前 言

为沟通国内外有关部门与我国冶金矿山企业的联系,促进信息交流和经济合作,提高企业的知名度,推动冶金矿山生产建设发展,冶金部生产协调司和冶金部信息标准研究院联合编写了《中国冶金矿山企业手册》(中英文对照)。

本手册收录了国内 140 多个主要冶金矿山企业的概况(包括地理位置、通讯地址、邮政编码、电话、电挂、传真、隶属关系、所有制性质、负责人姓名及职工人数等),生产经营(包括矿石储量、矿石性质及品位、矿山建设、采选工艺、主要设备、主要产品及产品销售情况、技术经济指标)等。它集技术、生产、经营和贸易为一体,是一本实用、有效的工具书,适合于生产、经营、科技、贸易和信息部门的各级领导和工作人员使用。

本手册在编辑出版过程中,得到了各冶金矿山企业领导以及有关部门人员的大力支持和帮助,在此表示衷心的感谢。

本手册的编写,力求文字精炼、准确,内容丰富,切合实际,满足各方面人员对冶金矿山信息资料的基本需求。欢迎广大读者提出改进意见,以利再版时更臻完善。

编者

Preface

In order to establish close link between mining enterprises and the trade concerned both domestic and overseas, promote information exchange and strengthen economic cooperation, increase knowability of enterprises, bring about an advance in production and construction of ferrous metal mines, Production Coordination Department of the Ministry of Metallurgical Industry, PRC and China Metallurgical Information and Standardization Institute have jointly compiled the Chinese /English bilingual *Handbook of Ferrous Metal Mines in China*.

Contents included in the Handbook are: general situation (site, address, postcode, telephone, cable, fax, subordinating relationship, ownership, name of leading cadre and member of employees); operation and business (ore reserves, grade and characteristics, mine construction, mining and mineral processing technology, major equipment, main product, product marketing, techno-economic indexes) etc., of over 140 major ferrous metal mines in China. Integrated information of technology, production, management and trade into one volume, the Handbook is a practical and useful reference for production and purchasing managers, technical professionals, traders, analysts and others.

Grateful acknowledgement is accorded to the managers of mining enterprises and personnel of related departments for having given their generous assistance in compiling and publishing the Handbook.

In preparation of the Handbook we have endeavoured to reach a high standard of accuracy and readability and made all the available information to be contained, thus the Handbook can meet the requirements of anyone who needs concise and up-to-date information data of ferrous metal mines in China. All comments and suggestions would be grateful and valuable for us to make the next edition a more modern reference.
