HENAN AGRICULTURAL UNIVERSITY (HAU)

Through twists and turns, with hardships and resplendence, Henan Agricultural University has come along over a hundred years' remarkable journey, from Henan Grand Academy founded in 1902 as its origin, to Henan Academy for Higher Learning, Henan Institute for Higher Learning, Henan Public Agricultural Specialized School, Agronomy Department of the 5th National Sun Yet-sen University and Agronomy College of Henan University. It was granted university status and was named Henan Agronomy College when the colleges were rearranged nationally in 1952, and was renamed Henan Agricultural University in December 1984. HAU has become the first provincial agricultural university under the province-ministry co-construction in December 2009.

HAU now is a comprehensive university with 10 branches of learning: agronomy, engineering, sciences, economics, management, law, humanities, medicine, education and arts. The academic work of HAU is organized into 20 colleges. At present, HAU has 1 national key discipline of first-class, 2 national key disciplines of second-class, 9 key provincial and ministerial disciplines of first-class, 34 key provincial and ministerial disciplines of second-class, and there are 5 first-class disciplines authorized to confer Doctoral Degree, 29 specialties for Doctoral candidates, 6 post-doctoral research centres, 18 first-class disciplines authorized to confer Master's Degree, 80 specialties for Master candidates, and 84 specialties for undergraduates.

The University owns 29 national or provincial research centres, key laboratories and bases such as National Engineering Research Centre for Wheat, National Key Laboratory and Cultivation Centre of Crop Eco-Physiology and Genetic Innovation, co-constructed by Ministry of Agriculture and Henan Province, Zhengzhou Sub-center of National Maize Improvement, Key Laboratory of Crop Growth and Development Control affiliated to Ministry of Agriculture, Key Laboratory of Animal Growth and Development Control affiliated to Ministry of Agriculture, Huang-Huai-Hai Regional Innovation Centre for Maize Technology affiliated to Ministry of Agriculture, and National Tobacco Cultivation & Physiology & Biochemistry Research Centre, etc.

Henan Agricultural University has a dedicated faculty of 1837 full-time members, including 14 academicians, 580 professors and associate professors, and 400 doctorate degree holders. Of this number, 2 experts are Central Plain Scholars, 5 experts have been selected into the country's Hundred Thousand-Ten Thousand-Talents Project, 1 awarded the 100 Outstanding Talents of Henan Province, 1 awarded the Outstanding Agricultural Talents at national level, 3 middle-aged and young experts awarded for having made prominent contributions to the country, 10 scientists work for Modern Agricultural and Industrial Technology System of the Ministry of Agriculture, 2 are National-level Elite University Teachers, 38 scholars enjoys special allowance from the State Council, and 29 are Endowed Chair Professors of Henan Province.

HAU now has nearly 30,000 full-time students on three campuses, namely Wenhua Road Campus, Longzi Lake Campus and Xuchang Campus, the total area of which is 334 hectares.

Today, with the needs of local and national economic and community development rising continuously, the central aim of HAU has remained the same: striving to be one of the leading agricultural universities in China. HAU seeks to run the university openly to the world, holding the Scientific Outlook on Development, with development as its leading principle, reform as its drive, and discipline development as its primary task; while at the same time optimizing its administration framework, fulfilling its potential, making full use of its advantages and maintaining its distinctive features. It is committed to become a multi-disciplinary university, with life science as its pioneering discipline, agricultural science as its dominant, while teaching and research continue to be its primary purpose. It strives to become a centre for nurturing outstanding talents in modern agriculture, a base for innovation of modern agricultural science, a base for modern high and new agricultural technology, and a research centre for agricultural development strategy.
