春来冬去

又是年末,这一年好像比往年过得更快一些。这一年我们周围发生了太多太多无法释怀的事。年初的雪灾、年中的地震、年末的金融海啸一桩桩一件件接踵而来,国人的神经一次次被撕扯、挤压。

目前,起源于大洋彼岸的金融危机快速发展成为金融海啸,狂风暴雨般冲击着中国经济的发展劲头,从金融领域一直到实体经济,从生产部门到消费部门,从沿海到内陆。其涉及面之广、影响之深、强度之大,是20世纪30年代以来所没有的。

在此寒流之下,11月10日温家宝总理在这沃斯经济论坛上发表言论: "信心比货币和黄金还宝贵。" 的 确,自然界有春夏秋冬、寒来暑往,而经济的增长也不会一侧风顺,有波峰波谷。既然经济冬天已不可避免, 那么企业如何过冬,如何谋求更大发展?从年初至今,大部分企业家在企业日常经营中都遭遇了空前的挑战。 面对恶劣的国际经济环境以及国内趋紧的宏观环境,如何调整战略、苦练内功,鼓足干劲,化压力为动力,从 而保持企业特徵快强,做康发展,成为所有企业家都必须思考的头等大事。

云南企业借助改革开放20年的春风,在中国经济领域取得了一定的地位,为国家的发展社大贡献了一己之力。现在,面对这场来势凶猛的金融海啸,云南的企业家们又是准备如何过冬的呢?《商务股,允为东南的金融市场,这一个大多年。 如何更好地发挥"第一品牌"的作用,助推无金健康持续发展,成为编辑部码一位同仁积极探讨和努力行动的方向。为此,在省商务厅领导的高度重视和支持下、《商务风》在岁末新年将至之际,推出了本期"商务沙龙系列活动之——金融塘喇下企业的应对之策"游谈会。来自云南各行各业的近30名企业家代表、专家举者齐聚一堂,进行了一场思想盛宴,共同就当前的形势和应对之策展开了智慧的文锋。

与会嘉宾认为,目前这种宏观形势,要求我们在未来一年甚至更长时间里,要像动物冬眼一样,节省自己消耗的资源。思考如何有效、迅速把公司运营的固定成本降低,同时减少一些不必要的浪费,让一些资源得到更有效运用。作为企业的决策者,应经持多角度了解环境,深层次挖现优势,全方位盘点资源,在管理升级与产业升级上下功夫,不急于求成,不人云亦云。同时,适当收编战线,调整发展战略,降低企业的经营性风险,将治企的重心放倒苦练内功上。因为只有扎扎实实练好企业内功,我们才能在经济复苏的时候抓住机会,遂求企业更大的发展。

寒冷的冬天,保使人们放慢脚步,收敛思维,重新回头梳理治企最核心的价值观。这或许正应了古语所言: "福兮祸所依、祸兮福所伏。"可以说正因为冬天的冷酷,让世界有了再一次生机盎然的机会。这是一种 於回,从终点回到起点,见证的是一段实实在在的历史,让我们学会选择和放弃,在竞争中重新体味可持续发展的真义。

寒冬虽至,但你是否听到冬身后轻快催促的脚步,那是春的温暖、春的轻盈、春的希望!

Foreword

Spring Is Around the Corner

lydia

The end of the year is drawing near. It seems that this year has passed more quickly than ever. The snow disaster at the beginning of the year, the earthquake in the middle of the year and the current financial crisis came one after another, which made Chinese suffer a lot.

At the moment, the financial crisis originated from the other side of the Atlantic has rapidly grown into financial tsunani which is surging against the economic development of China. This financial Isunami has an effect on many fields. From financial fields to economic entity, from productive section to consuming department, from the coastal cities to inland, we have never confronted such powerful dissater since the 30th last century.

On November 10, Premier Wen Jahao gave his speech at Davos Economic Forum. He said, "Confidence is more precious than currency and gold." Just as the replacement of seasons, the economic development won't go smooth without any obstacles. Since economic crisis is inevitable, how do the entrepreneurs try to go through it and seek great development? Up to now, most entrepreneurs have encountered challenge in their routine management. In such bad international economic environment and macroscopic situation in China, what all the entrepreneurs must think about its o adjust strategy, train hard to increase inner abilities and turn pressure into motive so that the enterprises can develop constantly, traibly and healthily.

If has been 30 years since the reform opening, during which the enterprises in Yunnan have gained a place in the economic fields in China and made some contributions to the development and expansion of our country. Eaced with the powerful financial Isunani, how will the entrepreneurs in Yunnan prepare for the cold economy? The aim of all the editorial staff of Business Sbyle, the first brand of commercial magazines in Yunnan, is to play an important role in helping the enterprises in Yunnan develop in a healthy and sustainable way. With the support of Commercial Bureau, Business Syle held a forum at the end of this year, which is one of a series of business salon—The Enterprises' Tactics to Deal with the Financial Tsunami.30 enterpreneurs from all trades and professions, experts and scholars got together and held a mental bamquet, which was an intellectual confrontation between current situation and tactics to deal with the financial Isunami.

The honored guests presented at the forum think that the current macroscopic situation requires us to save our resources like hibernated animals in the future year, to think about how to cut down the regular costs efficiently and rapidly, to reduce some unnecessary wastes and to make full use of some resources. The policy-makers of the enterprises must get to know the environment from different angels, find out potential advantages and concentrate their efforts on management promotion and industry promotion. At the same time, the policy-makers must adjust developing strategy and reduce the operating risks. Only by training hard to increase the inner abilities of the enterprises can we grasp the opportunity at the time of economic resuggence and strive for great development of the enterprises.

Cold economy makes us know what is the essential values that administer the enterprises. As an old saying goes,
"Fortune accompanies misfortune," It is the coldness of winter that makes the world full of life once again. This is a
transmigration from the terminal back to the starting point. This period of history made us learn how to choose and give up
and realize the significance of sustainable development once again in competition.

Winter is coming. Do you hear the lighthearted footsteps after it? That's the warmth of spring, grace of spring and hopes of spring!

Industry Observation

Think, Act and Change

— Analysis of the Trouble and Opportunity of Yunnan Medicine Industry

The main problem of the development of Yunnan Medicine lies in the opening up of the market and industrial structure, not the expansion of productive capacity. So the major point of development is brand—oriented breaking out of the market. The strategic core of becoming bigger and stronger is conformity and restructure in which capital is the platform and brand is the bond.

Difficulties-frogether

All over the world is suffering a lot from the financial tsunami originated from American sub-prime crisis except a person—Li Jiacheng, a country—Korea and an organization—the Terrorist Base. Going through thick and thin is the common virtue of human being. In the face of crisis, the citizens in "the global village" are uniting as one and discussing the difficulties they are in.

Yunnan, which is famous for its slow reaction responded to the financial tsunami very quickly and put into great power. America, this beautiful butterfly, flapped the wings on the other side of the Atlantic and Yunnan, the heaven of peace, reacted to it so strongly. How strange it is!

Commercial Civilization

Return to the Essence and Meet an Emergency

The year of 2008 is full of great rejoicing and sorrow. On the one hand, we have accumulated a large sum of material wealth and the consumers have had a strong sense of brand. Successful holding the Olympic Games in Beijing push the brand-building of enterprises to climax. 2008 is a year of brand. On the other hand, Chinese brands are subjected to humiliation due to the

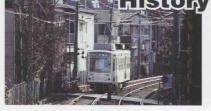

"Poisonous Milk powder Event" . A financial tsunami from the other side of the Atlantic hit the brand "Made in China" violently. Therefore, more

people started thinking about the development of enterprises and seeking the way of building brands.

Business Style

When we enjoy the fashion, dreams and brilliance brought by the cars, have you ever thought about their numerous renovation and improvement? When we make a general view of the tracks that the cars left us, we will surprisingly discover that the cars have been renovated and human being has made progress!

The Opportunity of ASEAN

The Constitution of ASEAN—condensing ASEAN with "the oriental wisdom"

It has been 41 years since ASEAN was established. If we compare it to a person, he is growing into the age of forty. The people at this age are mature, sedate and energetic. It is worth mentioning that the ceremony at which the Constitution of ASEAN came into force was held at the Secretary Division of the ASEAN in Jakarta, Indonesia on December 15. This is a document of law which conforms to the hardceristics of ASEAN. It will turn ASEAN that is loosely organized into an organization which has more cohesive forces and be more efficient. It will promote ASEAN to be a community which is based on the constitution and lead ASEAN to economic integration.

Character on the Front Cover

Honest People Will Surely Succeed

Business world is a battle field where the material culture contrasts with spiritual culture. To be a successful entrepreneur, it's necessary to have some qualities. He must know how to control the major situation, how to see into the opportunity on business, how to handle challenge and how to seize hold of resources conformity...Honesty is the most precious quality for a successful entrepreneur. However, in the endless competition, many enterprises attend to trifles and neglect essentials and pursue profits only. Therefore, a series of sensational events such as Sudan Red(a kind of dye) Event and Poisonous Milk powder Event occurred, which harm the safety of consumers and the development of enterprises and damage the image of our country.
