字 数：280 千字	

前言

INTRODUCTION

组织学和胚胎学对高等医学院校学生来说是两门很重要的医学基础课程。人体各系统器官的微细结构和超微结构,是实现各种生理功能和病理改变的形态基础。学习这两门学科,均需在观察形态结构的基础上进行理解、记忆。在课堂上观察组织、器官的微细结构和超微结构,由于时间短、内容多,极易造成印象不深,不利于加深学生的理解和记忆。而观察不同发育时期的幼小胚胎标本,又很难体会胎儿在不同生长发育时期形体和器官的变化关系。因此,编绘一部具有科学性、系统性、真实感强的组织胚胎学图谱,就变得非常必要。

组织学、胚胎学近几年发展很快,教学内容也不断地充实和更新。为使图谱的内容适应学科的发展,我们在汇集了我校和兄弟院校成熟的教学经验的基础上,收集了大量的资料和图片,编绘了这部光镜和电镜相结合的《组织胚胎学彩色图谱》。

这部图谱是依据高等医学院校“组织、胚胎

学教学大纲”和高等医学院校“医学专业业务统考大纲”的规定内容进行编绘的。图谱的光镜图像均为彩色,电镜图像均为原版照片。图像清晰、重点突出、真实感强。在图像设计上,吸取了国内外相同学科教材和图谱的精华,构图独特、新颖,是高等医学院校师生必不可少的工具书。对从事科学研究、生理学和病理学的学习以及临床病理观察各种切片也具有极大的参考价值。

在本图谱编绘过程中,我们得到了中国医科大学各级领导的热情支持和鼓励,得到了中国医科大学和各兄弟院校专家学者的亲切指导,在此一并表示谢意。

由于我们编绘水平有限,本图谱若存在不足之处,恳请各界同仁和广大读者不吝指正,以便再版时改进。

韩秋生 徐国成 王彦杰

365. 胎膜和子宫内膜的关系 Relation of fetal membrane and endometrium	103
366. 5 周人胚 Drawings of a 5-week embryo	104
367. 6 周人胚 Drawing of a 6-week embryo	104
368. 7 周人胚在羊膜腔内 Drawing of a 7-week embryo in amniotic cavity	105
369. 9 周胎儿 Drawing of a 9-week fetus	105
370. 9 周胎儿在羊膜腔内 Drawing of a 9-week fetus in amniotic cavity	106
371. 12 周胎儿 Drawing of a 12-week fetus	106
372. 26 周人胎儿 Drawing of a 26-week fetus	107
373. 胎盘结构模式图 Diagram of structure of the placenta	107
374. 28 周胎儿在子宫内自然位置 Normal location of a 28-week fetus in the uterus	108
375. 胚龄和胚胎早期发生 Embryonic age and early development of the embryo	109
376. 颜面的发生 Development of the face	110
377. 各型唇裂和面斜裂 Types of cleft lip and oblique facial cleft	111
378. 咽囊及其所演变的器官 Pharyngeal pouch and organs from pharyngeal pouch	111
379. 腭突和鼻中隔的发生 Development of palatine process and nasal septum	112
380. 牙的发生 Development of teeth	113
381. 椎骨的发生 Development of vertebrae	114
382. 肢芽的发生 Development of limb bud	114
383. 四肢皮节发生的神经分布 Development of dermatomere of limbs and distribution of nerves	114
384. 4 周人胚 Drawing of a 4-week embryo	115
385. 气管和食管的分隔 Partitioning of the trachea and esophagus	115
386. 喉的发生 Development of the larynx	115
387. 支气管和肺的发生 Development of the bronchi and lung	115
388. 5 周人胚 Drawing of a 5-week embryo	116
389. 胃和网膜囊的发生 Development of the stomach and omental bursa	116
390. 5 周人胚 Drawing of a 5-week embryo	117
391. 肠的发生 Development of gut	117
392. 泄殖腔的分隔 The partition of cloaca	118
393. 胰腺的发生 Development of pancreas	118
394. 前、中肾的发生 Development of pronephros and mesonephros	119
395. 后肾的发生 Development of metanephros	119
396. 外生殖器发生示意图 Diagram showing development of external genital organs	120
397. 血岛和血管的形成 The formation of the blood island and vessels	121
398. 体蒂时期血循环 The blood circulation during the body stalk	121
399. 人胚三种血循环 Three types of blood circulations of the embryo	121
400. 动脉弓及其改变 Aortic arches and their change	121
401. 心管和围心腔的位置变化 Change of location of the cardiac tube and pericardial coelom	122
402. 心脏外形的改变 The change of heart shape	122
403. 房室管的分隔 Partitioning of the atrioventricular canal	123

404. 心房和心室的分隔 Partitioning of the cardiac atrium and cardiac ventricle	123
405. 胚胎期心脏内的血液流向 The direction of blood flow in heart during the embryonic phase	124
406. 心球和动脉干的分隔 The partition of the bulbus cordis and truncus arteriosus	124
407. 心脏发育异常 Abnormal development of the heart	125
408. 动脉导管异常 Abnormal ductus arteriosus	125
409. 胎儿血液循环图 Diagram of fetus blood circulation	126
410. 神经管和三个脑泡发生示意图 Diagram showing development of neural tube and three brain vesicles	127
411. 三个脑泡发育的示意图 Diagram showing development of three brain vesicles	127
412. 三个脑泡正中矢状切面 Median and sagittal section of three brain vesicles	127
413. 脑室和纹状体的发育 Development of cerebral ventricle and corpus striatum	127
414. 脊髓发生示意图 Diagram showing the development of spinal cord	128
415. 中枢神经系统的组织分化 Differentiation of tissue in central nerve system	128
416. 垂体的发生 Development of hypophysis	129
417. 神经嵴分化示意图 Diagram showing differentiation of neural crest	129
418. 眼的发生 Development of eye	130
419. 内、中耳的发生 Development of internal and middle ear	130
420. 外耳的发生 Development of external ear	130
