四、阅读表达

When we talk about how teenagers are getting worse and worse now, most young people don't agree. Teenagers always say they are growing up. They can have part - time jobs. They can drive a car. And they can even get married when they're a little bit older.

Their parents say, "Our children are very good. They like pop music but they play it in their own rooms. They help in the house. You know they feel bored sometimes because there's nothing interesting in the neighborhood, no clubs, and no sports. They have nothing to do."

A teacher says that he believes most young people are very kind. He thinks that it's not bad for young people to like loud music because it can give them lots of energy and make them feel excited. Also, a lot of young people work very hard at school, and they can get good jobs later.

Lewis, a sixteen - year - old boy said, "I have passed all my examinations but I can't get a part - time job because older people always think I'm lazy."

In my opinion, a lot of teenagers are very kind. They belong to community work groups, they help old people, and they also volunteer in local hospitals or primary schools to help look after patients and younger students.

The things teenagers can do	They can have <u> 1 </u> jobs
The reason why they feel bored	There's <u> 2 </u> interesting in the neighborhood
The view from one of their teachers	Young people are very <u> 3 </u>
Volunteer work that teenagers do	They help <u> 4 </u> after patients and younger students
The best <u> 5 </u> for the passage	Teenagers Today

 B. Something can be recycled.
 C. When you drive here, you can turn around.
- () 35. Which stress of the following words is different?
 A. interested B. Europe C. guitar

三、完形填空

Everyone needs friends. We all like to feel close to someone. 36 is nice to have a friend to talk, laugh, and do things with. 37, sometimes we need to be alone. We don't always want people 38. But we would feel lonely if we 39 had a friend.

Not two people are 40. Friends sometimes don't get on well. That doesn't mean 41 they no longer like each other. Most of the time they will make up (言归于好) and become friends again. Sometimes friends move away. Then we feel very 42. We miss them very much, but we can 43 them and write to them. It could be possible that we would never see them again. And we can make new friends. It is surprising to find out 44 we like new people when we get to know them.

There's more good news for people who have friends. They live longer than people who don't. Why? It would be that they are happier. Being happy helps you stay well. Or it could be just knowing that someone cares about you. If someone cares about you, you take 45 care of yourself.

四、阅读理解

(A)

Here is an email from Victor to Sandy. Read it and answer the questions.

Hello Sandy,

We have just returned from our holiday. We went with our friends Edward Smith and his wife Tina to the Yorkshire Moors. This is a beautiful place. It is a natural park. There are lots of places to walk on the tops of the hills, miles of grassland with no people, just sheep and birds.

Edward, who had just come out of hospital, could not walk as far as he used to. However, this meant that we walked in the mornings, and then stopped at a cafe for lunch each day, before returning to the place we live. Edward and I slept in front of the fire all afternoon, while the ladies went for another walk. Very pleasant!

I have taken lots of photos from the place we live, across the valley (峡谷) below us, of the morning sunrise, and the mist in the valley. Also, in England, the old steam powered trains (蒸汽火车) are very popular. I have taken many photos of the train and from it.

Yesterday we had the first snow of this winter. It is very early (we usually expect snow in

January). It rained all day, then snowed in the evening. Today we have bright sunshine!

Both Jenny and I are well. I don't know if I have told you in the last e-mail that Jenny is now working in a hotel. Although she has to work hard, people there are nice and she is enjoying the work.

Please write to us to tell us your news.

Yours,
Victor

After telling him my new address, I told him that I had left the key under the doormat. I said that he could make himself at home and helped 66 to anything that was in the fridge.

Two hours 67, my friend phoned me from the house. He said he was listening to some of my records after having a nice meal. When I asked him if he had a difficult time in 68 the house, he answered that the only problem that he hadn't been able to find the key under the doormat, but 69, the living - room window by the apple tree had been left open and he climbed in through the window. When I take a walk around Washington Square Park, I often see many people walking with dogs. It is still true that a dog is the most useful and faithful animal in the world, but people have changed the reasons why they keep dogs as pets. They used to keep dogs as pets in order to keep safe, but now they keep them as friends, because the city can be a lonely place. For a child, a dog is his playmate when he has no little friends to play with. For old couples, a dog is their child when their real children have grown up. Now you can see why people keep dogs.
