前 言

《通用大学英语》包括一套多媒体学习光盘和配套的文字教材,是国家“九五”重点科技攻关项目的研究、开发与应用成果。《通用大学英语》的内容是依据《大学英语教学大纲(文理科本科用)》,由富于教学经验的中美教学专家按分级教学要求而编写的。这套教材包括光盘4张和课本4册,将从1998年起陆续推出。

在教材的设计和编写时,我们以面向信息时代的大学英语教学内容、课程体系和教学方法的改革为出发点,考虑到充分发挥逐渐普及的多媒体计算机在教学中的作用,力图建立一套能适应以学生主动、交互学习为主的教学思想的新型大学英语教材,从而为推动我国大学英语教学上一个新台阶作出贡献。

《通用大学英语》光盘将英语课文学习、补充泛读材料、听力训练、在线英汉词典、在线语法、多媒体画廊、联机测试、联机笔记、谚语警句等融为一体,能够满足不同学生的多种学习要求,从而为学生高效率地学习奠定基础。

《通用大学英语》文字教材对应于光盘中的课文学习部分,相当于其它英语系列教材的精读课本,可直接用于课堂教学。课文在选材方面既有经典性,又有现代特征;既注重知识性和信息性,又不失趣味性与实用性。体系编排方面考虑了学生自学和用计算机学习(CALL)的需求。4册课本基本对应于大学英语的四个级别,每级(册)包括20篇风格及题材各异的课文,以此为基础编排成学习单元。每个单元结构如下:

1. Introduction (导学): 概要介绍文章的内容、重点词语及语法现象,起着教师指导的作用。
2. Outline (课文纲要): 详细而标准的大纲模式,以满足不同风格、不同类型学生的需要。
3. Pre-reading Questions (导读): 三个与文章内容相关的简洁问句,使学生已有的相关知识与文章内容有机地建构在一起。
4. Text (正文): 精选自经典或现代英文原版材料,作了少量修改。
5. Paragraph Questions (段落问题): 针对课文的段落信息提出一些精炼的问句及一个全文主旨问句,以帮助学生加深对课文的理解、引发学生的思考。
6. Language Points (语言点): 从篇章的衔接、指代关系及语篇角度,对语法现象、语言

现象、文化现象较多的句子及较长的句子进行英文注释。在重点词语的解释时,对所举例句也进行了翻译,有些常见的近义词及构词法还通过 Further Information 的形式作进一步注释,以使学生更好地掌握它们的用法。

7. Comprehension Exercises (理解练习): 采用多种类型的问题,以便多角度地加深对文章的理解。包括: (1) Factual Questions (事实问句), 采用 Sequential Statements、True or False statements 或 Multiple Choice 等形式,使学生在理解课文的基础上,寻找出文中的重要事例与事实; (2) Inferential Questions (推论问句), 通过显性与隐性的推论题,使学生能够理解作者的意犹未尽或言外之意、写作目的及观点等,从更高一级的角度来把握课文。

8. Vocabulary Exercise (词汇练习): 通过与课文相关的文化语境使学生学习并掌握词语的正确用法。

9. Writing (作文): 通过一、两个与课文内容相关的问题,引导学生自己发挥,编织和扩展课文以外的信息。

10. Translation (译文): 为满足不同水平及层次学生的需求,所有的课文都附有中文翻译。

需要特别说明的是,因文字教材与光盘配套使用,光盘上已有联机英汉词典,所以没有给出每课的生词表。另外,上述单元结构与光盘上的超文本组织也有些不同。

我们非常珍惜在《通用大学英语》的策划、设计和编写过程中与高等教育出版社外语二室、北京高教多媒体开发中心之间亲密而真诚的合作,在本教材编写、制作和试用过程中,东北大学教务长段曰瑚教授、教务处、计算中心、CAI中心的领导给予了大力的支持与帮助,外国语学院院长李思国教授及外国语学院的领导也对本项目给予了极大的关注与支持,一些师生也积极参与了本项目的试用、研制与开发,在此一并表示感谢。

尽管编写时我们在体现和探索新型教学思想方面尽了最大努力,但由于水平、经验有限,这套教材中难免有一些不尽人意之处,我们热诚欢迎广大师生在使用本教材时提出宝贵的意见。

Text

THE ENGLISH LANGUAGE (I)

Para 1

The English language is the most widely spoken language in the world. It is used as either a primary or secondary language in many

countries.

Para 2 During the 1500s, fewer than 2 million people spoke English. All of them lived in what is now Great Britain. Through the centuries, as the result of various historical events, English spread throughout the world. Today about 400 million people speak English as their native language. Most of them live in Australia, Canada, Great Britain, Ireland, New Zealand, South Africa, and the United States.

Para 3 Another 100 million people, chiefly living in Bangladesh, India, Pakistan, and in many African countries, speak English in addition to their own language. An additional 200 million people probably know at least some English.

Para 4 English has a larger vocabulary than any other language. There are more than 600,000 words in the largest dictionaries of the English language.

Para 5 Some English words have been passed on from generation to generation as far back as scholars can trace them. These words such as *woman*, *man*, *sun*, *hand*, *love*, *go*, and *eat*, express basic ideas and feelings. Later, many words were borrowed from other languages, including Arabic, French, German, Greek, Italian, Latin, Russian, and Spanish. For example, *algebra* is from Arabic, *fashion* from French, *piano* from Italian, and *canyon* from Spanish.

Para 6 A number of words, such as *doghouse* and *splashdown*, were formed by combining other words. New words are also created by blending words. For example, *motor* and *hotel* were blended into *motel*. Words can be shortened to form new words, as was done with *history* to form *story*. Words called acronyms are formed by using the first letter or letters of several words. The word *radar* is an acronym for *radio detection and ranging*.

Para 7 Pronunciation and spelling in English sometimes seem illogical or inconsistent. Many words are spelled similarly though pronounced differently. Examples include *cough*, *though*, and *through*. Other words, such as *blue*, *crew*, *to*, *too*, and *shoe*, have similar pronunciations but are spelled dif-

ferently. Many of these variations show changes that occurred during the development of English. The spelling of some words remained the same through the centuries, though their pronunciation changed.

Dara 8 Grammar is the set of principles used to create sentences. These principles define the elements used to assemble sentences and the relationships between the elements. The elements include parts of speech and inflections.

Dara 9 Parts of speech are the word categories of the English language. Scholars do not all agree on how to describe the parts of speech. The traditional description lists eight classes: nouns, pronouns, verbs, adjectives, adverbs, prepositions, conjunctions, and interjections. The most important relationships of the parts of speech include subject and verb, verb and predicate, and modifier and the word modified.

Dara 10 Some modern scholars also divide the parts of speech into two categories, content words and function words. Content words are the main parts of speech — nouns, verbs, adverbs, and adjectives — and carry the basic vocabulary meanings. For example, *dog*, *write*, *happy*, and *seldom* are content words. These words are also called form classes. Function words express relationships between content words in a sentence. For example, *the*, *in*, *it*, *and*, *because* and *not* are function words. They show the grammatical, or structural, meanings of the sentence and are also called structure classes. Function words include articles, prepositions, pronouns, and conjunctions.

Dara 11 English has fewer inflections than most other European languages. An inflection is a variation of the form of a word that gives the word a different meaning or function. An English noun has only two inflections, the plural and the possessive. Inflections are used to change the tense and number of a verb or the case of a pronoun. Inflections can change adjectives to the comparative or the superlative — for example, *big*, *bigger*, *biggest*.

Dara 12 Grammar also defines the order in which parts of speech may be used. The subject of a sentence usually comes first in the word order in English.

It is generally followed by the verb and then the object. Single words that modify nouns are usually placed before the noun, but phrases that modify nouns are usually placed after the noun. Words that modify verbs can be put before or after the verb.

- Dara 12** When phrases are used to modify nouns, where are they placed in a sentence?
- The whole text** What is important to the development of English vocabulary and the grammatical structure of English sentences?

Answer: The development of English vocabulary is a long and gradual process, during which many words were borrowed from other languages to enrich the large stock of its vocabulary. English vocabulary includes both ancient and new words; some of the new words come from other languages, and some are the result of combined words or acronyms. The grammar of an English sentence can be viewed as the relationships among the parts of speech, its few inflections, and its normal word order.
