The decoration and furnishing of the guest room is based on the target guest, the market, the grade of the hotel and the operational characteristics. All should be flexible to benefit the business and adapt to the market changes. Most of the hotels focus on 1~2 room types to cater to more people. Luxury hotel usually features varied room types and complete facilities. All the guestrooms will be designed with living room and bedroom with the atmosphere of a family for business talks.

The suites are very important to show the grade of a hotel. The furnishings and facilities of the suites are better than the general guest rooms. In the one-star or two-star hotels, there are few suites; the number will increase in the three-star and four-star hotels. The five-star luxury hotels will have more suites. There are usually 2~19 suites, and in the five-star hotel there will be more than 6 presidential suites.

客房的类型配置根据市场分析、酒店等级、经营特点与对象等，以对经营有利为原则配置；具有灵活性，以适度的灵活性适应市场可能发生的变化。一般酒店常以1~2种类型为主，扩大接待对象。豪华的城市酒店则又以客房类型众多、规格齐全为特色。凡客房单元均配起居室和卧室，富有家庭气息，利于接洽商务。

套房客房单元是显示酒店等级的重要方面，套房的陈设、设备水平高于一般客房。一、二星级酒店中可以不设或很少，三、四星级酒店中套房增多，五星级豪华酒店的套房比例更高。套房间数自二套至十几套之间，五星级酒店总统套房常在六间以上。
