前言

国家经济委员会副主任

盛树仁

近年来，在各级党和政府的领导下，我国包装行业的广大干部职工和工程技术人员团结一致，锐意改革，艰苦奋斗，开拓进取，在开展行业管理，发展包装工业，改进商品包装等方面取得了很好的成绩，积累了不少的经验。全国包装工业产值1986年比1980年增长了1.3倍，年递增率为14.8%，高于同期全国工业的发展速度。通过包装大检查、改进商品包装，三年来取得了25亿元的经济效益。包装在国民经济发展中的重要地位，已引起了社会各方面的普遍关注，应该说我国包装工业已经打下了初步基础，正在开创新的局面。

发展我国的包装工业，要切实加强行业管理，贯彻包装工业大家办的精神，深化改革，搞活企业，积极开展增产节约，增收节支运动，推动各种形式的横向联合，建立科研、设计、工程、生产、供销一条龙的联合体。要大力推进包装行业的技术进步，搞好引进技术的消化、吸收，加速实现包装产品的更新换代，提高包装产品的质量。要逐步建立和完善包装标准、法规，从政策上促使包装工业健康地发展，把包装行业管理工作推向深入。

《中国包装年鉴》自1981年创办以来，已出版了六册，得到了国内外包装同行和许多读者的关注和支持。《年鉴》对于交流包装信息，促进包装工业的发展，无疑起到了积极的作用。

在《中国包装年鉴》(1987年版)出版之际，谨祝她能够得到读者的欢迎，能够更好地为包装事业的发展服务。

PREFACE

Sheng Shuren

Vice Minister of the State Economic Commission

Over the past few years, under the leadership of our Party and governments at various levels, the broad masses of cadres, staff members, engineering and technical personnel in our national packaging industry have made excellent achievements and accumulated much experience in carrying out trade management, developing packaging industry and improving commodity packaging by uniting together, sticking to the reform, striving hard and opening up energetically. The national output value of packaging industry in 1986 increased by 130% over 1980, increasing at a rate of 14.8% a year higher than the developing rate of the national industries in the same period. Through the general inspection of packaging and improvement of commodity packaging, an economic result of 2.5 billion yuan (RMB) has been obtained over the past three years. The significance of packaging in the development of national economy has caused general attention from various fields in the society. It should be acknowledged that a preliminary foundation of China's packaging industry has been laid, which opens up a new prospect for the industry.

The following should be done in order to develop China's packaging industry. To continue to enhance trade management and launch vigorously the movement of increasing production and revenue income and reducing cost and expenses; To deepen the reform and invigorate enterprises on the principle of encouraging contributions from various walks of life to the development of packaging industry so as to promote all kinds of crosswise economic cooperation and establish a completed concern from scientific researches, design, engineering, production to marketing; To promote energetically the technical progress in packaging industry and the efficient utilization and absorption of imported technology so as to speed up the realization of renewal of packaging products and upgrade the quality; To establish and perfect step by step the standards and regulations of packaging so as to undertake with all these principles the development of packaging industry healthily and packaging trade management in a deeper way.

Started publication in 1981, CHINA PACKAGING YEARBOOK has come to its 6th issue and received great attention and support from many readers and people in the same trade at home and abroad. It is undoubted that CHINA PACKAGING YEARBOOK has played a positive role in exchanging packaging information and promoting the development of packaging industry. It is at the time publishing CHINA PACKAGING YEARBOOK 1987 edition that I sincerely hope that she will receive welcome from her readers and be able to serve the development of packaging industry in a better way.
