内 容 简 介

山东是我国地台区寒武纪地层和寒武系第三统、芙蓉统建阶层型剖面所在地区，寒武纪三叶虫十分繁盛，在世界寒武纪三叶虫动物群中占有相当重要的位置。本书详细记载山东寒武系张夏组长清县张夏虎头山至黄草顶等6条地层剖面，系统描述三叶虫5目、41科、152属（亚属）、371种、60未定种，其中有16新属、7新亚属、120新种。长期以来，张夏组（岩石地层单位）与张夏阶（年代地层单位）等同使用，造成很大的混乱。作者经多年的野外考察，证实张夏组的顶底界线在不同的剖面都不一致，张夏组是一个穿时的岩石地层单位，可分为11个三叶虫化石带。按国际地层指南原则，作者新建了寒武系第三统长清阶和济南阶，废弃以往的张夏阶和崮山阶。根据张夏组三叶虫属种地质时限和地理分布，将张夏组与国内外同期地层进行了精确的对比，讨论了寒武纪三叶虫的第三次灭绝与复苏，对寒武纪三叶虫头、尾、活动瓣和唇瓣的正确搭配进行了探索性研究。此外，作者还对长眉虫科、沟肋虫科、壮头虫科三叶虫属于属之间的演化关系进行了探讨。山东张夏组三叶虫动物群的研究，对于正确认识地台区寒武纪地层、三叶虫动物群的性质和古生物地理分区具有重要意义。本书共附图版241幅，插图2幅，表5张。

本书可供生产、科研和教学单位的地质、地层古生物工作者以及三叶虫收藏爱好者参考。

目 录

一、绪言	1
二、张夏组地层	5
三、张夏组三叶虫属种的地层分布和分带	17
四、张夏组与国内外其他地区地层对比	32
五、寒武纪三叶虫的第三次灭绝和复苏	45
六、寒武纪三叶虫头盖、活动颊和尾部正确搭配的研究	50
七、长眉虫科、沟肋虫科、壮头虫科三叶虫属的系统演化	54
八、系统古生物描述	57
三叶虫纲 Trilobita Walch, 1771	57
球接子目 Agnostida Salter, 1864	57
球接子科 Agnostidae M'Coy, 1849	57
砂瘤球接子属 <i>Ammagnostus</i> Öpik, 1967	57
褶纹球接子科 Ptychagnostidae Kobayashi, 1939a	61
褶纹球接子属 <i>Ptychagnostus</i> Jaekel, 1909	61
尖球接子亚属 <i>Ptychagnostus (Acidus)</i> Öpik, 1979	62
五角球接子属 <i>Pentagnostus</i> Lermontova in Vologdin et al., 1940	63
切割球接子属 <i>Tomagnostus</i> Howell, 1935c	64
拟切割球接子亚属(新亚属) <i>Tomagnostus (Paratomagnostus)</i> subgen. nov.	65
胸针球接子科 Peronopsidae Westergård, 1936	66
胸针球接子属 <i>Peronopsis</i> Hawle et Corda, 1847	66
真球接子属 <i>Euagnostus</i> Whitehouse, 1936	72
小球接子属 <i>Micagnostus</i> Hajrullina in Repina et al., 1975	74
古球接子属 <i>Archaeagnostus</i> Kobayashi, 1939a	75
喜球接子属 <i>Gratagnostus</i> Hajrullina in Repina et al., 1975	76
刺球接子科 Spinagnostidae Howell, 1935a	76
假胸针球接子属 <i>Pseudoperonopsis</i> Harrington, 1938	76
珍奇球接子属 <i>Raragnostus</i> Hajrullina in Repina et al., 1975	79
小切割球接子属 <i>Tomagnostella</i> Kobayashi, 1939a	81
隐球接子属 <i>Hypagnostus</i> Jaekel, 1909	83
双分球接子科 Diplagnostidae Whitehouse, 1936	87
扩尾轴球接子属 <i>Iniospheniscus</i> Öpik, 1979	87
带状球接子属 <i>Baltagnostus</i> Lochman in Lochman et Duncan, 1944	88
棒球接子科 Clavagnostidae Howell, 1937	89
犹他球接子属 <i>Utagnostus</i> Robison, 1964	89
耸棒头虫目 Corynexochida Kobayashi, 1935	91
耸棒头虫亚目 Corynexochina Kobayashi, 1935	91

叉尾虫科 Dorypygidae Kobayashi, 1935	91
拟油栉虫属 <i>Olenoides</i> Meek, 1877	91
叉尾虫属 <i>Dorypyge</i> Dames, 1883	92
长眉虫科 Dolichometopidae Walcott, 1916	103
双耳虫属 <i>Amphoton</i> Lorenz, 1906	103
小双耳虫属 <i>Amphonella</i> Kobayashi, 1942a	107
圆边壳虫属 <i>Itydeois</i> Öpik, 1982	110
复州虫属 <i>Fuchouia</i> Resser et Endo in Kobayashi, 1935	111
掘冠虫科 Oryctocaridae Hupé, 1953a	114
小东京虫属 <i>Tonkinella</i> Mansuy, 1916	114
耸棒头虫科 Corynexochidae Angelin, 1854	117
光盾虫属 <i>Blandiaspis</i> Qian in Qiu <i>et al.</i> , 1983	117
光盖虫亚目 Leiostegina Bradley, 1925	117
光盖虫科 Leiostegiidae Bradley, 1925	117
淄川盾壳虫属(新属) <i>Zichuanaspis</i> gen. nov.	117
孙氏盾壳虫科 Sunaspidae Zhang et Jell, 1987	120
小孙氏盾壳虫属 <i>Sunaspidella</i> Zhang et Yuan, 1981	120
光滑盾壳虫属 <i>Leiaspis</i> Wu et Lin in Zhang <i>et al.</i> , 1980b	121
褶颊虫目 Ptychopariida Swinnerton, 1915	122
钝锥虫科 Conocoryphidae Angelin, 1854	122
毕雷氏虫属 <i>Bailiella</i> Matthew, 1885	122
全头虫科 Holocephalidae Hupé, 1953a	125
小祝氏虫属 <i>Sdzuyella</i> Hajrullina in Repina <i>et al.</i> , 1975	125
褶颊虫科 Ptychopariidae Matthew, 1887	125
榆树沟虫属 <i>Yushugouia</i> Guo et Duan, 1978	125
兴仁盾壳虫属 <i>Xingrenaspis</i> Yuan et Zhou in Zhang <i>et al.</i> , 1980a	127
始研头虫属 <i>Eoproetus</i> Zhang et Wang, 1983	130
东方褶颊虫属 <i>Eosoptychoparia</i> Chang, 1963	131
依姆李奇虫属 <i>Emmrichiella</i> Walcott, 1911	134
古纳尔逊虫属 <i>Paleonelsonia</i> Özdkmen, 2008	136
张夏盾壳虫属(新属) <i>Zhangxiaspis</i> gen. nov.	139
芮城头虫属(新属) <i>Ruichengocephalus</i> gen. nov.	140
野营虫科 Agraulidae Raymond, 1913	141
后野营虫属 <i>Metagraulos</i> Kobayashi, 1935	141
毛孔野营虫属 <i>Poriagraulos</i> Chang, 1963	142
李维斯虫属 <i>Levisia</i> Walcott, 1911	146
武安虫科 Wuaniidae Zhang et Yuan, 1981	149
宽劳伦斯虫属 <i>Latilorenzella</i> Kobayashi, 1960b	149
大野营虫属 <i>Megagraulos</i> Kobayashi, 1935	149
侯马虫属 <i>Houmaia</i> Zhang et Wang, 1985	153
井上虫科 Inouyiidae Chang, 1963	154
井上虫属 <i>Inouyia</i> Walcott, 1911	154
球井上虫亚属(新亚属) <i>Inouyia (Bulbinouyia)</i> subgen. nov.	157

中卫虫属 <i>Zhongweia</i> Zhou in Zhou et al., 1982	159
劳伦斯虫科 <i>Lorenzellidae</i> Chang, 1963	160
井上形虫属 <i>Inouyops</i> Resser, 1942a	160
矛刺井上虫属 <i>Lonchinouyia</i> Chang, 1963	161
登封虫科 <i>Tengfengiidae</i> Chang, 1963	163
登封虫属 <i>Tengfengia</i> Hsiang, 1962	163
似瘤头虫科 <i>Onchonotopsididae</i> Shaw, 1966	164
拟李维斯虫属 <i>Paralevisia</i> Zhang et Jell, 1987	164
平鲁虫属 <i>Pingluia</i> Zhang et Wang, 1985	167
裂头虫科 <i>Crepicephalidae</i> Kobayashi, 1935	168
小裂头虫属 <i>Crepicephalina</i> Resser et Endo in Kobayashi, 1935	168
异尾虫属 <i>Idioura</i> Zhang et Yuan in Zhang et al., 1980b	179
五台山盾壳虫属 <i>Wutaishanaspis</i> Zhang et Wang, 1992	182
石榴园虫属(新属) <i>Shiliuyuania</i> gen. nov.	184
小中条山虫属(新属) <i>Zhongtiaoshanella</i> gen. nov.	186
沟肋虫科 <i>Solenopleuridae</i> Angelin, 1854	187
沟颊虫属 <i>Solenoparia</i> Kobayashi, 1935	187
小开平虫属 <i>Kaipingella</i> Kuo, 1965b	195
沟颊形虫属 <i>Solenoparops</i> Chang, 1963	197
粗颊虫属 <i>Trachoparia</i> Chang, 1963	199
花垣盾壳虫属 <i>Huayuanaspis</i> Peng, Babcock et Lin, 2004b	205
小崮山虫属(新属) <i>Gushanella</i> gen. nov.	206
峄城头虫属(新属) <i>Yichengocephalus</i> gen. nov.	207
奇异劳伦斯虫属 <i>Xenolorenzella</i> Duan in Duan et al., 2005	208
壮头虫科 <i>Menocephalidae</i> Hupé, 1953a	209
壮头虫属 <i>Menocephalites</i> Kobayashi, 1935	209
虎头山虫亚属(新亚属) <i>Menocephalites (Hutoushania)</i> subgen. nov.	213
小壮头虫属(新属) <i>Menocephalina</i> gen. nov.	215
卷尾虫属 <i>Eilura</i> Resser et Endo in Kobayashi, 1935	216
长清虫属 <i>Changqingia</i> Lu et Zhu in Qiu et al., 1983	219
淮沟颊虫属 <i>Solenoparina</i> Chang, 1963	227
小井上虫属 <i>Inouyella</i> Resser et Endo in Kobayashi, 1935	230
鲁南虫属(新属) <i>Lunania</i> gen. nov.	233

- Early and Middle Ordovician Graptolites from Wuning, Northwestern Jiangxi, China** By Ni Yunan
Whole Number 182, New Series B, No. 29, 1993
- Upper Ordovician Graptolites of Central China Region** By Mu Enzhi, Li Jijin, Ge Meiyu, Chen Xu, Lin Yaokun and Ni Yunan
Whole Number 183, New Series B, No. 30, 1994
- Trilobites from Middle Upper Cambrian (Changshan Stage) of North and Northeast China** By Qian Yiyuan
Whole Number 184, New Series B, No. 31, 1994
- Mesozoic and Cenozoic Scleractinian Corals from Xizang** By Liao Weihua and Xia Jinbao
Whole Number 188, New Series B, No. 32, 1999
- Cretaceous Bivalves of the Region of Songhuajiang and Liaohe Rivers in Northeast China** By Gu Zhiwei and Yu Jingshan
Whole Number 189, New Series B, No. 33, 2000
- Typical Pacific Graptolite Fauna from the Ningkuoan of Early Ordovician in Chongyi, Jiangxi** By Li Jijin, Xiao Chengxie and Chen Hongye
Whole Number 195, New Series B, No. 34, 2010
- Upper Carboniferous and Lower Permian Fusulinids from Western Guizhou** By Zhang Linxin, Zhou Jianping and Sheng Jinzhang

Trilobite Fauna of the Changhia Formation (Cambrian Series 3) from Shandong and Adjacent Area , North China

Yuan Jinliang Li Yue Mu Xi'nan Lin Jihpai Zhu Xuejian

(Nanjing Institute of Geology and Palaeontology , Chinese Academy of Sciences)

Summary

Contents

1. Introduction	475
2. Strata of the Changhia Formation	477
3. The zonations and ranges of the trilobite genera and species of the Changhia Formation	488
4. Correlation of the Changhia Formation with its age- equivalent strata in other regions of China and other countries	492
5. Crisis events and faunal recoveries of Cambrian trilobites ..	501
6. The research on trilobite taxonomy based on disarticulated elements	502
7. Phylogeny of the trilobite genera of the families <i>Dolichometopidae</i> Walcott, 1916 , <i>Solenopleuridae</i> Angelin, 1854 and <i>Menocephalidae</i> Hupé, 1953a	502
8. Description of main genera and species	504
Class Trilobita Walch, 1771	504
Order Agnostida Salter, 1864	504
Family Agnostidae M'Coy, 1849	504
Genus <i>Ammagnostus</i> Öpik, 1967	504
Genus <i>Tomagnostus</i> Howell, 1935c	504
Subgenus <i>Tomagnostus</i> (<i>Paratomagnostus</i>) nov.	504
Family Peronopsidae Westergård, 1936	506
Genus <i>Peronopsis</i> Hawle et Corda, 1847	506
Genus <i>Micagnostus</i> Hajrullina in Repina et al., 1975	507
Genus <i>Archaeagnostus</i> Kobayashi, 1939a	508
Genus <i>Gratagnostus</i> Hajrullina in Repina et al., 1975	509
Family Spinagnostidae Howell, 1935a	509
Genus <i>Pseudoperonopsis</i> Harrington, 1938	509
Genus <i>Raragnostus</i> Hajrullina in Repina et al., 1975	510
Family Diplagnostidae Whitehouse, 1936	511
Genus <i>Baltagnostus</i> Lochman in Lochman et Duncan, 1944	511
Family Clavagnostidae Howell, 1937	512
Genus <i>Utagnostus</i> Robison, 1964	512
Order Corynexochida Kobayashi, 1935	513
Suborder Corynexochina Kobayashi, 1935	513
Family Dorypygidae Kobayashi, 1935	513
Genus <i>Dorypyge</i> Dames, 1883	513
Family Corynexochidae Angelin, 1854	515
Genus <i>Blandiaspis</i> Qian in Qiu et al., 1983	515
Suborder Leiostegiina Bradley, 1925	516
Family Leiostegiidae Bradley, 1925	516
Genus <i>Zichuanaspis</i> nov.	516
Order Ptychopariida Swinnerton, 1915	518
Family Holocephalidae Hupé, 1953a	518
Genus <i>Sdzuyella</i> Hajrullina in Repina et al., 1975 ..	518
Family Ptychopariidae Matthew, 1887	519
Genus <i>Yushugouia</i> Guo et Duan, 1978	519
Genus <i>Eoproetus</i> Zhang et Wang, 1983	520
Genus <i>Emmrichiella</i> Walcott, 1911	521
Genus <i>Paleonelsonia</i> Özdkimen, 2008	523
Genus <i>Zhangxiaspis</i> nov.	526
Genus <i>Ruichengocephalus</i> nov.	527
Family Agraulidae Raymond, 1913	528
Genus <i>Levisia</i> Walcott, 1911	528
Family Wuaniidae Zhang et Yuan, 1981	529
Genus <i>Megagraulos</i> Kobayashi, 1935	529
Family Inouyiidae Chang, 1963	531
Genus <i>Inouyia</i> Walcott, 1911	531
Subgenus <i>Inouyia</i> (<i>Bulbinouyia</i>) nov.	533
Genus <i>Zhongweia</i> Zhou in Zhou et al., 1982	534
Family Onchonotopsididae Shaw, 1966	535
Genus <i>Paralevisia</i> Zhang et Jell, 1987	535

Genus <i>Pingluia</i> Zhang et Wang, 1985	537
Family Crepicephalidae Kobayashi, 1935	539
Genus <i>Crepicephalina</i> Resser et Endo in Kobayashi, 1935	539
Genus <i>Idioura</i> Zhang et Yuan in Zhang et al., 1980b	545
Genus <i>Wutaishanaspis</i> Zhang et Wang, 1992	547
Genus <i>Shiliuyuania</i> nov.	549
Genus <i>Zhongtiaoshanella</i> nov.	552
Family Solenopleuridae Angelin, 1854	553
Genus <i>Solenoparia</i> Kobayashi, 1935	553
Genus <i>Solenoparops</i> Chang, 1963	555
Genus <i>Trachoparia</i> Chang, 1963	557
Genus <i>Huayuanaspis</i> Peng, Babcock et Lin, 2004b	560
Genus <i>Gushanella</i> nov.	561
Genus <i>Yichengocephalus</i> nov.	562
Genus <i>Xenolorenzella</i> Duan in Duan et al., 2005	563
Family Menocephalidae Hupé, 1953a	564
Genus <i>Menocephalites</i> Kobayashi, 1935	564
Subgenus <i>Menocephalites (Hutoushania)</i> nov.	568
Genus <i>Menocephalina</i> nov.	570
Genus <i>Eilura</i> Resser et Endo in Kobayashi, 1935	571
Genus <i>Changqingia</i> Lu et Zhu in Qiu et al., 1983	573
Genus <i>Solenoparina</i> Chang, 1963	574
Genus <i>Inouyella</i> Resser et Endo in Kobayashi, 1935	575
Genus <i>Lunania</i> nov.	578
Family Proasaphiscidae Chang, 1963	579
Genus <i>Proasaphiscus</i> Resser et Endo in Kobayashi, 1935	579
Genus <i>Iranoleesia</i> King, 1955	581
Subgenus <i>Iranoleesia (Proasaphiscina)</i> Lin et Wu in Zhang et al., 1980b	582
Genus <i>Psilaspis</i> Resser et Endo in Kobayashi, 1935	583
Genus <i>Honania</i> Lee in Lu, Chien et Chu, 1963a	584
Genus <i>Heyelingella</i> Zhang et Yuan in Zhang et al., 1980b	586
Genus <i>Yongwolia</i> Kobayashi, 1962	587
Subgenus <i>Yongwolia (Plesigangderria)</i> Qiu in Qiu et al., 1983	588
Genus <i>Grandioculus</i> Cossmann, 1908	589
Subgenus <i>Grandioculus (Protohedinia)</i> Endo, 1944	591
Genus <i>Saimachia</i> Kobayashi, 1937a	592
Genus <i>Eymekops</i> Resser et Endo in Kobayashi, 1935	593
Genus <i>Praeymekops</i> nov.	596
Genus <i>Maotunia</i> Zhang et Jell, 1987	598
Genus <i>Manchuriella</i> Resser et Endo in Kobayashi, 1935	600
Genus <i>Derikaspis</i> Dean, 1982	601
Genus <i>Sudanomocarina</i> Jell in Jell et Robison, 1978	604
Genus <i>Plectrocrania</i> Zhang et Yuan in Zhang et al., 1980b	606
Genus <i>Paranomocarella</i> Yang in Zhou et al., 1977	609
Genus <i>Ulania</i> Lin et Zhang in Chu et al., 1979	610
Family Ignotogregatidae Zhang et Jell, 1987	611
Genus <i>Woqishanaspis</i> nov.	611
Genus <i>Angsiduoia</i> Zhou in Zhou et al., 1996	613
Family Asaphiscidae Raymond, 1924	615
Genus <i>Lioparia</i> Lorenz, 1906	615
Family Lisaniidae Chang, 1963	616
Genus <i>Lisania</i> Walcott, 1911	616
Genus <i>Baojingia</i> Yang in Zhou et al., 1977	619
Subgenus <i>Baojingia (Eobaojingia)</i> nov.	620
Genus <i>Paralisaniella</i> Qiu in Qiu et al., 1983	623
Genus <i>Parayujinia</i> Peng, Babcock et Lin, 2004b	624
Family Pterocephaliidae Kobayashi, 1935	625
Genus <i>Flabellocephalus</i> Zhang et Wang, 1983	625
Family Mapaniidae Chang, 1963	627
Genus <i>Mapania</i> Resser et Endo in Kobayashi, 1935	627
Subgenus <i>Mapania (Mapanella)</i> nov.	628
Genus <i>Eomapania</i> nov.	631
Genus <i>Mapanopsis</i> Chang, 1963	633
Family Anomocarellidae Hupé, 1953a	634
Genus <i>Anomocarella</i> Walcott, 1905	634
Genus <i>Abanomocarella</i> nov.	637
Genus <i>Pseudopeishania</i> nov.	638
Genus <i>Lioaspides</i> Duan et An in Duan et al., 2005	642
Genus <i>Peishania</i> Resser et Endo in Kobayashi, 1935	642
Genus <i>Liopeishania</i> Chang, 1963	645
Subgenus <i>Liopeishania (Zhujia)</i> Ju in Qiu et al., 1983	645
Genus <i>Szeaspis</i> Chang, 1959	647
Subgenus <i>Szeaspis (Pseudoszeaspis)</i> nov.	648
Family Plethopeltidae Raymond, 1925	649
Genus <i>Liowutaishania</i> Zhang et Wang in Wang et Zhang, 1994b	649
Genus <i>Eokoldinia</i> nov.	651
Family Diceratocephalidae Lu, 1954	652
Genus <i>Jiulongshania</i> Park, Han, Bai et Choi, 2008	652
Order Asaphida Salter, 1864	653
Family Anomocaridae Poulsen, 1927	653
Genus <i>Koptura</i> Resser et Endo in Kobayashi, 1935	653
Subgenus <i>Koptura (Teratokoptura)</i> Xiang et Zhang,	653

1985	656
Subgenus <i>Koptura</i> (<i>Eokoptura</i>) nov.	656
Genus <i>Paracoosia</i> Kobayashi, 1936	658
Family Rhyssoemetopidae Öpik, 1967	660
Genus <i>Metanomocarella</i> Chang, 1959	660
Family Ordosiidae Lu, 1954	661
Genus <i>Taitzuia</i> Resser et Endo in Kobayashi, 1935	661
Genus <i>Poshania</i> Chang, 1959	661
Genus <i>Pseudotaitzuia</i> Qiu in Qiu et al., 1983	663
Family Monkaspidae Kobayashi; 1935	664
Genus <i>Monkaspis</i> Kobayashi, 1935	664
Order Lichida Moore, 1959	665
Family Damesellidae Kobayashi, 1935	665
Genus <i>Dameselloides</i> nov.	665
Genus <i>Guancenshania</i> Zhang et Wang, 1986	667
Genus <i>Parablackwelderia</i> Kobayashi, 1942b	668
Genus <i>Teinistion</i> Monke, 1903	669
Genus <i>Taitzehoia</i> Chu, 1959	672
Genus <i>Taihangshaniashania</i> Jell in Jell et Adrain, 2003	674
Genus <i>Danjiangella</i> Yang in Yang et al., 1991	675

There is a long standing debate about the Cambrian biostratigraphy of North China. We propose herein a revision of Cambrian Series 3 trilobite zonation of North China to improve its utility for correlation between North China Platform (shallow water facies) and Jiangnan Slope Belt (relatively deeper water facies). Detailed correlations of trilobite zones between North China platform facies and South China slope belt faices are outlined below. The *Neodrepanura premesnili* Zone can be correlated with the *Glyptagnostus stolidotus* Zone. The *Blackwelderia paronai* Zone is age-equivalent to the *Linguagnostus reconditus* Zone and the upper *Proagnostus bulbus* Zone. The *Damesella paronai* Zone is approximately age-equivalent to the lower *Proagnostus bulbus* Zone and upper and the middle *Lejopyge laevigata* Zone. The *Liopeishania lubrica* Zone can be correlated with the lower *Lejopyge laevigata* Zone and the *Lejopyge armata* Zone. The *Taitzuia insueta-Poshania poshanensis* Zone can be correlated with the *Goniagnostus nathorsti* Zone. The *Amphoton deois* Zone is age-equivalent to the *Ptychagnostus punctuosus* Zone and upper part of the *P. atavus* Zone. The *Inouyella peiensis-Peishania convexa* Zone, *Megagraulos coreanicus* Zone and *Crepicephalina convexa* Zone are age-equivalent to the lower to middle part of the *Ptychagnostus atavus* Zone. The *Bailiella lantenoisi* Zone and *Tonkinella flabelliformis-Poriagraulos nanus* Zone are age-equivalent to the *P. (Triplagnostus) gibbus* Zone. The *Inouyops titiana* Zone and *Metagraulos nitidus* Zone can be correlated with the *Ptychagnostus praecurrents* Zone. The *Sunaspis laevis-Sunaspidea rara* Zone and *Sinopagetia jinnanensis* Zone can be correlated with the *Peronopsis taijiangensis* Zone (or *Oryctocephalus oreintalis* Zone) and The *Ruichangaspis mirabilis* Zone, *Hsuchuangia hsuchuangensis* Zone, *Shantungaspis acris* Zone and *Yaojiayuella ocellata* Zone are correlated with the *Oryctocephalus indicus* Zone (see Table 2). Trilobite fauna of the Changhia Formation includes 371 species, 60 indeterminate species, belonging to 152 genera (subgenera), 41 families, 5 orders, of which 120 species and 23 genera (subgenera) are new.

1. Introduction

Cambrian rocks crop out in middle and southern parts of Shandong, i. e. west of Anqiu-Juxian and east of Jinan-Pingyin lines (Text-fig. 1). The Cambrian strata of Shandong include the following formations in descending order: the Chaomidian Formation, Kushan Formation, Changhia Formation, Manto Formation, Changping Formation and Liguan (= Wushan) Formation. The Cambrian deposits of Shandong belong to eastern subprovince of Sino-Korean Platform (Zhang and Jell, 1987, p. 5). The Cambrian trilobites of Shandong represent the typical North China Faunal Province, one of the oriental faunal realms (Lu et al., 1974a). In comparison with the typical Faunal Province and transitional Faunal Province in SE China, endemic non-agnostid trilobites clearly dominate in North China Faunal Province, in both species richness and evenness, and pandemic agnostid trilobites are rare. Trilobite fauna of the Changhia Formation includes 371 species, 60 indeterminate

species, belonging to 152 genera (subgenera), 41 families, 5 orders, of which 120 species and 16 genera, 7 subgenera are new. Based on sequential occurrences and ranges of species (see Table 1), the trilobite fauna of the Changchia Formation ranges from upper Hsuchuangian Stage, via Changqingian Stage to lower Jinanian Stage and 11 trilobite zones can be established in descending order: *Damesella paronai* Zone, *Liopeishania lubrica* Zone, *Taitzuia insueta-Poshania poshanensis* Zone, *Amphoton deois* Zone, *Crepicephalina convexa* Zone, *Megagraulos coreanicus* Zone, *Inouyella peiensis-Peishania convexa* Zone, *Bailiella lantenoisi* Zone, *Tonkinella flabelliformis-Poriagralos nanus* Zone, *Inouyops titiana* Zone, and *Metagraulos nitidus* Zone. According to criterion of *International Stratigraphic Guide*, the name of synchronous lithostratigraphic unit could not directly apply for the name of chronostratigraphic unit. Thus, the Changqingian Stage (instead of Changhian Stage) with Hutoushan-Huangcaoding section, near Zhangxia Town, Changqing County as the type section should be erected. Its base is defined by the first appearance datum (FAD) of *Inouyella peiensis* Resser et Endo in Kobayashi , 1935 , and the new stage contains 6 trilobite zones in descending order: 6. *Liopeishania lubrica* Zone, 5. *Taitzuia insueta-Poshania poshanensis* Zone, 4. *Amphoton deois* Zone, 3. *Crepicephalina convexa* Zone, 2. *Megagraulos coreanicus* Zone, and 1. *Inouyella peiensis-Peishania convexa* Zone. In addition, the Jinanian Stage (instead of Kushanian Stage) with Tangwangzhai section, near Gushan Town, Changqing County as the type section is proposed. Its base is defined by the FAD of *Damesella paronai* (Airaghi , 1902), and the new stage contains 3 trilobite zones in descending order: 3. *Neodrepanura premesnili* Zone, 2. *Blackwelderia paronai* Zone, and 1. *Damesella paronai* Zone. To date, the Cambrian Series 3 in North China can be subdivided into 4 stages including 19 trilobite zones as follows:

Jinanian Stage

19. *Neodrepanura premesnili* Zone
18. *Blackwelderia paronai* Zone
17. *Damesella paronai* Zone

Changqingian Stage

16. *Liopeishania lubrica* Zone
15. *Taitzuia insueta-Poshania poshanensis* Zone
14. *Amphoton deois* Zone
13. *Crepicephalina convexa* Zone
12. *Megagraulos coreanicus* Zone
11. *Inouyella peiensis-Peishania convexa* Zone

Hsuchuangian Stage

10. *Bailiella lantenoisi* Zone
9. *Tonkinella flabelliformis-Poriagralos nanus* Zone
8. *Inouyops titiana* Zone
7. *Metagraulos nitidus* Zone
6. *Sunaspis laevis-Sunaspidella rara* Zone
5. *Sinopagetia jinnanensis* Zone
4. *Ruichengaspis mirabilis* Zone
3. *Hsuchuangia hsuchuangensis* Zone

Maochuangian Stage

2. *Shandongaspis aclis* Zone
1. *Yaojiayuella ocellata* Zone
