序

在新的世纪到来前夕，湖南省林业厅迎来了 50 华诞。

50 年的历程，是一代代三湘林人前仆后继、艰苦奋斗的历程，是林业事业突飞猛进、林业经济迅速发展的光辉历程。50 年间，特别是党的十一届三中全会以来，全省林业系统干部职工高举邓小平理论伟大旗帜，团结战斗，创造了辉煌的业绩，谱写了壮丽的篇章，实现了历史性的跨越：1993 年消灭宜林荒山，1997 年基本实现全面绿化；到 1999 年，有林地面积达到 13995 万亩，森林覆盖率达到 52.08%，活立木总蓄积达到 28307 万立方米，立竹总数达到 14.07 亿根。放眼三湘大地，从幕阜山麓到武陵山脉，从洞庭湖滨到南岭山地，绿色如画，林海如潮。

50 年来，湖南林业在积极创造生态效益、社会效益的同时，为祖国建设和人民生活提供了大量的林产品，创造了可观的经济效益：累计生产商品木材 1.404 亿立方米、竹材 10.57 亿根、松香 68.2 万吨、茶油 300 多万吨、桐油 80 多万吨；林产工业从小到大，从弱到强，生产、加工、销售企业发展到 3000 多家，年产值达 50 多亿元；伴随着全国第一个国家森林公园——张家界国家森林公园的诞生，湖南的森林旅游成为林业第三产业的主力军，而且诱使着都市人回归大自然。

50 年来，湖南林业科技教育事业蒸蒸日上，林业生产科技含量不断提高；林业法制建设从无到有，逐步完善，林业司法执法和行政执法队伍步入规范化、法制化轨道；国有林场、自然保护区建设成绩显著，林业对外开放硕果累累……

回首过去，心潮澎湃。湖南林业所取得的伟大成就，都归功于党中央英明的林业方针政策，归功于省委、省政府的正确领导、各级党委、政府的高度重视和各级各部门的大力支持，归功于林业厅历届党组艰苦卓绝的努力和一代又一代三湘林人呕心沥血、无怨无悔地奉献。在湖南省林业厅成立 50 周年之际，我们特从上述波澜壮阔的画卷中精选了一批最具代表性的画面，汇编成《湖南省林业厅 50 年》纪念画册，以志纪念和献给为湖南林业贡献毕生精力的前辈们！献给关心和支持湖南林业发展的各位领导及各界人士！献给矢志不渝、发愤图强的三湘林人！

展望未来，任重道远。在新世纪，湖南省林业厅党组一班人将带领全省林业干部职工奋勇拼搏，积极进取，努力实现“2010 年全省森林覆盖率达到 55%，2025 年森林蓄积量达到 5.5 亿立方米”的宏伟目标，把“芙蓉国”建设得更加美丽和富饶。

葛汉林

PREFACE

With the coming of new century, Forest Department of Hunan Province enter into the 50th anniversary.

The course of 50 years is the arduous course in which forestry workers over all province have advanced wave upon wave and worked hard and the glorious course in which forestry cause advanced and forestry economy developed rapidly. During 50 years, especially since the Third Session of the Central Committee of Eleventh National Congress of Party all forestry staff held up the banner of Deng Xiaoping theory and acquired the great achievement. The history span had been implemented. Barren hills and mountains suitable for afforestation were eliminated in 1993. The goal for greening was basically carried out in 1997. Until 1999, the area of forest lands reached 139.95 million mu with 52.08% forest percent, 283.07 million cubic meters forest reserve and 1.407 billion stocking bamboo. All province from Mafu to Wuling Mountain and from Dongting Lake to Nanling Mountain is full of the green pictures and forest wave take a broad view.

Within 50 years Hunan Forestry has achieved ecological and social benefits as the same time it has created considerable economic benefits by providing a great deal of forest products for motherland construction and people life, such as the total number of timber up to 140.4 million cubic meters, 10.57 billion bamboo, 682 thousand tons rosin, more than 3 million tons tea-oil, more than 800 thousand tons Chinese wood oil. There are 3000 forestry enterprises with more than 5 billion yuan of annual production value. The rapid development of forest tourism went with the establishment of Zhangjiajie National Forest Park that is the first national forest park in China and became main force of Third production industry as well as attracted urbanites return to nature.

Within 50 years forestry science, technology and education in Hunan is becoming more and more flourishing. The level of forestry science and technology have been greatly promoted. The construction of legal system grow out of nothing and perfect continually. The ranks of enforcing the law of forestry judiciary and administration have built step by step. Forestry policies and resources management, forestry fire prevention and control, forest pest and disease control have entered into the orbit of standardization and legal system. The construction of nature reserves and state-owned forest farms have achieved considerable achievement. Forestry open to outside has got rich fruits.

To look back we feel an upsurge of emotion. All great forestry achievements in Hunan should be owed to forestry policies made by the Central Committee of Party, to accurate lead by provincial party committee and provincial government, to attention by all level party committee and government and the support of concerned departments, to work hard by successive leading Party group of department, also to shedding all provincial forestry workers heart blood generation by generation. In the 50th anniversary of Forestry Department of Hunan Province we meticulously choose some the most representative pictures from above grand picture scroll to compile the Commemorative Picture Album of Hunan Forestry Department in 50th Anniversary to memory and consecrate grand old man who contributed their life to course of Hunan forestry, to all leaders and personages who supported and took care for development of Hunan forestry, to all forestry workers who work with a will to Hunan forestry strong.

To look ahead the burden is heavy and the road is long. The leading Party group of Forestry Department of Hunan Province will lead forestry staff over all province to forge ahead courageously and take great effort to carry out the goal of 55% forest percent in 2010 and 550 million cubic meters forest reserve in 2025. The land of hibiscus will be built more beautiful and richer.
