# Restauran

## Restaurant

### 餐厅

In general, the restaurant of a hotel should not be too big. The number of the VIP rooms should be increased and the quality should be improved. The restaurant and the VIP rooms should be designed with independent entrances, and the service access should be separated from the guests' access.

The color and lighting effect have become more and more important in restaurant design because colors can enhance the details, beautify and extend the spaces, and touch people's heart. Colors with different symbolic meanings will interact with different emotions and imaginations. In a case, the color design not only appears in the decoration but also shows in the furniture, ornaments, utensils, the brightness of the paint, and the texture of the materials. The design of the restaurant will even take the color collocation of the dishes into consideration. The well-designed color collocation will make the dishes look more delicious.

一般而言，酒店餐厅不宜过大，酒店应增加贵宾包房的数量，并提高其质量。酒店餐厅与酒店贵宾包房应分设入口，同时，服务流线避免与客人通道交叉。

餐厅设计中色彩和光环境的设计也越来越受到重视，因为色彩可以强化完美的细节，可以渲染和延伸空间，还可以触动不同人群各自特定的心理共鸣，并以其不同的象征在人的不同感受与想象中互动。在一个具体的案子中，色彩的终极表现不仅仅在于装修的色彩，更包括了家具、饰物、器皿等内容色彩上的整体考量，以及油漆亮度、材料质感的表现力。在餐厅的设计中，甚至还要考虑菜品的色彩搭配，考虑成菜后，在整体色彩的簇拥之中，菜品的个性张扬。
