the university into a high-level teaching research one. So far, the university has been authorized to grant the doctoral degree. There are 40,000 students in seven disciplines at the university. With the university's strength, level, and fame enhanced, HPU has become a top provincial university.

Having developed, adapted, and persevered for a century, HPU stands at the threshold to a new beginning. As it enters its new era, the university will be guided by the spirits of 17th NCCPC and by its deep commitment to carry out the strategic motto, "Stick to the scientific development concept, enhance the intrinsic qualities, and foster development". Through the university's attention to deepening reform and to highlighting its defining characteristics, HPU will definitely continue to create new brilliance!
