

## 提供設計材料 多 加速工作效率

Give You Designing Material! Save You Much Time!

## 實用美術質用剪貼集

現代生活節奏越來越快,從事美術設計工作也不例外。 特別是印刷品原稿的製作,採用傳統方法打格子設計圖案, 無論從成本上或時間上來考慮,都是很不化算的。

有見於此,我們決定有系統地搜集資料,爲實用美術工作者提供一系列常用設計材料;並採用特別的編排、印刷方法,使收集在書中的材料,可以直接剪下來,貼在印刷原稿上,供製版使用。

無論從事廣告設計、報刊書籍的版面設計,以及商品裝潢設計,這套美術資料剪貼集,都是不可缺少的材料。

## A Collection of Practical Material for Artistic Design

Modern life is very intense. It demands us to speed up our work. It is the same without exception for art designers in their work. Today, if they design the master copy for printing still on the checked paper, it would cost too much time and not be economical.

To meet the requirements of art designers, we have systematically collected many data and compiled a series of art books for designing use. The material in these books are arranged and printed in a special way that the designer may cut the pattern he wants directly from the books and then stick them onto the manuscript for plate making.

No matter what kind of designing work you are doing — the poster designing, the layout designing, or the product pack designing — these books are helpful to you.
