Two million people visited it the first year it was built, and almost 6 million people a year today.

The Eiffel Tower was designed by the French engineer Alexandre Gustave Eiffel for the Paris Exposition (巴黎博览会) of 1889. People spent 2 years, 2 months and 5 days (1887 to 1889) building it. It was the highest building in the world at that time.

Choose the best answer (根据短文内容,选择最恰当的答案):

Many people prefer to visit France when they're thinking of going abroad for the holidays. France, with its history, architecture, food and wine, has become one of the most famous tourist destinations in Europe.

The Arc de Triomphe

The Arc de Triomphe is the largest triumphal (庆祝胜利的) arch (拱门) in the world.

Napoleon Bonaparte (拿破仑) ordered people to build it to commemorate (纪念) his victory in 1806, but he was ousted (驱逐) before the arch was finished in 1836. The Arc de Triomphe is 50 meters high. It can be seen from nearly every part of Paris.

The Arc de Triomphe is engraved (雕刻) with names of generals (将军) of French army during Napoleon's time.

The Notre-Dame (巴黎圣母院)

The Notre-Dame isn't the largest cathedral in the world, but it is certainly the most famous.

French people started to build it in 1163. Almost 200 years later, in 1345 the cathedral was finished: 130 meters long with two 69-meter-tall towers.

During the French Revolution (1789—1799) the cathedral was damaged. During the 19th century it was restored (重修) by a famous architect. It was restored again between 1991 and 2001.

The site of the Notre-Dame is the cradle (摇篮) of Paris and the religious (宗教的) center of the city.

The river Seine (塞纳河)

The Seine runs through the center of Paris, passing 10 of the 20 districts. The river is 776 kilometers long, France's second longest river.

The Seine has always been the heart and soul of Paris. The old buildings, the riverboats, the gardens and the 32 bridges are famous natural scenes of the world.

The oldest bridge was built in 1578. The newest one was finished in the summer of 1996.

From the water, visitors can see the Cathedral of Notre-Dame, the Louvre (卢浮宫) and the Eiffel Tower. The northern side of the river is called the Right Bank and the southern side, the Left Bank. The Banks were added to the UNESCO's list of World Heritage Sites (联合国教科文组织的世界遗产名单) in 1991.
