自序

人间四月芳菲刹那之时，耽搁了两个月的拉斯维加斯之行又重新提上日程。所有的电话、工程、项目都暂时结束，我要带着自己的牙刷、相机、笔记本去旅行。

有人说过：“你看到的东西并非真的看过，你听到的东西也并非真的听过。”旅行就是一次真实的看与听的经历。城市与人一样充满了个性风格，拉斯维加斯更是如此。在这举世闻名的娱乐之城中，在人流如织的街道上，我欣赏着这里的每一处细节，真实地看着每一处景致，深深地感受着这里的商业文化。从商业街的街端走到街尾，从西边走到东边，渐渐地我不再只是一个手持地图盲目漫步的游者，而是把我的身心都深陷到每个建筑中去，细细地感受这里的一切。我的眼睛迷恋上了这个商业之城、浪漫之城，忘记了旅行者和设计师的身份，不自觉地拍下您在本书里看到的一切……

Preface

As the fragrant flowers are in blossom in the fugacious April, the travel to Las Vegas which had been delayed for two months has been put on the agenda again. Having finished all my phone-call, engineering and projects, I will go to travel with my tooth-brush, camera and notebook.

Someone said, "The one you have seen is not the just one which you have really seen and the one you have heard is either". To travel is an authentic experience what you see and what you hear. Just like a man, city has the features, and Las Vegas is more than that. In the well-known gamble city, I appreciated the every single detail of the busy intersection. Architecture is a kind of floating humanistic landscape. From the north to the south and from the west to the east, as a traveler with a map, I was deeply impressed by the architecture Strip. My eyes were infatuated with what I loved, which made me forget I was a traveler. Coming back to the position of an architect, spontaneously, I took these photos which became the base of this book.

The commercial characteristics of Las Vegas not only lie in its lavishness, but in my eyes, it develops the commercial phenomenon and architecture into romantic culture.
