前言

这是一部神奇的画卷。

这是一道美丽的风景线。

我们部队的美术工作者们长期坚持深入生活,在基层摸爬滚打,用自己手中的画笔,满怀深情地描绘出国防科技战线所取得的辉煌成就。入选画册的110余件作品,大多是历年全国全军美展的参展和获奖作品。画图卷卷,洋溢着神剑的奇韵;丹青幅幅,飞溅着时代的浪花。

谨以此献给为国防科技事业默默奉献的人们!

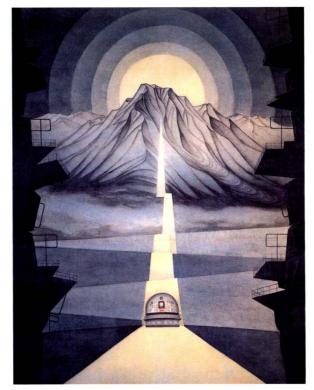

Foreword

This is a superb album of paintings, a collection of beautiful scenes.

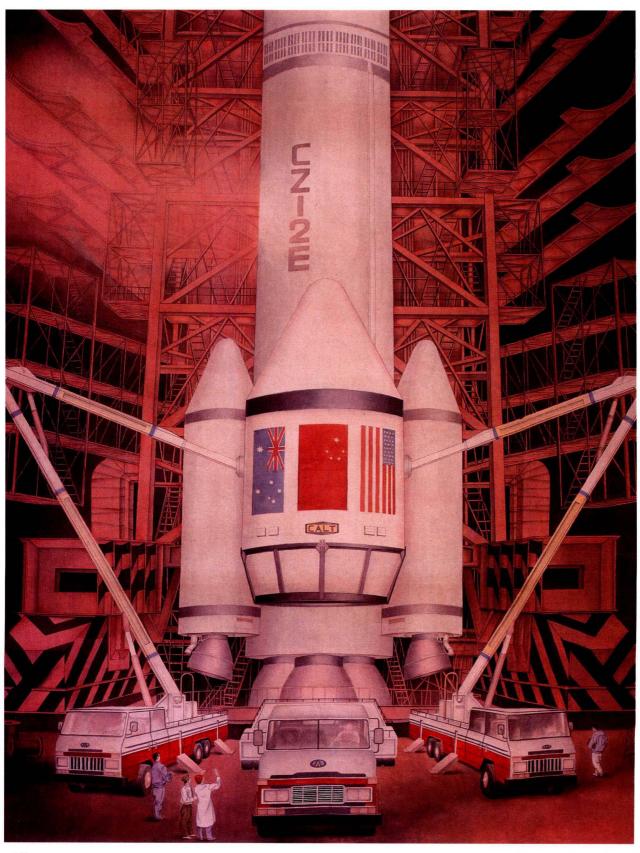

The artists are armymen, who have penetrated deep into the realities of life and tempered themselves in grassroots units. They have reproduced with deep feelings the splendid achievements on the scientific and technological front of national defence. Most of the 110-odd paintings collected here are prize-winning works that have been displayed in national exhibitions and national army exhibitions of fine art. They reflect the strength and spirit of our armymen and are permeated with the vigor and vitality of life in our time.

The book is dedicated to all those who have labored so quietly and unobtrusively in the cause of our national defence science and technology.
